## Twisted Boss Suzanne Steele

My name is James and if you met me out on the street or in a business meeting you would think that I was just another very successful, white collar business man.

I am not. There is a dark recess in the depths of my soul which cannot be witnessed with the casual eye. It is a receding alcove which can only be seen by those who discover it, or by those whom I choose to reveal it to.

I guess that I have always known that I am different. From the first time I thought, engaged, daydreamed, or fantasized about sex, it has never been the traditional form of what most would deem 'missionary' or 'vanilla'.

You see... I would much rather have a woman strapped down on my bed, or even to a wall, because I enjoy taking a woman. I am an Alpha male in every sense of the word and that definitely goes for my bedroom activities. I enjoy angry sex and it takes a certain kind of woman to handle me--or better yet to be handled by me.

Up until this point in my life I have yet to find a compatible mate--but then again I'm not looking. I f@#k who I want, when I choose, and how I want. The whole clingy thing doesn't work for me. Needless to say, I end up breaking it off with women as soon as they start calling and want to know where I am, and what I'm doing.

I like a woman who not only resists me sexually but emotionally. And as I said, I have yet to find a woman with that temperament--so I continue to f@#k them and move on with my life. It has worked for me thus far. My cock mandates that it has its way and I oblige it.

*This is not romance. It is the story of two extremely damaged people in a very dysfunctional relationship. Whether you would view their relationship as love, or not--I can't say. What I can say as the author, is that James and Amanda demanded a voice. They demanded that their story be told and I have been faithful in telling it. Their story is one of dark, twisted, and chaotic passion. I have remained true to them and for that I hold a special place in their heart, and they most definitely hold a sacred place in mine.*

## From Reader Review Twisted Boss for online ebook

### Eva Luna says

Love Amazon! That was the only way that I found this!

Amanda lands in that situation when she steals from her boss, James, and I got pulled into the most twisted relationship I've ever read ..... Well their story is Dom/Sub 'essentially', but they both felt in love, although none of them want to admit it loudly. This was so intense... OMG, forget Christian Grey, and please welcome James. I don't think that I have ever seen a man so obsessed with a woman before. This is not a love story but it is a dark, darkest story.

I liked James because he struck me as an actual REALISTIC alpha male, and not a caricature of how one should be. It is very unlucky for Amanda that this guy has the power and money to go with his good looks. Yup, loving James a lot!

---

### D.K. Cassidy says

James, James, James.

This is one of the most interesting Alphas that I believe that I have ever experienced. Even with all of his bad boy qualities he has a way of growing on the reader. I don't think that I have ever seen a man so obsessed with a woman before. This is not a love story but it is a dark tale of obsession. James starts out wanting revenge and never counts on the chemistry that he shares with Amanda. He is much like a tsunami that comes into Amanda's life and literally overwhelms her, leaving her defenseless and at his will.

Amanda is nobody's wimp and she has no intentions of going down without a fight. What neither of them counted on was the sexual components that they share. I would like to see more of this couple and I would definitely love to see more of James.

Really enjoyed this read and would recommend it to any reader that enjoys over the top Alphas and strong women that resist them.

\*I received a free copy of this book for a fair and honest review\*

### Christon says

I went through a point of confusion while reading this book. But overall, I just came to the conclusion that it wasn't me who was confused but obviously James and Amanda. In Twisted, we get Amanda's version of what transpired between she and James. In Boss, we get James's version of events. Their stories differ so much, I'm not sure either of them know the truth of what really happened between them, besides the extremely hot and intense sex they shared. These two shared some outrageous moments, in and out of the bedroom. What I enjoyed most about this book was the unexpected. You couldn't assume what you thought would happen next, because with James and Amanda you just didn't know. These two seemed to be capable of any and everything. I wouldn't mind reading a sequel to see how far these two actually make it, especially if they don't self destruct or destroy one another along the way.

---

## **Donna Garcia says**

### **A waste of my monthly rental**

this book is very hard to understand. hops from one place to another. I don't even think the author knew what she was writing about. disappointed.

