Everlasting Embrace, Embrace Series Book 4 Charlotte Blackwell

Sophia Pierce has walked the earth for over a century. She's struggled, but finally found meaning to her existence. She found love, friendship and an amazing family. Now with the love of her life by her side, Sophia feels strong enough to conquer anything. Even raising a baby, born as his mother died at the hands of the Cerberus, evil Vampires. Sophia helps her best friend deal with the loss of her husband and raising their daughter. Stronger than ever, Sophia isn't prepared for everything she's about to learn.

Good versus evil seems like a pretty easy concept, but that's not always true. When an Angel hunter comes for Nathaniel's friend Ben a Nephilim, Sophia and the Pierce family vow to protect him. Ben finds safety in the new Supernatural school created by the Pierce family, their shape shifter allies and the Magnificent Ones. With Caspian's at the head of the school, things are bound to get exciting.

Everlasting Embrace will take you on an exciting journey, of danger, love and life. When one love leaves, can another be found? Can that love return to you once they left? Sophia Pierce will learn the answers to this and so much more as she helps the ones she loves heal..

I love love love, this series! This book has so many happy moments for all the characters. I found myself tearing up more times than I can count. Sophia and Ebony finally are starting to have the love they both deserve with Nik and Elyn adding to their happily ever after. I love how Charlotte took this great story and mixed it with many things great series and made an even more amazing story with all the characters I know and love. I can't wait to see what is to come in both series. My only problem with the story is things are repeated a lot. Such as how Caspian ended up with the cerebus, how Nil ended up with Sophia and Nat. And how Ebony ended up a widow because her husband was a guardian. Once it's explained in the beginning it really doesn't need to be explained again. That is my ONLY complaint:)

The book is a good teen and young adult paranormal romance read. The story has vampires, shape shifters, angels, witches, and many more supernatural creatures. The characters are good, and they are likable.

Sofia and her family has lost so much but at the same time has gained a lot as well. Sofia, Nate, Matilda and Alex get married finally and Sophia and Nate adopt his brother Nik. There is just so much love in this book. Caspian finds his soul mate again reincarnated and Ebony is learning to move on without Matt. I can't wait to get to the next book to find out if they defeat their enemy or not.

This was definitely my favorite in the series. I think it had a lot to do with the crossover into Mary Ting's Crossroads series, which to be honest is why I picked up this series to begin with. In addition to that, I also felt this story has more original ideas that branched off from the Twilight and Charmed comparisons. They were still there, it just wasn't as much and not as in your face as in the other books. I do feel that in spite of the struggle I had dealing with the way this author writes, I came to really love the characters and that's very important in a book series that sticks with the same set of characters throughout. Parts were a little overly sappy for me, but I was truly happy for Sophia and everyone else when their dreams came true. I will read book 5 when it comes out to see how everyone is doing.

Finished it in one night! Could not put it down at all!!!! Loved having the Peirce family working with Michael from Crossroads! Shed a few tears here and there. But glad that most of it turned out happily for mostly everyone. I had a happy sigh when I was done reading it. Charlotte Blackwell once again captured me in her world of amazing vampires struggling to fight evil as best as they can.

This final book in the series was my favorite. The Pierce' family has truly grown into that crazy extended family only some of us are happy to say we are a part of (aside from the supernatural elements). I love that Michael from Crossroads made an appearance, and thought the author created a X-Men/Dauntless type of feeling for the newly created school. A wonderful series I truly miss!

love the cover!!! so it's almost here!!!! I can't wait as this is when Mary Ting's Crossroads Saga crossover into the Embrace series woohoo!!!!

Ok. So just finished reading. I enjoyed this book although there were a few points in the book, I thought did

not need to be reiterated. I suppose if you have not read the previous books in the series, these reiterations are helpful and needed. Because I have read the previous 3 in the series, I found some parts to be redundant. That being said, I still enjoyed reading about one of my favorite supe families. I like how Blackwell deals with some very real teen social issues. It is refreshing to see an author not afraid to write her stories with out the stereotypical confines many books end up having. I'm definitely looking forward to the next installment!

I have loved reading this series thus far and I seriously suggest you start reading it if you have not started you won't be sorry. I love all the great happy moments for the characters in this book they have been through so much. I love the paranormal romance part of the book and it's not you average vampires romance.

Loved the book!!! The next book is going to be awesome, can't wait!!! Your rocking it!!

Becky says

If you have read my reviews from the previous books in the series, you will know how much I love these books. Charlotte is amazing and I have been waiting to hear from her about this one. So when I received this book from her on Tuesday I literally screamed in excitement.

I love the world Charlotte has created and with every book it feels like I am coming home and catching up with old friends. Sophia feels like a sort of sister and it's almost like having a catch up with her when I open the book.

This book carries on where book 3 left off and there are a lot of pieces to pick up, the Pierce family are recovering from deaths, demons, monsters and new discoveries. Sophia and Nate are totally made for each other and left looking after Nate's little brother Nik, but they couldn't be happier.

A war is kicking off between them and the Cerberus group and now Angels are sticking their necks in too. It just keeps getting more excitement and this book really has everything - marriage, death, love, war, school, holidays, blood sucking, butt kicking and awesome powers.

Another difference with this book is that not all the story is told by one person, there are chapters told by Sophia, Ebony, Caspian and the new, awesome Michael. Angels may be in this story but they aren't all peace loving, some are out for destruction and the Pierce family must do their best to protect their friends.

I read this in about 2 hours, when I had to put it down I couldn't wait to pick it back up again, I just had to know what happened. Charlotte's writing style just sweeps you into the story, makes you feel at home and involved. And I love the mix of action and romance.

The Pierce family may not be violent blood-sucking vampires, but they aren't wimps either - they have a purpose and beliefs and are not afraid to fight for them. They kick butt on a whole new level.

If you haven't read this series yet, I strongly suggest you do, it just keeps getting better. Here's hoping it's not too long before book 5. :D

This is the continued story for Ms. Blackwell's Embrace series. I have grown attached to the Pierce family and what they have accomplished thru out their years. Her story is a love that never ends. The Pierce family is the kind of supportive family we all want. It is never ending. I laughed and cried thru out this story. I was in awe over a special appearance from an angel in Crossroads.

The story is set up where Nathaniel and Sophia take their relationship a step further. His mother and father have died and now they are raising his new born brother. The family is opening a school for the paranormal so the children can learn what they are responsible for doing in their lives and go in the right direction with the right guidance. Nathaniel's friend Ben is being hunted, they want him to come home because they aren't sure he can handle his powers. With the support of the Pierce family and friends, can Ben be trusted to do what's right? How will the new students embrace their new abilities and use them for good? I really don't want this series to end. Ms. Blackwell, as a reader of yours, I'm requesting this series continue. I love this story line and the characters and don't want it to ever end. This is another masterpiece of yours.
