Blood Ties Ella Stone

Cole's vendetta against the Demon Brothers could have very well cost him the one thing he treasures most - Maddie.

Hot on the heels of his psycho mother, Cole needs to get to her before it's too late.

So much rides on this rescue going according to plan. The fate of the MC and the fate of his own soul. No matter what, Maddie must live.

The exciting conclusion to the Underworld Champions series is about to start.

Will everything work out for Cole and Maddie?

Will they get their wedding?

Will the MC finally be free of the Demon Brothers?

Review to follow

Olivia Dibert says

This one fell flat for me. I felt like it was a bit rushed. Bummer

Elfina Renee says

Finished reading the third book, all I can say is the story better not end here!!!! Your fans wants more Cole and Maddie. Not to mention we have a traitor in or mist. Blood needs to be spilled for all the past aggressions against the club!! Traitor....I call you out, my guess and I could be.... wrong, is its a she!! Another book would be helpful. Also I'd love to know what happened after the arrests and the biker fair. It was still going on in full swing. Will Towball or Dingo fall in love with some girl next door or sweet butt? What about Maddie's mom? She's had a tragic loss, couldn't there be some significant other to help pick up the pieces. I mean he'd have to be very special, alpha male of course. Someone intensely strong to not put up with any of her self pity or BS. The list goes on, bottom line this was one hell of a good read!

April Brookshire says

The anti-bikers (anit-bikies) laws in Australia sound like they'd be unconstitutional in the U.S., so I imagine people think them similar in Australia.

However, the Outlaw MC in this series ARE criminals who DO engage in criminal activity by bringing guns illegally into a country that is relatively gun-free compared to other countries (like the U.S.), so I don't actually feel sorry for the characters in this book because they pretty much all deserve to go to prison (the guys in the MC) for murder or arms trafficking.

However, they don't deserve to go to prison just for wearing their patches or riding their bikes in groups.

Not that I don't enjoy reading about MC romance like every other reader of the genre, but I can't feel sorry for bikers who ARE criminals.

This was more a novella than a novel in length and plot, being that there wasn't much of a plot and some of it was flashbacks to previous books. It was mostly boring because though I like Cole, I don't love the actual main couple of the series and don't have a real interest in them.

The author should write a book with a Cole type of character who does all his crazy badass (or badarse) assassinations and ninja stealth moves like in book 2. That's way more interesting.

I liked the ending some, but I hope the H and h didn't ruin their lives with what they did.

One thing that stood out for me, was that the author managed to put in just the right amount of description in her story, and was subtle about it. Also, she does first person, present tense really well and the vocabulary is varied enough.

WARNING HUGE SPOILERS DO NOT READ IF YOU DON'T WANT TO KNOW

Okay I really loved this series I was so attached to everyone in the books I swear I have cried so many tears ... I am happy with the way the series ended though I do kind of want to know what happens with the public when they see them being taken away in handcuffs on there wedding day I know as a viewer I would be stark raving mad if I saw that on the news at 10 ...

I am sure everything works out for the best in the end at least that is the way I want things to work out in my mind ... ;)

I am really glad I read this series I hope other people enjoy it as much as I have

Emily Fletcher-breslau says

Wow! I'm so behind the bikers. Think I felt myself joining in the protests!:) I've grown to love these characters over these past 3 books, so much so I'd like to join them for a BBQ. Great read once again. Really hoping there is more to come.....??

Sweets Books says

3.5 Cupcakes

It was okay not great but okay. I mean it just seemed kinda rushed and forced in places. When I was reading it I got to 44% and I thought it was over till I looked down and seen I was only 1/2 way through the book. The first 1/2 was good but the second 1/2 just fell flat for me. And the ending I was going "That's it?"

Overall it was a good series. And I liked the characters they all seemed to be great although it seemed like maybe there was a touch of too much drama with Maddie and everything that happened to her throughout the series.

Till next time - Sweets Books

Connie says

Couldn't wait to read this book since I had already read the first two. Way to go, Ella Stone. Was not disappointed. Loved the conclusion of Cole & Maddie's emotional action-packed ride. Hope there's more to come in this series. Would recommend.

me says

idk by the time this book came out you forget the others.. and then I lost interest.. it felt like it was being dragged out with no story line

Natasha says

Brilliant ending. Initially I thought no way it can't end there but actually... It's the perfect ending for these two. Cole and Maddie went through so much to get this far so it was only befitting that they go out with this kind of ending. I loved Cole, he was such a sweet heart when it came to Maddie and I enjoyed the fact that Maddie fitted so well with Cole. Even allowing him to go off on his rides without complaints. Knowing that its what had to be done anyway. I'd love to read more of these two though....maybe an epilogue would have been nice.

Penny says

3.5 stars

Denise says

I believe this was the end of the story .. It was good read and really hate to see it come to an end would like to know what happens with the protest.. I was guess in the middle of this book and was caught off guard which I was glad to be ...

Rachel Ravishing Reads says

I was dying to read this book as I loved the first two in this series...

It did not disappoint. I loved Cole And Maddie she's kick arse feisty everything I love in a MC book! She's had a hard life but finally found herself a home.

Cole well what do I say? Hot sexy drool worthy total bad boy loved him!

This book brings Maddie and cole obstacles to face that were carried on threw the previous books, the story line carried threw and I did not get bored at all was with the characters all the way threw the feelings emotions were very well explained and I could not of asked for anything more from this book. The ending of the book did not leave anything hanging all my questions were answered. Loved the books! Brill!! Can't wait to see what Ella will bring us next!

Rachel says

Not at all what I was expecting...

Not at all what I was expecting...

I'm a little sad, I have been waiting months for this book, and it was not at all what I was hoping it would be. The first two were amazing!!! And got me totally hooked, while this book did finishing tying up some lose ends, I really expected more from this author and I felt let down at the end. (sigh)
