### **Great**

Amazing. I like that Toby and Sienna finally get together. Love is so much sweeter when you find it with a best friend. You already know so much about each other, it only seems right. Looking forward to Alex's turn to find love.

Read the first book Deliver Me, last year and can't wait to read this one when it released in a few months. Farrah Rochon is a great great new author to try if you haven't yet. :)

### **That's what friends are for**

You know you have a good story when the supporting cast and main cast each have you in your feelings wanting more. You have Toby and Cee Cee who have your friends turn lovers. But the next is Ivana and Jonathan, who are the epitome of opposite attract. The intertwining of the two had you rooting to see what was next.

Loved it! A car accident destroyed Toby Holmes' dream of playing for the NBA. But when God closes one door HE opens another. So when Toby pursues his new career as a music producer/manager, he also gets a second chance to reconnect with Sienna, his best friend and the love of his life!

**Awww**

I loved this book. It was good from beginning to end. I want to hear more about johnathan and vonnie

### **Lisa Survillas says**

Sienna and Toby's story is sweet. The paths they took to get to each other is frustrating. Sienna is trying to make a name in the marketing business and Toby is trying to become a music producer/manager. This is where their worlds collide again after so many years apart. Sienna has loved Toby forever. Toby wants his best friend back. They dance around each other in the pursuit of their careers, working together to make Aria a star. Loved watching them realize how good they are together!!

Just like book 1, the side story was just as touching. Sienna's sister, Ivana had a bad taste in her mouth when it came to men. She stuck to her life of helping others (The Cause). Enter Jonathan, Toby's best friend from college. He is intrigued by her from the first meeting. He pursues her like he's never had to pursue a woman before. It is exhilarating to watch unfold. Looking forward to more of them in the future.

I know Alex's story is next and I can't wait. He took over the roll of father and has made amazing men out of his little brothers. It's definitely time for his HEA!! I hope there is much more of Monica and Eli and Toby and Sienna. I hope that Aria gets a story too!!

4.5 stars

Basketball is my favorite sport, so I had to check this out. I'm really glad I did, even if basketball played really no part in this story. My husband is from New Orleans, so I love when romance novels take place there and I especially love when it's post-Katrina.

Farrah Rochon has again produced an enjoyable read, not just the story of Toby and Sienna but sizzling chemistry of the supporting actors. I also enjoyed the mystery that this novel has introduced with Mama Holmes, can't wait to read the next one!
