## **Wild Love** Jane Jamison

Emma Rand is living life to the fullest. After receiving devastating news from her doctor, her boyfriend dumps her and she decides to fulfill her lifelong dream of writing a book. She moves to Forever, Texas, to find the solitude she needs to write. If only she has enough time left.

The Carr brothers have waited for their mate, and when Emma finally arrives, they know they've found her. Setting out to win her heart, however, won't be as easy as Jayden, Jacob, and Jackson thought. She's gravely ill, and only turning her will keep her alive. Yet when her ex-boyfriend talks her into trying an experimental cure, will she accept the medical surgery that might cure her? Or will she let her heart show her the way to a long and happy life with her three mates?

Note: There is no sexual relationship or touching for titillation between or among siblings.

Genre: Ménage a Trois/Quatre, Vampires/Werewolves, Western/Cowboys Length: 39,373 words

Wild Love is book 1 of the series which, as of 3/8/14 includes 12 books. A spin-off series, Werebears of Shatland, Texas is coming in March, 2014.

### **The BookChick says**

Meh...below average read.

---

### **Paula says**

Three brothers, who happen to be werewolves and one mate. Pretty hot read

---

### **Ruth Hambley says**

Well written and enjoyable to read. If you enjoy reading shapeshifter menage and romance then this is a great story.

---

### **Wild\_irish\_rose says**

This is a good werewolf story with a good plot and likeable characters.

---

### **Claudia Reinbrecht says**

2.5

---

### **April says**

Yummy, Hot and Heavy, Steamy read!!! Such a sexy book!! I love a hunky shifters!!! The story could have been better but overall an enjoyable read!

Oh, and I love a delicious paranormal menage!! The more the merrier!! Once they get into the steamy action things move along rather quickly. I would have liked a bit more build to make feeling believable.

There is just something about this series that keeps drawing me into each book. I hope it gets better with time. It is a really promising concept.

---

### **Tricia says**

This first book in the Werewolves of Forever, Texas series is awesome. Can't wait to read the next book in

this series.

---

### **Kiesha says**

**Amazing!!**

---

### **Donna says**

I know...I am usually a 4 star book reviewer...and this book was OK...just didn't work for me...can't even say why. Will not be looking for the next book in this series.

---

### **Cyn Mistress Kitty says**

Nice start to this series with some hunky werewolves.

---

### **Laura says**

This is the second time I have read this book and I like the story line but felt the book was a little boring and had one or two discrepancies that threw the story off a bit for example when Jackson entered her mind as he was leaving it I was given the impression that he still didn't know what was wrong with Emma but when he was finished he told his brothers what was wrong with her.

---

### **Brittany says**

This was just okay. The dialogue was very cheesy but that sadly is pretty typical of ménage books I have come to realize. I did like the brothers and the story just needed work on the dialogue and inner monologues.

---

### **Heather book whore & shifter slut extrordinaire says**

This was a good book, not a great book but definitely good enough for me to enjoy it on its merits as more than just sexy brother werewolves who find their mate in one woman and ENJOY THE HELL out of her.

Emma is dying and follows an instinct to go to Forever, Texas and write her dream romance wolf shifter novel with the time she has left. Obviously fate, with the help of a former Forever resident, has led her to these brothers and this place where she can be healed and live a life of love and acceptance.

I enjoyed the wit and silliness of the characters as well as the complete honesty from the men - even fictionally it was refreshing. I felt things moved a little quickly in some ways yet it made sense when they

talked about this being their next move so I guess I am still a little conventional. I liked the fact that the men felt protective of her and that their instinct was always to make sure she was all right, even in the situations where they knew she wasn't and couldn't be okay, they were there for her. As horrible as it sounds, I have heard and seen cases where one spouse/significant other/partner whatever leaves because they can't handle the other personal (terminal) illness. You feel like slapping them and saying stick around, it won't last forever! Heck it might not even last the rest of the week! Some people are truly asshats and should give up trying to change. Just wear a sign and stay out of my way.

All in all it was a good enough book to interest me in Forever and the people and I ended up reading to the end of book 3 that night.

I give this 3.5 stars but GR doesn't do half and I can't make myself click 4. Book 2 gets even better!

---

### **Allison Gill says**

This book had a bit of everything. I love reading a book that fires up my imagination. Emma made a choice to live life and do what she wanted, when & how she wanted. The triple J Carr brothers have everything she needs. Throw in an ex boyfriend who needs a kick up the \*\*\* and you great a great story.

---

### **Tia says**

For a werewolf story, it was a bit too cheesy for me. The heroine is dying of a cancerous tumor in her brain. It's inoperable and she only has a few months to live, when she meets three hunky males. Her boyfriend dumped her when he found out about her tumor and now these three men have a vested interest in her. They are shifters and she is their mate. Now all they need to do is convince her to be with them. Once they turn her, her tumor will die and she will be free to live, with them.

Like I said a bit cheesy but sweet in some ways. I'd like to see what book two holds in the series. It's comes out in early June of this year. (2012)
