Death's big business. For Laney Larson, it's a full time job.

The latest in a long line of Reapers, Laney hits Liberty, Oakwood expecting the usual 'reap and run' type of job. However the small town holds far more secrets than she expects, including a sexy cop who blindsides her reaper instincts - big time.

Liberty. It used to be a nice town until the things that go bump in the night moved in.

Detective Troy Regan moved to Liberty to claw back a little of his soul after working homicide in the big city. But the sleepy little town has problems of the paranormal kind and its police department has gone from calls about lost cats to Boggarts in the basement. Then the seriously nasty stuff moved in.

Troy's not sure exactly what flavour of paranormal Laney is, but he doesn't care. She's tiny, delicate and gorgeous. When he finds a Lycan looming over her in an alley, all his protective instincts flare up. He needs to get her home, keep her safe... in his bed. But is she the answer he's been looking for to fill the empty spot in his heart, or the most dangerous creature he's ever met?

### **Debra Johnson says**

The Reaper and the Cop (Liberty Oakwood, #1) by Mina Carter is a Paranormal Suspense Adult Romance. It is a short serial of about 40 or so pages.

No one writes serial shorts like Mina Carter! She always delivers a fantastic read that is superbly written. I know it is short. I know it is a serial. But! Wow!

The action is fast paced. The characters and world build have the perfect amount of information.

NO boring repetitiveness.

NO editing mistakes.

It moves at supersonic speed, grips you from the first word and holds you completely enthralled to the last word.

Here is a quote from the book just to give you an idea of what her writing is like.

"Forget taking a para as a lover, the most feral and primal species out there is plain old human."

I checked Amazon and it says book #2 is 87 pages for 2.99. I would like a little better deal if the page count is correct. However, I don't know if I can wait long enough for a deal to happen. It is just that great and I really loved it.....

Honestly this probably closer to a 4.5 star. I loved and hated this story. And by hated I mean the fact that it ended so quickly! Mina Carter did a fantastic job hooking me into this universe. Laney is spunky and hell on wheels, just the kind of character I love reading about. Troy is sexy and completely wins me over with his get down to business attitude and protective nature. And the chemistry between them is like fireworks.

Big thanks to This Redhead LOVES books for giving me an ARC copy to review!

My inner voice : WHAT THE HELL.... Like 5 times. It's suddenly ended like that. Apparently it's a to be continued series. Dang it to moon and back :').

Okay the pace is really fast too fast, yea well duh, 46 pages, trying to explain it one go.

I really like the plot and the storyline, also the characters. So Mina Carter now officially my new favorite author.

Off to book 2.

If you're looking for a quick, sexy, sassy read I'd definitely recommend checking out *The Reaper and the Cop*, the first in the *Liberty Oakwood* series. The pace of this piece was great; not too fast, and not too slow. I kept turning the pages, ready and excited to see what would happen next. Be warned though, the ending is abrupt, and definitely leaves you wanting more. Still, the writing is solid, the characters brilliantly written and the plot insanely intriguing.

We start off meeting Laney, a Reaper, who explains what being a Reaper really is all about. She's fun, snarky, and definitely says exactly what's on her mind. Tough as nails, independent, petite and curvy, Laney is a force to be reckoned with when it comes to combat. Laney is just going about her business when she sees Troy in a bar, and surprisingly he can see her too.

Troy Regan is a driven cop who is trying to figure out why the small town is being overrun with paranormals. Troy is a great example of an alpha male, he's handsome, quick on his feet – especially where Laney is concerned – and from the moment he catches eyes with Laney, he feels protective over her. Personally, I'm not 100% convinced that Troy is completely human, but I suppose we'll see.

Overall I give *The Reaper and the Cop* five stars, and am impatiently waiting for the next installment of the series.

This book was amazing! The author definitely takes you for a run on your money with this one! She loves to make you think you have things figured out and then throws a turn into it. She gives you a little back story on the Reaper situation and how it is passed to the next person.

