## Bethany Phelps says

I received this book for FREE through Goodreads First Reads.

I think this is a good book to read to young children, especially during the early stages of learning when they are asked to group words together by first letter. Some of the word choices, such as "inoculated" and "unfurled" caught me off guard. Don't get me wrong... I think it's GREAT to challenge young readers! However, in my view, this book appeals to a younger audience still learning basic sight words.

## Hørν says

I recieved this book via First Reads Giveaway and I have to say I'm glad I did. I read this book to my younger siblings and totally loved it! I had fun as well, trying to say the tongue twisters within the book:) This was a really good book, suitable for ages 4-7, but adults will also enjoy this book as well.
