Ella Frank

True Ella Frank

True - adjective: That which is accurate or exact.

I dare you to try.

I think you're my truth.

Terrify me.

Marry me.

Marry me.

Marry me...

Four years ago, Logan Mitchell walked into Tate's life and challenged him to see it differently.

He dared Tate to try a kiss, when normally he wouldn't have.

He begged him to take a chance, when he probably shouldn't have.

But most importantly, he asked Tate to trust that he would love him, and he did. From that moment on, Tate realized exactly what his life had been missing—Logan.

Happily-ever-afters come in many different forms. But for Tate Morrison, there's only one ending he wants. The one where the guy marries the guy and true love conquers all.

Now all he has to do is tell Logan.

Join Logan and Tate as they finally realize what the rest of us knew all along. That they belong together for better or worse—always.

Christelle says

Tate and Logan are one of my most favorite couples in MM fiction. It's the "Temptation series" released a few years ago with Try, Take and Trust that made me read MM instead of MF (along with Ethan).

It was sweet to get a bit more of Tate and Logan, as an established couple, in 2017 with the 3 additions delivered by Ella Frank. Kind of a nostalgia trip with an extension of the epilogue of the initial series. However, for me, apart from the evolution of the relationships with family and a spectacular twist in Tate (book5) related to Tate and Logan's commitment, this addition felt all very mundane.

And this very last instalment was even more so, but with less hotness and banter and **gasp : it pains me to say it** with some repetitions. For me, the highlights of this book were its beginning and ending, focused on Tate and Logan tying the knot. I liked this last part, but more as a confirmation that Tate and Logan are solid together, with nothing that can come between them, than anything else.

I would have preferred that books 4 to 6 were wrapped into one book to complete the awesome, hot and swooning romance of Tate and Logan delivered in the first 3 books.

That said, I haven't change my mind : I give **5++++ stars** to Tate and Logan who have a special place in my reading world and fantasies. When it comes to contemporary MM fiction, nothing has yet come close to surpass the enjoyment I had with the first 3 books.

Astrid - The Bookish Sweet Tooth says

★★★ 5 STARS ★★★

Review @ Vanilla & Spice Books

To say I was thrilled when Ella Frank announced this year that she was ready to write the last chapters of Logan and Tate's story would be an understatement. I was over the moon. How is it that it's over already? This is the last book in the Temptation series and it's time to wish the lawyer and his bartender well and send them off into their Happily Ever After. And while I'm so happy for them there is a kind of melancholy that I can't stave off.

How is it possible to love two fictional characters so much and make you feel sad when you have to let them go? I have spent so much time with these two yet I still crave more and it's good that we'll be able to get glimpses of their HEAs in the author's future books.

In TRUE Logan and Tate show once more that their relationship is built on a strong foundation. They fight like every couple, they make up in the way only these two can, with raw emotion and combustible chemistry beneath the sheets. There is nothing they can't do or overcome together and this is the feeling you get when reading the last installment of the series.

"But that's what love's supposed to do sometimes, right? Hurt? It beats us around every

now and then to make sure we're paying attention. To make sure we know that, yes, that's the person who really matters the most."

When I look back I see how much Logan has changed over the course of these books. He is still this arrogant, eloquent man but his speech doesn't come out unfiltered any longer. Or let me rephrase, he knows now when he has to tread with caution. Mostly, Logan is softer around the edges and we have Tate to thank for the chance to get to see that. He shows us the best version that Logan can be - a person who fights for what is right, protects those he loves but isn't unforgiving.

“Deep down inside, under this bravado you show the world, is a very sweet man, Logan Mitchell.”

Interestingly, Tate hasn't changed as much as Logan. That's not a bad thing though, Tate is still fiercely loyal, sweet and mellow, easy-going with a lot of mischief added to the mix. There is nobody better for Logan than this guy, their personalities complement each other in the best possible way.

