Mathematics of Information and Coding

Te Sun Han and Kingo Kobayashi

Mathematics of Information and Coding Te Sun Han and Kingo Kobayashi

Suitable for engineering and/or statistics students, communications engineers, and mathematicians, this book presents a firm theoretic basis of source coding (or data compression) in information theory. It describes universal coding methods - the methods that can be used without prior knowledge of the statistical properties of the data.

Mathematics of Information and Coding Details

Date : Published August 1st 2007 by American Mathematical Society(RI) (first published March 29th 2007)

ISBN : 9780821842560

Author : Te Sun Han and Kingo Kobayashi

Format : Paperback 286 pages

Genre :
