An anonymous food critic is blasting the local Memphis restaurants with horrible reviews, some restaurants have even gone out of business because of the scathing remarks. Aunt Pat's BBQ has not even avoided the wrath of this critic who hides behind the name Eppie Curian (one with fine taste).

When the true identity of the critic is revealed to be Evelyn's cheating boyfriend, and daily visitor to Aunt Pat's, the restaurant owners and patrons are hotter than any BBQ grill. They want revenge and someone delivers him his own fatal review. The list of suspects is vast, including an fuming restaurant owner, two ex-wives and even someone from Aunt Pat's BBQ Restaurant.

Lulu finds herself on a mission to make sure the fire is put under the right culprit and contain her loved ones grilling to the kitchen.

I LOVED IT!!!!

Aunt Pat's is a family run restaurant located in heart of Memphis on Beale Street. It is known for it's fine Southern cooking and each visit there is a delight. I love not only the food, (Recipes are in the back of the book.) But the characters and the mystery too.

I really enjoyed Derrick coming out of his shell a bit and the way the whole group cared so much to snoop in on his date.

There are parts of this book when I found myself laughing out loud. The characters are true friends to help each other, spunky enough to keep everyone on their toes and their compassion resonates clearly to all.

This book has the perfect amount of seasoning and sauce to tempt everyone's taste buds. A mystery to be savored with a glass of sweet tea and a little peach cobbler.

Once again Aunt Pat's BBQ restaurant is under a critical eye, this time by an anonymous food critic. Soon there is nothing but bad reviews flying around town and Lulu and her family are not happy one bit about it. They get even more spitting mad when they find out who the "anonymous" critic is...a no good cheating boyfriend of Evelyn's. Soon this same man they were all spitting mad at is found dead and once again suspicion clouds the air of Aunt Pat's. Sure, he wasn't liked, but who would hate him enough to kill him? More people than you may think that's who. Will Lulu be able to sift through the clues to find the truth of the matter? Does she really want to?

I must say I think I liked the first book better in this series. This one was good, but I didn't think it was quite as good as the first one. It was a quick and easy read that I did enjoy though. The characters, once again, were my favorite part and a part that I could relate to at times also. They just are such great characters who are so well developed that you can't help but love them and want to read on to see what they do. The setting was once again a really soothing part of the book, being set in the south with a hospitable feel to it. Adams did a good job once again with the pace of the book, being that it had no lull points and was never a "chore" to read. This book was full of great sounding food, so well described you could almost smell it while reading...which made me hungry at times, not a bad thing though. The plot, characters, food, mystery, and everything in between was simply fantastic. I would recommend this book, as well as the first book in the series, as I loved that one too.

4/5 Stars!

THis is the second in Memphis BBQ Mystery series by Riley Adams.

Lulu Taylor oversees the running of Aunt Pat's. There is always a good crowd at Aunt Pat's to enjoy the great BBQ and assorted side dishes.

The story starts with Aunt Pat's getting a less than favorable write up in a local paper from mystery food critic Eppie Curran. (I love that name) Before long it is learned that Eppie is none other than the cheating boyfriend of Lulu's friend and frequent customer, Evelyn. Evelyn has previously been married to Adam(Eppie). Adam is presently legally separated from his wife. Soon, Lulu's granddaughter finds Adam dead from a gunshot. Naturally suspicion points toward Evelyn. But wait, there is the current wife, could she have done it. But still, maybe a restaurant owner who had received a bad review. So Lulu's plate is full of possible suspects. Throw in a wedding at Graceland, that Lulu is helping her friend Peggy Sue plan in which nothing is going right. Mix this all together and you have a very meaty story.

Very good storyline. My only issue was some loose ends not discussed at the end.

It was fun and really nice to visit Aunt Pat's in Memphis again. To catch up with her family and friends, join them while eating the best barbecue in town, and catching a killer. It felt like I read the previous book yesterday instead of weeks ago. I so want to visit Memphis and eat some of the dishes described in this book. And if you love to cook, there are some awesome and short recipes in the back of it.