Their relationship is heartwarming, it has the banter, the sweetness, the tension we have come to love. They are best friends, lovers and soul mates and in no other book it's more obvious than in this one.

“He makes you a little bit stupid, Logan Mitchell.

Logan and Tate are supported by a fantastic side cast - I love Cole's and Logan's relationship, how close they are, Tate's and Rachel's lovely friendship and finally, Will. God, I wish my father was like that. He is the epitome of a good parent.

A Son's Prayer. Dear God, make me the kind of man my father is.

A Father's Prayer. Dear God, make me the kind of man my son thinks I am.

Ella Frank ties up all loose ends, and I loved that she didn't go the cheesy route and made everything OK with a pretty bow. Thus is life, some things just can't be fixed. She delivers quite a twist which will see a resolution in the next series she is going to write.

Ms. Frank sent the bartender and his lawyer off on a good way, you know they will be more than OK. For me, it is bittersweet to say goodbye, I know Logan and Tate better than my next door neighbors, they were among the first MM romance books I read and they have been my favorites for a long time now. While TRUE doesn't pack the angst of TATE it was a highly emotional, beautiful story about two men who were meant to be together. It's that inevitability of their love, the strength of it that is the heart and soul of this series. Thank you for the ride, Ella.

Lorraine Lesar says

You've redeemed yourself Ms Frank. The Contract I placed on you has not only been withdrawn and but also forgotten (I can only hope you feel the same way ?), this is what I wanted and you delivered! I will always remember the month of January 2018.

For me, it was a month of Logan and Tate. I became enthralled with them, reading all 6 months (book 1 being a re-read), almost fervidly in my obsession. Overnight I became a Loganite and a Tateite devotee.

You didn't make it easy, there were WTF moments that I prefer to forget about when my heart stopped beating and I have to say, some glossed over things that I wanted more closure on, but it was one hell-of-a-ride and a journey I'm so glad I took.

Some (and by some, I mean non-true fans) might say that 6 books was not necessary. Logan and Tate's story could have been condensed into maybe 3 books. I'm a true fan, 6 books worked for me. If the author decides to write another 6 books (please, please, please), I'm in with that ?.

For most, January is not a good month, Ella Frank you just changed that. January was not only good, it was an exceptional month and for that, I thank you.

Five Loganillion and Tateillion stars from me

Barbara? says

This is it. It's not too late to say "Yes". This is what we've been waiting for. We got our invitation. Time for the ceremony and it's perfection.

"Marry me tonight. I dare you."

"I accept your dare, Mr. Morrison. It's time. Let's get married."

There's something about these men and the way they're written that just does it for me. I love the way they talk to each other (because OMG **H.O.T.**) but also the way they talk and interact with their friends and family. Their love for each other is reflected in their love for others and in turn, the love for the two of them.

"Thank you. Thank you for raising my best friend. For raising the best man I have ever met."~Logan and Will

They're not perfect. They fight and say things they can't take back but they always work it out. They always come back to each other and say what they feel.

"They didn't always get to the same point at the same time, but when they did, it was with a startling clarity that was unshakeable—it was also the most beautiful fucking thing in the

world"

I swear I swooned and smiled the entire time. This was a perfect ending to their story.

"I will fight for you," Logan vowed. "For us. For everything we are and will become for all my days. And even when it's all through, when we go wherever it is we go after this, I will find you. I will always find you."~Logan

"I swear I couldn't love you more than I do right now, and yet I know I will tomorrow."~Tate

Shile says

5++++++ Sweet Mr. and Mr. Mitchell moments stars

"I couldn't have envisioned our wedding in a more perfect way than what you created here tonight. You understand me and, by some miracle of fate, love me anyway." Logan took Tate's hand and fingered the engagement ring there. "You stole my heart four years ago, and nothing would make me happier than if you would take my name and make it your own. Become William Tate Mitchell. Be mine and let me be yours."

