The White Chief

Mayne Reid

The White Chief Mayne Reid

An exciting and well-written book by Mayne Reid based on his experiences during the war between America and Mexico in the 1840s. Reid took the title of "Captain" because that was what his men called him during that war, although he was never promoted to that rank. The importance of Reid's books with this background is that they were among the first in the Wild West genre. (Nick Hodson)According to Wikipedia: "Thomas Mayne Reid (April 4, 1818 - October 22, 1883), was an Irish-American novelist. "Captain" Reid wrote many adventure novels akin to those written by Frederick Marryat and Robert Louis Stevenson. He was a great admirer of Lord Byron. These novels contain action that takes place primarily in untamed settings: the American West, Mexico, South Africa, the Himalayas, and Jamaica."

Ernest Hogan says

Fascinating prehistory of the western genre inspired by Reid's seeing Aztlán while fighting in the Mexican/American War. Does for New Mexico what his THE HEADLESS HORSEMAN does for Texas, describes a strange, new world. Of course, the hero is white/güero. Mixed-bloods don't fare as well, mestizos, mulattos, and zambos are all nefarious double-crossers.

Khalil Khabibullin says

Ok, it was promised to be one of the best novels in the history, but felt to me as reading a typical soap opera. I used to what Santa Barbara and this is pretty much it. I might not be getting it. I guess the depiction of emotions and feelings of people is quite good, but still not good enough for me to like it too much.