The mystery was very well written, there were so many suspects, and the one I suspected, did not do it after all. It sure was suspenseful till the end. I love being surprised in my books. The whole cast of characters is delightful in their eccentricity. I love their, to my Dutch eyes, very strange sayings and dishes. It is also refreshing not to have a younger sleuth and a possible love interest to deal with. Lulu is a grandmother, who cares for her restaurant, her son and daughter in law, and their twin girls. Coco is a future beauty queen, but Ella Beth wants to be a detective and is helping her grandmother with her sleuthing. And she is good at it!

All in all, a delightful read and one that makes you hungry. Love the setting of Memphis, and of course Elvis' estate Graceland is visited. I enjoy all the repeating characters, and I will read book 3 soonish.

8 stars.

Cozy mystery with BBQ restaurant owner as the amateur sleuth....YUM! Second in the series I've read and glad to come back to visit. I love that the main character is an older woman and she has a business that she runs with family and friends. Nothing is neglected because of Lulu's sleuthing. That can be a bothersome issue with me if the main character has a business or kids or whatever and those fall back to the back burner. That doesn't happen here.

And the sleuthing is fairly natural in occurring. A food critic that slammed local watering holes and BBQ restaurants for absolutely no viable reason other than to be mean gets murdered. And some of the suspects are friends and family of Lulu, so off she goes.

FAB recipes in the back of the book, too!! Off to copy down Tommie's Peach Cobbler and Tommie's Pecan Pie....

Go read this book and this series! YUM! and FUN!

An easy comfortable read mostly about nice people doing the right thing.

Whether this was author's choice, or indifference to facts and figures, some of the scenarios are not only hard to swallow, but positively, physically and practically not possible.

Take the approaching wedding for 250 guests. Two weeks before the wedding date the bride and her mother realise they can't afford it. They only learn this when the suppliers start asking them for a deposit. Two weeks before the wedding day the wedding suppliers are beginning to ask for a DEPOSIT?

This casual overlooking the real world happens on a number of different occasions. As far as the wedding details are concerned, perhaps only a Marriage Celebrant like myself who has actually conducted weddings and has written books about weddings, might find the sheer nonsense of it off-putting. It certainly does not interfere with the interesting murder mystery.

At the end of the book the author has included a number of recipes. However, having already caught out the author with fabrications, I'm inclined to take the recipes with a grain of salt.

I mean, 'shrimps in peach glaze'? Is the author for real or is she yet again pulling our leg?

Ok, so foodie mysteries are pretty awesome. And despite the fact that I was barely into the book and already knew who was going to die and who killed them, I actually still enjoyed this book. Having read the first one, it was kind of nice to return to these characters too. But don't worry, you don't have to read the first book in order to enjoy the second.

Lulu is up to her investigating ways again. The owner of Pat's BBQ Lulu always seems to find herself in some sort of mystery. This time, one of her friend's boyfriend has just turned up murdered. It doesn't help that he was just exposed as an especially ruthless food critic, and a cheater on many women, so there's a lot of people wanting him dead who have a lot of motive. And considering some of the people are very close to Lulu, she knows she needs to get to the bottom of this and quick. But with everyone keeping secrets and changing stories, it certainly is hard to solve a crime and run the best bbq restaurant in town at the same time.

Lulu is great. She's a warm character who looks out for her friends and runs a successful business. She's an inspiration to any foodie. Although her getting herself into mysteries can be a little far-fetched at times. There are a lot of other unique characters too, but I noticed that they weren't quite used to their full potential like they were in the first book. This one mainly stuck with Lulu and her friend Evelyn and while we still got to see some of the other characters, I would have liked them to appear more. The bad guys in this book weren't quite as menacing either.

Since this could be considered a cozy mystery it definitely shares more elements of food and friendship than a crime novel. And I like that. It still gives the reader something to look forward to but is more gentle. And

it reads quick and light and is great brain candy when you just want to relax. But its the foodie in me that really appreciates this sort of book. Just reading about bbq is enough to make my mouth water, and the fact that they included some recipes in the back, even better. In fact, that's what made the whole book for me was the chance to get my hands on some new recipes.