Marry me tonight.

I dare you

Four years ago, I was dared to Try and I tried, little did I know that I would be meeting my best characters ever. Thank you, Ella Frank, for giving us Logan and Tate.

Four years ago, Logan walked into After Hours and met Tate, the sexy bartender with curls and a baritone, that night two lives were changed forever and for the better.

I love, LOVE this couple. Logan and Tate, Tate and Logan will forever be my number 1 all-time favourite MM couple. No other couple will ever top them. Number 2 is Ty and Zane. My top 2 will remain that way forever.

There is just something about Logan that draws me in. I love this guy. His heart, damn! His heart. Reading this felt like watching Friends series. I feel like i am one of them.

"I will fight for you," Logan vowed. "For us. For everything we are and will become for all my days. And even when it's all through, when we go wherever it is we go after this, I will find you. I will always find

you.

And Tate, bless his stubborn, forgiving, loving heart.

I swear I couldn't love you more than I do right now, and yet I know I will tomorrow. .

Their swan song was just perfect, the love between these two men is so pure that it consumed me. I want a love like that.

There is nothing more I can say. The reviews say it all.

Nothing much really happens in this book, it is their day to day life, preparation for the wedding and interactions with the family members. These moments were precious, I enjoyed reading them. Will, Tate's father is just the best.

The Wedding was perfect, It has been a long journey not a smooth one, there were some ups and downs but this two made it through and finally they got the Happily Ever After they deserve.

I Love you Logan Mitchell
Will you be my Husband.
YES

I hope Robbie's story is just as good. He is one of the best secondary characters ever. I am glad he gets his own book.

These characters: Logan and Tate, Cole and Rachel - Thomas and Leila, Will, Robbie have become family.
Le Sigh.

Logan and Tate.

☆ Bianca ☆ BJ's Book Blog ☆ says

We're back with our darlings Logan & Tate!

If you haven't read TRY & TAKE & TRUST & TEASE & TATE you should definitely do it now, before

reading TRUE - because it's the final book in the series!

We start exactly where we left them in the last book.
At the winery for Logan's birthday. Tate finally says YES!
And now it's time to tell the family on Thanksgiving.
And then there's planning to do. Someone wants a fast and small wedding, and someone wants a huge thing!

Then there's family and friends and work and clients and tiny little drama moments - nothing majorly bad though - I loved that!!!

Lots and lots of exciting and sexy and adorable and sweet and moving and frustrating moments happening to our two darlings in their last book!

But I'm pretty sure we haven't seen the last of them.
Bar Boy Robbie will get his own books soon! Can't WAIT!!

But back to TRUE!

I just LOVED this book.

I never want this series to end! Can't we just make a Netflix show out of it and watch it every day for the rest of eternity?

But this is the end - even though Logan and Tate's happily ever after is only beginning!

TRUE was so very sexy, funny, moving, adorable ... Just perfect!
Some tiny little tears might've been shed.

I just love this series. Those boys and their family and friends - the moments with the nephews and niece and with Cole and Tate's Dad - just **AMAZING!**

Also, I want to be Tate and Logan when I grow up!

I loved every single adorable and funny and sweet and romantic and moving and erotic moment of this book!
And I wanted more ... so much more ... of everything. But of course we can't be with them for every second of their lives - and every series has to end sometime. But I am sure we'll be seeing those boys again one day!

If you haven't read this series yet - why are you even reading my review??? Hurry to amazon and buy TRY!!!

and now an edit pic I made - do NOT look at it if you haven't read the book yet!!!! I'll put it in a Spoiler thingy! Even though it's not really spoiling anything - it's just a quote of a quote, but it's mentioned late-ish

in the book. (view spoiler)

“I swear I couldn’t love you more than I do right now, and yet I know I will tomorrow.”

My heart! What a beautiful ending to this journey. I laughed, cried and swooned with Logan and Tate. Their love is perfectly imperfect and I am just so happy to have been a witness of their story. What an amazing couple. I will miss them dearly.

