Chloe Bloom is risking everything—her legal career, her professional and personal relationships, her only defense mechanisms against the most painful memories of her life—to fly thousands of miles to the aid of black sheep billionaire Adrian Knight as he faces trumped up criminal charges in Brazil.

Adrian is watching everything fall apart—the makeshift family he cobbled together on his private resort island of Ilha de Flor, his reputation as a major player in international commercial development, any possibility of a future with Chloe—as a family name he can't escape and a rivalry he has learned to regret threaten not only his livelihood and the greatest love affair of his life but his very freedom.

Calling in every favor she can, drawing on every resource at her command, Chloe rushes to untangle a web of backroom deals driving Adrian's fast track prosecution. For his sake. For the sake of everyone on Ilha de Flor. And for her own sake, as she surrenders to the realization that she has fallen in love with her billionaire Dom.

There is so much more to this story ...it is not just the erotic love story between Adrian and Chloe (although that is what makes it great). I have one more installment to read and I know I will be sad to let them go....

With each book in this series, the story just gets better and better. The suspense is at an all time high when this 7th installment begins and the anticipation of what's to come with these two characters is at an all time high. At this point, I literally cannot read these books fast enough.

While evering Adrian had worked his entire adult life to build is crumbling around him and with no hope for redemptions, he is beginning to accept that he might very well lose everything - including any possibility of a future with the woman he loves. Meanwhile, unbeknownst to him, Chloe his risking everything (her career, her reputation, her professional and personal relationships and her heart) to come to Adrian's rescue and get him out of this mess of epic proptrions. As Adrian faces trumped up charges in Brazil and faces long-term jail time, massive fines and the loss of his island paradise (Isla de Flor), Chloe is calling in every favor she can and drawing on every single resource at her disposal to help Adrian.

All this time Chloe has been guarding her heart from falling for this man, but as she willingly gives up everything in order to save him from a doomed fate that he doesn't deserve, she realizes that she is already in love with her billionaire dom and there is no going back. When Chloe and Adrian meet up after beleiving their last encounter was goodbye forever, their reunion is scorching hot. In giving in to the pull they have on one another, both Adrian and Chloe find an inner peace that only exists when they come together.

With Adrian's future up in the air and the fate of their relationship on the line, the book takes a dramatically nerve-wracking turn and I for one am chomping at the bit to find out what happens next for Chloe and Adrian. Here's hoping they get the HEA ending I have been rooting for since the very start of this series.