So an average mystery novel that can be solved pretty easy, but an outstanding book when it comes to the foodie realm. I can't wait to read the next one.

Aunt Pat's Barbecue Restaurant in the heart of Memphis (Tenn.) feels a bit of a hit when an anonymous food critic gives it a bad review. Famous for its ribs and spicy cornbread, Aunt Pat's takes the bad press much better than another restaurant that closes its doors after a bad review.

Lulu Taylor, owner of Aunt Pat's, is more worried about one of her close friends and loyal customers, Evelyn. It seems Evelyn is blinded by the love of her former husband who has cheating ways and always looking for money.

When it's learned that Evelyn's ex (Adam) is the anonymous food critic, things heat up hotter than the Fourth of July. Before long Adam is found dead and the list of suspects begins to grow. Was it his ex-soon-to-be again wife, was it his soon-to-be ex-wife, one of the restaurant owners he blasted in a review, or just a loyal restaurant customer upset over his take on the delicious food?

When a second person turns up dead, the situation gets as sticky as the sauce on Aunt Pat's lip-smackin BBQ ribs. As Lulu tries to sort through the list of suspects, she gets a little too close to the killer. Meanwhile, the gang pulls together to help out one of their own with a most unusual wedding at Graceland.

Author Riley Adams has created a group of characters that will have you laughing, crying and shaking your head. If you live in the South, her take on Southern charm will remind you why you love it so. This is a story about family, friendship, loyalty, and Southern charm, not to mention murder, mystery, mayhem and intrigue.

**FINGER LICKIN' DEAD** is the second installment in the Memphis BBQ Mystery series, but is a stand alone book. An added bonus is several of the delicious recipes are included in the back of the book.

Once you pick up **FINGER LICKIN' DEAD**, you won't be able to put it down until you find out whodunit and how the wedding turned out.

Review contains spoilers:

The second visit to "Aunt Pat's" was even more exciting than the first. Riley Adams writes so descriptively that I feel like I can inhale the pages and smell the BBQ. Which causes distraction when I look around my Western (not Southern or even Midwest) surroundings and realize there is no excellent BBQ here. And I was raised in Kansas, lived in Alabama so I know good BBQ.

So after a trip to the store I settle back down with a cole slaw covered BBQ sandwich to read and am once again distracted. This time by the characters. In the first book the characters were so well written I felt as though I lived in the town. It seemed like I was visiting Aunt Pat's catching up with old friends and outraged that they could be suspect in the deaths of book 1's victim. I had to finish book 1 to make sure my "friends" were cleared of the crime.

In "Finger Lickin' Dead" Riley's descriptions were too good. I loathed Adam, couldn't stand him and therefore didn't care who killed him. (I can't stand manipulative adulterers). I plodded along reading the book with the hope of congratulating the killer for making Aunt Pat's world better without a lying food critic in it. (How dare he write a less than stellar review about Ben's cooking)!

I adore the twins and am glad to see Ella Beth continuing in her role as a Trixie Beldon wannabe. I hope to see more of her sister, Coco, in future books. Derrick (whose parents need beaten) gained my protective maternal affections in the first book and brought tears to my eyes by the end of the second. I'm so glad he has a girlfriend (at least I hope Peaches becomes his girlfriend, if she breaks his heart I'll cross Aunt Pat's Southern world with the Southern world of Fried Green Tomatoes and mentally revenge myself on her "secrets in the sauce" style).

I'm not much of a cook so don't try many of the recipes in the books I read about (just fantasize about how they would taste). However if a recipe has peaches or coconut in it I am so there. That said I tried the recipe for Tommie's Peach Cobbler (substituting coconut milk for milk) and got a wonderful finish to the book and

the bbq I've eaten.

I never really got into it, so I skipped much of the second half of the book, read the last few chapters just to find out what happened. The characters didn't click for me, I couldn't relate to them

### **Melodie says**

This one just did not do it for me. I'm going to blame my mood and not the book itself. Story was not bad and the writing was good. Characters just got on my last nerve. Like I said....lousy mood! I really need this holiday weekend coming up!