~Mindy Lynn~ says

5 Bittersweet stars!

I was dragging my feet when it came to reading this because I knew it was the ending to a love story of two men who changed my reading life forever. These men were my first taste of MM. They were the men who opened my eyes to a new world of love and acceptance. Their loyalty and fierce love for each other throughout this series never wavered. Am I sad there will be no more books? Absolutely. But I think this series couldn't have ended better for these two men. They got their HEA that was much deserved after the journey they took getting there. The first thing I think about when this couple is mentioned is their love for one another. They are an epic couple with an epic love story that I am grateful I will be able to come back to when I start to miss them. It's part of what I love about books. You never lose these characters. You just say good-bye until next time. So that is what I am doing. Saying good-bye until next time.

I can not be but disappointed about where Robbie's story headed in this book. I was so looking forward to a Robbie and Priest book. Now knowing where it is going it has dimmed that excitement extremely low for me. **HUGELY DISAPPOINTED.**

Happy reading dolls! xx

Lyndy Ann ? says

?????????5 perfect way to end 2017 stars ??????????

I have taken my time reading True I wanted my last time spent with Logan and Tate to last as long as possible.

Logan Mitchell and Tate Morrison have a special place in my heart and will do so FOREVER, they were my first and are my favourite gay couple.

I adored everything about this story the love between these two grows stronger with each book this was a beautiful conclusion for a wonderful couple, how this ended made me cry happy tears.

I love the twist we got between Robbie and Priest this will be an interesting read very interesting, I CANNOT WAIT.

THANK YOU Ella Frank for two great gorgeous guys and the Temptation series - I will ❤️? Logan & Tate forever.

Meags says

“I swear I couldn’t love you more than I do right now, and yet I know I will tomorrow.”

Umm...Can I have some more stars please, Goodreads, because 5 isn't nearly enough right now.

For True, and for my firsts (and forever favourites), Logan and Tate, and to dearest Ella, I WISH TO GIVE YOU ALL OF THE STARS!

“You’re everything I didn’t know I should be looking for, and if you still want me and I’m not too late, I’m hoping you’ll do me the honor of marrying me, Logan Mitchell.”

Logan and Tate's final chapter was pure romance perfection. Anyone who knows me is well aware that I prefer series over standalone reads, preferring to follow couples I adore through their first moments together all the way through to their hard fought happily ever afters and beyond, ideally spanning over years or decades of their lives. So hearing Logan and Tate were getting three more books on top of their original trilogy left me ecstatic, because not only was I happy to ride their delicious love train all the way to the station, I also trusted Ella Frank, unequivocally, to deliver me there safely and with my heart fully intact, and mostly likely overflowing.

“Sometimes, you make me wish that we were the only two people in the world. And the way you look at me like now... God, Logan. It’s like I’m the only one in yours.”

The second part of this series - which I like to think of as one epically delicious epilogue - far surpassed even my wildest dreams for Logan and Tate's future happiness. Sure, there are hard times and lots of trials to overcome, internal *and* external to their relationship, but every single moment, whether good or bad, just made these two a stronger couple whose love continued to expand and intensify as the years went on.

“You know how people always use that expression: I’ve never been happier in my life?”... “Well, I mean it,” Tate said, and caught Logan’s chin in his hand. “I’ve had so many amazing moments since you walked into my life, and I know I’m going to have so many more. But right now, here in this moment, I’ve never been happier in my life.”

Tate and Logan will *forever* hold the most special of places in my heart and I cannot thank Ella enough for writing their story. I loved every minute of Tate and Logan's journey, through the hard times and the good, and I could not have dreamed up a more perfect ending for this beloved couple if I tried.

“I will fight for you,” Logan vowed. “For us. For everything we are and will become for all my days. And even when it’s all through, when we go wherever it is we go after this, I will find you. I will always find you.”

