The Beauty of This Street Love 3: A Texas Tale *elle kayson*

The disappearance of two of the women closest to the Kinseys leads to all-out war with the Prince family. As if that turmoil isn't enough, the personal relationships of the Kinsey siblings are uncertain.

?Briar Rose is reluctant to pursue a relationship with the cocky young ladies' man, Tyrese Kinsey. Ty is determined to have the beautiful doctor and he's used to getting what he wants. But just as Briar is about to give in to her desire, a young woman named Storm, who idolizes Ty, appears. She's determined to make her hero her man, at any cost.

?Tamir Kinsey is ready to settle down with Chantal Dubois and make a family with their baby. Chantal is leery, however, fearing that Tamir's past infidelity may have resulted in a child. Dealing with Tamir's former "side chick," his increasingly intense reactions to being shot, and Chantal's meddling family threaten to destroy the young couple's future.

?Tripp Kinsey is ready to officially make Cyn Murray and her daughter, Cynaa, his own. While they look with excitement toward their future, a problem from the past plots to end their dreams.

?Tremell Kinsey is desperate to get his family back. Losing his pregnant girlfriend drives him to the brink of insanity. Will Shamar Parker return to the safety of his arms or will the Princes push him into the darkness that always haunts him?

Just Right

This series Has been so entertaining and the story was well thought out. 4 thing is man with a sweet spot. Even their sister was rowdy this go round. The love that flourish through this story was the best part, Briar and Ty's story I really started to fall for. I like how he handled her but more when gave Strom the fade. Briar was a little insecure, but that didn't fade Ty. He loved her just how she was. Aaron was such a cry baby, like you can't make someone love you. Everything flowed together just right, Mouse finally got the date she was looking for.

Good Stuff

This was an explosive end to a wonderful series that still has a few stories to tell.I can't wait to get my hands on Tamar and Angel's story.Yes I think Anton deserves his own story.I loved the way the writer gives you a view of a family ,the inside workings and the women they l I 've.It is also refreshing to get a story that not all about being that gangster.This was such a very good story and a very entertaining series.

I loved this book and hated to say bye to the Kinseys for now. Loved me some Tre he was such a protector and he loved hard. I loved Tripp as well he was the family man from the beginning of meeting Cyn and her baby girl. I loved the whole Kinsey family and can't wait for the next books to role out about them.

Nice ending

I wish we got more of Angel and Tamar. Also I wanted to know more in general. But I'm happy you ended the series on a high note. Don't bring back storm unless she's in a different setting. She's annoying

Brandi Williams says

Sad to see them go

I absoutely loved the Kinseys!!! It stepped away from the typical urban dope boy storyline. It wasn't filled with a lot of hood rats causing confusion. I loved how the men wemt in for their women and still was able to maintain that thug appeal. I can't wait for Angel's story and I got a feeling that Storm and Anton going to cross paths!!! I will definitely be lookimg out your books!!!

Just read this series. It's so worth the time. If you into that educated street savage type of alpha male with a sweet sexy and sinful tendency for the right woman. Get this book. You like when a story get gutter a lil bit? Read this book. I'm not finna tell you again.

Kesha says**BANGER**

Let me tell you a story (lol) This book was so Good that this girl reading it could not put it down. She turned

every page anticipating the action and drama awaiting. This book was so Good that if she could give it 100 stars she would. Do you want to know what else? ? She cannot wait for whatever comes next because she is sure it will be just as good as this. Moral to this story if you haven't read this series. You CRAZY.

I enjoyed immensely

I like Tamar. Looking forward to reading their story. These characters are thugs with degrees, but they have swag and definitely go after what they want, whether it's a woman, a traitor, or an enemy. Their loyalty is refreshing. Great read. Keep writing lady.
