Steph says

It was good

I was mad at the use of best friend but it was a good storyline and I just want to know what will happen

Latoshia Campbell says

Ok book.

The grammar sucked. So many words were misspelled. But other than that it was ok. Best I could say was ok.

Porche Patton says

Very horrible!!

First of all creepy as storyline. Your main character is a child being molested by her sisters husband. Wow! Poor editing. Very terrible grammar. Over use of "best friend " . Just sucky all round. Very terrible book. Glad it was free. You should shoot your editor because they failed you. You need more practice.. spelling , grammar and editing practice. Sheesh.

Cheated

I feel like this was a good story, with a lot of potential. I am very disappointed in the publishing company for not doing their job and releasing this book with all these errors. This was the most ridiculously edited book I have ever read. Shame on you True Glory for properly editing this authors book. Taking away from what could have been the a 4 star book to me.....I see a lot of people talking bout the best friend use, I have a 14 yr old so I'm used to that, didn't bother me at all. De'sha I'm sorry I had to take away stars, but your team really cheated you

Mya says

Wow

This little girl to hot and this nasty ass man hmmm Jessica I feel sorry for u nice book I enjoyed it

Demetrica Boling says

Bad business...

Poor Shonique just young, dumb, and naïve. I wish it didn't end the way it did; I'm left hanging. The book is pretty ok, but the grammar is not! It's written like a third grader wrote it. If it was revised I would keep it and reread it, but as of now I'm returning this purchase.

Samantha says

Better than what I expected

My title basically explains how I feel about this book. There was a few grammar mistakes, but it did not ruin the book.

Shawndrell Hardge says

Good book overall, bad grammar though

The book is a pretty good book overall, however the grammar is all the way messed up, it irritated me the whole time... then again the girl is only 17, whoever published this book should have gone over it better

Tonia says

Annoying!!

This book was VERY annoying!! The dialog was amateurish "best friend this and best friend that", on top of the misuse of the English language (what did he said)...just ANNOYING!! Murk...really?? Your 15-year old sister in law?? I actually had to see who the author was and realized she is very young and this is her first book....but even the the storyline has me curious, I will not purchase part 2. Hopefully, the author has matured and the editing is much better....but no can do!!

Cryssy says

???

I gave this book two stars because of all of the misspelled words and grammar errors. The story line was interesting but it was not a hot read. The only reason I finished reading this book is because I always

complete books.

Jasmine Cole says

Wth

Nique knew better what was she thinking omg I wonder what's gone happen in part 2 can't wait to read it

latisha says

Booooooooo

I couldn't even finish the book. The author did not write that well at all it's like a run on sentence. I might've enjoyed it if I wasn't for that.

Plus the punctuation was all over the place.

MAJOR FAILURE!!!

Snowie Moffett says

What the what

This story is crazy man u can't be serious. That fool need his ass whooped for taking advantage of that Lil girl being married to her sister. I couldn't imagine being in that situation

al-shereef young says

I would recommend this book to teens

This is a great book to read for teen it has love and is dramatic. Any and everyone should read this book.

Tomika Davis says

Good reading, bad grammar
