Great book!

No matter how big or small we are, God loves us.
Children and adults need to understand that.
Happy Reading!!

Thank you, God, for loving me by Max Lucado is a charming board book about Little Hermie the Caterpillar.

The first page shows Hermie kneeling to pray beneath an autumn tree bowing his head and saying, "Thank you, God, for loving me". Hermie is so grateful that he goes on to thank God for watching over him and taking good care of him through each and every day. What a powerful message to show children how to communicate with God and know that God really cares for them. Even when they are afraid of the dark or have a gloomy day, God will always be there.

The rhyming text is simple to read and the illustrations are colorful and captivating.

I highly recommend this book.

This entire book is a prayer that Hermie says to God. It's a good prayer but it's a really short book. I would have liked there to be more of a story to the book especially since it is a children's book.

Very cute sweet childrens book, my son very much enjoys them, the only thing that I can say ill of it is sometimes I have to change a word or two while reading it. Not that its poorly written just some words are as if your speaking to an older child around 8 maybe and mine is half that. Otherwise beautiful story, inspriring, and a hit with my boy

Both of these books are short and very sweet. I read them via @NetGalley and transmitted to my Kindle they didn't translate well, flip side issues and such, but I'm sure that's worked out with the real ebook as opposed to a pdf being sent. Reading them on my computer in ADE I was really able to enjoy the art work and prayerful prose on every page. These are so calm and delightful that I'd say they're almost worth memorizing to repeat over and over again. I definitely wouldn't mind getting my hands on Hermie Board Books in the future. Max Lucado is a name I've always trusted and now that he has Hermie, I'm just delighted.

Thanks to Thomas Nelson and NetGalley for loaning me an electronic copy to read.

I thought these were delightful readers for the young ones to be introduced to!! The morals are wonderful

and each child should know that they are loved, blessed and cherished. I thought the messages that each book shared are ones that encouraged positive thoughts and actions.

The illustrations were wonderfully depicted. Each page was awash with colour, making the characters appear charismatic and child-friendly. The read-to-me readers are only about 10 pages long and are sure to be you and your child's favourites. The messages are clear and concise and endearing.

I would certainly give these books a five out of five star review, they are more than worth that!! Their design and their intent are equally merited in positive influence and appealing approach.

My Review:

After reading Thank You God, for Blessing Me, and the positive response from my 3 year old, I was so excited to get a review copy of Thank You God, for Loving Me.

The pictures, illustrated by Frank Endersby, were so cute and added such a nice element to the books for young children.

The story itself was very straight forward for preschoolers to understand. I really liked the rhyming of the story...which was very well done. It is an important element in children's books to help with literacy...with the added bonus of the theme that God loves us! Each page gave us new examples of how God loves us.

I'm hoping to add more Hermie books to our library soon for my three year old and newborn twins.

The book is rated from Baby - Preschool which is very accurate.
