## Makayla Peterson says

This book is mainly about a girl named Jessie. She lives with her grandmother, Jessica, and her mother. Her grandmother is the queen of the Realm. Her mother never believed in magic, so Jessie and her grandmother decided to keep it a secret from her mom.

Jessie is invited to a party in the Realm, to welcome a new born baby. The baby's name is Jewel. On her way, she gets stuck in Mud Wobbles path. Then a Water Sprite, called Cool of the Evening, save her from them. In return, she clears a blockage on their small Water Fall.

Jessie made it to the party late. Everyone was waiting for her, so the party can start.

Later, she finds out the blockage was important, because baby Jewel went into the Sprite's lake! Now the Sprites won't give him back, unless they find their Moon Stone.

TO FIND OUT THE END, READ THE BOOK!!! (o:

I read this once when I was in a punishment (my mother had made me sit in a corner until I tied together 50 pieces of grass, but I wouldn't do it so I read this book instead. Don't remember what I was punished for, wouldn't you know it). I found myself angry with the water sprites! They have no right to take someone's child, especially on such a merry occasion. Some creatures think they can do whatever they want, as if they're above anyone else! It's dismaying they think they can get away with these things! If you can speak like a human being, surely you have a conscience? We all do. Drat! They're so unreasonable!

FINALLY! We have been so busy that it took too long to read this book to my daughter. She loves these books. There is always something good to learn from the books in this series.

**Sarah Crawford says**

Jessie visits the fairy realm to attend a party, but ends up nearly being the cause of a full-scale war between the water sprites and other fairies. The water sprites believe that the other fairies stole something very valuable from them. They end up taking a hostage, basically, and it's up to Jessie to figure out how to defuse the situation.

She manages to do so, but in a way that she couldn't have imagined. Another nice fairy realm book with beautiful black-and-white artwork.

**Lucretia says**

My favorite part was when the baby went downstream. No, my favorite part was when Jessie found the moon stone!

**Sofia says**

i wonder if the water sprites can be called mermails(even if they dont hav a tail)

**ABC says**

This one had a bit of an Agatha Christie-esque mystery.

I wish these books would provide a map of Fairy Realm. I can't visualize it.

Amazing

## **Sarah Eagle says**

The conflict resolution surprised me because it broke from the mold. It had a little "PSYCHE!" moment, and I appreciate that. But the explanation for the loss of the moonstone was just a bit outlandish. Even for a book about fairies and water sprites.

Brought to you by a bitter 26 year old.

## **Reagan says**

the water sprites were very angry when their moon stone went missing. So when baby Jewel floated down the river she fell into the water sprites hands. When Jessie asked to hold the magic flute and she tapped the end of it and out came the moon stone.

## **Michelle says**

A charming tale of fairies and their mistrust among themselves over something that they thought happened years ago, but it was discovered was all a mistake/misunderstanding. This happens as well in our world/lives and it proves that we all go through similar trials and hopefully we find happy endings like in this book.

## **Pashi says**

Escapism at its finest.