Sanaa ? Sanaa's Book Blog ? says

5 stars.

“But that’s what love’s supposed to do sometimes, right? Hurt? It beats us around every now and then to make sure we’re paying attention. To make sure we know that, yes, that’s the person who really matters the most.”

Ella Frank, you are one of a kind. Truly. Thank you for taking a chance. For taking us on a once in a lifetime journey. For creating Logan and Tate. What you have done with this series is something that will always have a special place in my heart.

As we come to terms that this series is really over, I have to say, you still managed to surprise me in the best way possible.

“Thank you. Thank you for raising my best friend. For raising the best man I have ever met.”

That right there? ^^

swoon

My favorite quote in this entire series.

True was sort of like an epilogue without actually having an epilogue. What this story was, was that it was an emotional yet a beautiful rollercoaster. It took me on a journey I will always be grateful for. But it also tied up on some loose ends.

“Better than any wish ,” he whispered against Logan’s mouth. “That’s what you are. Better than any wish I could’ve made for myself.”

I'm going to miss the crap out of these guys. Not only were they amazing and own a piece of my heart but they felt *real*. Like I personally knew them. And I'm super excited for what Ella is bringing us in the future.

*I dare you to try.
I think you’re my truth.
Terrify me.
Marry me.*

An arc was provided in exchange for an honest review.

Erth says

This...was everything. Logan and Tate are my guys, well I guess they're all of ours. But you know what I mean...these two men sucked us readers into their story in a way that they're like our best friends...in a way that we all feel invested in what happens to them and involved in their story. They just don't let you go (I mean...I'll be at work and randomly be thinking about these guys). So this book, being the book we get to see them take that last step to becoming each other's in every way, well it's just an amazing book. They are the same Logan and Tate but better...and more. And omg there are so many sweet parts, sexy parts, funny parts...it had all the parts! I hate that this is the end (just for now, I hope...my fingers are crossed), but this book was incredible, as is the whole series, and if you haven't started reading this series yet for whatever reason, DO IT! You won't regret it.

R * A Reader Obsessed * says

5 SWOONY STARS!!

I swear I couldn’t love you more than I do right now, and yet I know I will tomorrow

I've said this before and I'll say it again. Being my first, Tate and Logan will always have a special place in my heart. These last 3 books have been my epilogue loving self's dream come true, and though at times brutally painful, the reward was the penultimate in romantic conclusions!

This made me smile and cry and bask in the all consuming, epic love Tate and Logan have for each other. A truly wonderful gift from Frank, a gift I didn't know I wanted but ended up needing. Thank you!

With you there are no walls or boundaries, just the endless possibility of things being better than the day before

Cadiva says

Beautiful ending to this glorious love story

You know, when you finish the final book in a series and all you want is to go back and read the first one just so you can see where that glorious love story started, that you've found something special.

And so it is with this one, the final chapter (at least that we know about) in the epic tale of two men who - on the face of it - should never have worked.

But Logan's a stubborn man and Tate's capable of opening himself up to possibilities and so, with them together, we've been given a glimpse into the powerful force that is love when it's returned a thousandfold.

Ella Frank took a gamble going back to Logan and Tate, having left them with a very strong happy ending after the first three books. Readers could envisage their future together in a life of ups and downs, hot sex but always family and love.

But what she gave readers was something more, a final peek into their lives four years down the line, an absolute happy ever after and possibly the biggest extended epilogue written in three parts for one of the most popular couples in this genre.

There is no actual epilogue in this one, but I can see them both in my mind's eye, fighting and loving and pottering around together to the end of their days, happy knowing they've found their perfect other half and secure in that endless wave of emotions.

Bravo Ella, Logan and Tate do exist, not just for you, but for anyone who picks up these six books and lets their own heart be captured by these two men, even for a little while.

Sarah says

It was everything I hoped it would be ❤
