No one should have to survive adolescence (or adulthood) without Judy Blume. And with this essential boxed set of seven beloved novels, no one has to.

The ideal antidote for angst at any age, this boxed set of seven classic Judy Blume books makes a great gift for yourself or someone else. From Margaret and her crisis of faith in *Are You There God? It's Me, Margaret* to Karen and her coping with her parents' divorce in *It's Not the End of the World*, the characters of these cherished novels feel like more than characters—they feel like friends.

This boxed set includes paperback editions of the following Judy Blume classics:

*Are You There God? It's Me, Margaret*

*Blubber*

*Deenie*

*Iggy's House*

*It's Not the End of the World*

*Then Again, Maybe I Won't*

*Starring Sally J. Freedman as Herself*

**Diane says**

These books still hold up. I almost forgot how Judy Blume brings real teen worries into her stories in a way that makes you feel a little voyeuristic but totally part of the story. My girls love them as much as I did as a girl.

Judy Blume, it's not the end of the world  
by Judy Blume

In "Judy Blume it's not the end of the world", Karen is going through a major change in her life, her parents' divorce. Her father moved out of the house, and her mother is glad, her brother is a mess and her little sister doesn't know what in one million years is happening. Karen can't bring herself to talk to anyone about it, not even her best friend. She just wants everything to be alright again. She thinks that bringing them altogether will make things different and make her mom and dad realize that they really do love each other. After a family compromise that makes everyone happy and more willing to take in things about the divorce, Her mother and Father spend a little more time together and the kids soon understand.

I recommend this book to Readers who have had experience of a divorce through a relationship, or whomever likes realistic fiction and can relate to this in some way. At times this book got a little sad just because the parents are going through a divorce, but then around the corner happy examples and parts of the story would pop up. This book was really well written in my opinion and had parts throughout the story that young readers can relate to even if they haven't gone through a divorce with parents or relatives. Once again, I recommend this book to readers with experience so they can relate and realize there are many different bright ways to handle something like this.