You have Laney who loves her job, a reaper, hey someone has to do it right. She is great at doing it and has never had the issues of persuading someone to only see what she wants them to see until now. When her job takes her to this little town she sees this human Troy. Something seems to be different about him, he shouldn't be able to see her in the shade form. Little does she know this town is used to Paranormals by this time. Who doesn't love a heroine that can take care of herself.

Troy is this sexy cop that has been dealing with the paranormal world for a while now but when he sees Laney he can not put his finger on what she truly is. When they both go chasing the same werewolf and she is injured he takes care of her in more than one way. Sexy, protective, and sweet at the same time, I need one of these!

I loved this book, even with the ending it has. Even though this was short read it definitely was a great story. I will have to go pick the authors brain on when the next one will come out because I want to know what is

next for us especially with all the elements she has opened up for us in this beginning of the series.

Okay...

I am a bit confused here. Amazon has this listed as a BBW book, which I had to search cause I have never met an acronym I didn't have to have somebody explain to me. Well the consensus is that it means Big Beautiful Women, and it stated these books that Amazon tags with it are about curvy girls and not skinny waifs.

I can get behind that, I get sick of the template heroine in romances novels with the tiny, tiny waist, perfect hair, big tits, and an lush ass. I'm mean it's got to the point where I pout when I read an interesting book blurb only to find out it's het not m/m...DAMMIT!

\*cough cough\*

Case in point this book right here!

Anyways I am getting sidetracked the point is I read this *She's tiny, delicate and gorgeous.* in the description. Am I missing something here, does BBW not mean what I think it means?

This was the first book of Mina's that I have read. I will be reading more.

Laney is tough and outspoken. I like this in a heroine. She has just the right amount of snark and not only knows it but is unapologetic about it. She knows who she is and what she is with few if any reservations. Troy is hot and sexy with a caring side. He is willing to follow his instincts to find the answers to his questions. Though protective, he has the ability to stay out of the way at times. He also knows what he wants and recognizes his emotions. This alone is interesting enough to make me keep reading.

Be sure to look out for a bit of nerd humor as well! Mina has lightly sprinkled this book with wonderful nerdy references that made me laugh as well as plenty of snark to keep my sarcastic sense of humor actively awaiting the next comment.

Oh man, this was too short. I was just getting into the story and it's already over.

Not too many books feature a snarky, petite but uber-curvy Reaper of death as the heroine. Add in a sexy cop that knows too much about the paranormal world and you've got a recipe for steamy hotness.

**Crina (Reading Addict) says****Original post on <http://readingadd.blogspot.ro/>**

I read this because I have it, but is not so important for you to read it, just if you want to know how they met and stuff.

It's a cute and hot novella, in which you can find both steamy romance and a kick-ass female lead that beat the s.ht out of a werewolf. I'm not a violent person but I really liked the times when she showed that she could take care of herself and do her job.

Plus the two of them and nice to see together, I like the tension between them and how in all that mix of feelings is needed just a spark and everything goes exploding. Interesting to see and if they won't kill each other in the future, then they'll have a hot, funny, rollercoaster relationship.

I have read several of Mina Carters books and I like each new book better than the last lol. This was no different. First I love out of the box books and a reaper is perfect fit. Laney is in teh family business of reaping. Troy is a cop who knows about the supernatural creatures, well not all of them. Laney is looking for her next job and runs into Troy, instant attraction and lust. Troy knows Laney is other just doesnt know what that is exactly, until work comes calling. Now Laney has a town to take care of and the perfect man beside her.

My complaint was the story needed to be longer, I know there is room for more books and I am thrilled, I just felt this one would have benefited if it was a bit longer.

Short. Lady reaper book.

**Brittain \*Needs a Nap and a Drink\* says**

This book was 46 pages and all of it pretty much nonsense. The sex scene takes up more time than the plot.

**Book Snob Sue says**

Love Mina Carter books. She's a reaper that gets called to town. When she gets there, one of the cops can see her even though he shouldn't be able to. He is fully aware of all the Supernaturals in their town, but he's not sure what is drawing them there. These two have crazy chemistry together. And apparently she is staying in town for awhile to try and figure out what's going on.
