As lead singer of the band, Step Back Once, Sam Prichard was an up-and-coming country music star, his former careers as police officer and private investigator behind him. Recognized by one of the top talents in Nashville, it seemed the band might be on its way to a real recording career.

But then Candy McAlester, their bass player, was arrested and charged with the murder of her ex-husband, her own son being the star witness against her. In desperation, the band turned to Sam to find the proof that she was innocent, and he returned to PI work to try to clear her name. Only then could he admit to himself that he'd been missing it, that he'd been craving it and the thrills and excitement that it brought along.

The case took some surprising turns, and when the dust finally settled, Sam had learned one thing above everything else: being an investigator wasn't just something he had done, it was something that was part of him. No matter how things turned out on this case, Sam knew it wouldn't be his last.

Or would it?

I READ THEM ALL!

I began with the Noah Wolf series, and just carried on into the Sam Pritchard series. This review has to cover all of them. I couldn't review them book by book, because whatever book I finished, I couldn't wait....I just HAD to get into the next book! These are all excellent books, and I would recommend them to anybody who likes crime and detective books. One of the reasons I like them, and this author so much is they are what I call "clean" books. I HATE books where you have to skim past pages and pages of graphic violence or lurid sexual encounters. These books are not like that. They are exciting, packed with bad guys and hero's, high principles like family, home and country. I have now enjoyed.....what?....25 or 26 of David Archers's books. Try 'em. You'll like 'em!

Superb Characters!

I very much enjoyed the series and love having a main character that you can follow professionally and personally.

I would recommend this series of books to anyone and will be looking forward to number 13!

REBECCA BLANCHARD says

Another great read, once I start reading I can not stop, then when I'm done I have to read the next book and so on. So I like to buy them in sets, so far I have read all 12 books and am looking forward to starting the Noah wolf series. He is going to have to write faster because I'm running out of books.

GREAT BOOKS

ronald c. greenberg says**Best of the series**

I've now read the entire series of Sam Prichard. This is the best so far. There is still some songs that magically you can listen to while reading them. Great idea. Who wrote them? Who sang them? Love to know. Some missing or misspelled words but no biggie. Can't wait for next.

Sandy young says

I've read the whole series and am sad it's over. I loved the Beauregard. Lol.

Excellent written. Blown away by the details . Actually believe some of the situations are true life events. Outstanding job.

William Stultz says**Book 9 thru 13**

Could not wait to go from one book to the others. The story lines of each book are great. I don't know how you can develop each adventure with great details. Now on to the next.

Veronica Sutton says**I love the Sam Prichard series!**

The Sam Prichard novels are a feel-good story with an interesting, repeating cast of characters, mystery and suspense, and even a spirit that adds humor and intrigue. Sam finds himself in plenty of death defying situations that he has to "think" his way out of, keeping the reader turning the pages. I like David Archer's writing style and look forward to experiencing more of this series, as well as, the Noah Wolf novels.

wendi wigham says**Lived up to expectations!**

Very good reading. The twelve books I have read featuring Sam Pritchard have been consistently of a high standard. Having the kindle version available makes them affordable. Of to see what other offerings Mr Archer has on kindle

ALAN LINTON says**Fantastic**

I love the Sam Prichard series. So many twists and turns i feel like I'm on a rollercoaster. Great story lines without too much violence, sex, and swearing that too many other authors rely on these days.

David Lightcap says**Retirement,what to do now,not what Harry expecti?**

Usual Sam adventure where nothing is as you expect but with family,friends, and the ghost to the rescue. And some special news at the end of the story.

Thomas Murray says**I Love This Series & These Characters**

These 4 book packages sort of run together, but brother what an ending. Sam's relationship with Harry finally came full circle and the twist and turns left your head spinning. Many snippets of loose end info from past books were finally tied off. Very well done and another book that lead hard to close and go do a chore.

Rebecca Schlott says**Sam is fun to follow**

The escapades change but the good versus bad remains. San conquers the evil and comes out on top. The most interesting and fun it to predict and decipher what the ghost comes up with. It will be interestingly see who is next in the list of the Thor's last acquaintances.

Helen Robinson says**Keeps Getting Better**

What can I say ? I can't stop reading these books! At night I plan to read for a few minutes which lasts 3 Hours ! I've never had any Author to keep me so intrigued as as David Archer! Keep the books coming!