---

## **Sarah says**

James is the definition of cocksure businessman. He is a ruthless shark and well known as such. Amanda dresses like a sexy businesswoman, but really she is a hustler and her latest hustle has unknowingly hustled a great deal of money from James. Amanda thinks she is stealing an idea from a dead man and running with it – she doesn't know that James already owns 51% of that idea on a handshake and has no intention of walking away either from the money or from the punishment he believes she deserves. And James does enjoy doling out punishment to a beautiful woman. James is twisted in all sorts of delightful ways (they don't seem too delightful to Amanda at first) – and Amanda is just the plaything he has been looking for. To give him credit, James is very clear about his plans for Amanda... "I'm going to train you like you are my slave, discipline you like you are my child, and fuck me like you are my dirty little whore."

There is no real story here except that James will stop at nothing to get Amanda into his bed and she will fight him every step of the way. Along the way there is lots of semi-consensual sex, lots of consensual sex heavy with bondage, floggers, canes, whips and the requisite aftercare – and of course a beautifully twisted happily ever after. If this kind of thing does not send you to your happy place, read something else!

No cliffhanger – this book is a standalone.

---

## **Penelope Syn says**

I enjoyed this book because it is two books together, 'Twisted' and 'Boss.'

Twisted is a Dark Romance and Boss is a Dark Erotic Tale. Both of them great books, but Boss is a darker version with elements of BDSM. They were two completely different stories.

It was kind of like getting Amanda's view in Twisted and James's view in Boss.

If you are fan of dark romance, or dark erotica then you will enjoy this story of James and Amanda. When Amanda tries to swindle her boss out of money she finds herself in a dangerous position. She didn't count on James developing an obsession with her and she most certainly didn't count on developing feelings for him. I enjoyed James, because he goes beyond just being an alpha male. The man makes no excuses for his dark obsessive behavior. Every time that I wondered if James would push the envelope; he shocked me with his blatant behavior towards Amanda. The man goes so far as to say that he is dark, twisted, and a danger when it comes to getting what he wants; and what he wants is Amanda...He goes so far as to almost beat her husband to death. How can you like a man like that? Well; this author accomplished it. I love James...

As I said: if you enjoy a dark read, I believe that you will enjoy this.

**Diana's says**

Loved the first half of the book.. which was Twisted.. the second half Boss was Okay..

---

**Menna says**

ummmmm....well,it WAS twisted and was just Ok!

---

**Jazzy says**

Hmmph...Twisted was OK in that it was short, readable and free through the kindle Prime lending library. I was curious to see where it was going even though I wasn't quite sure what to make of it.

Amanda is threatened by James into a sexual relationship; the specifics behind the threat being confusing at best and having something to do with James ordering Amanda to sign an agreement giving him 51% of her business because he was a silent partner to her currently dead partner with whom he had a verbal agreement, which was legally binding as it was accompanied by a paper trail. What? And then Amanda just says "OK I'll sign". So again, "what"?

Anyway...James explains (and explains, and explains in mind numbing detail) that he is a sexual deviant with a dark, twisted sexual appetite. Except that he would never force his dark, twisted, sexual urges on anyone other than a willing participant. (Ooh, that's dark. Just sayin'). So my first thought was that his plan for torturing and punishing Amanda for her thievery (?) was to talk her to death with his long winded, at times unintentionally funny, soliloquies expounding upon - in a fairly stilted speech - all the dark, depraved things he was going to do to her. But as it turns out, Amanda is turned on by James' soliloquies and conveniently enjoys his special brand of bent, twisted, depraved sexuality. So it's win-win and they are perfect for each other and there's a HEA.

It was quick and sort of interesting in a WTF is this sort of way...

---

**Melissa Barnett says**

This book was one of the worst books I have EVER read. I can't remember the woman's name in this book, but if she had the balls to embezzlement money then she should have had the balls to stand up to James. The author was all over the page with this book.

The author had a great idea with this story line but couldn't pull it off. All I can say was this was really bad writing!

---

**Chelsea P says**

DNF

---

**Maya says**

[ Not safe at all. H wants h and blackmails her into having

---

**Erin says**

I wish there was more, ended to quick for me :(

---

**Candace says**

Just couldn't get into this book. No character development or build-up. The blurb was promising, but didn't deliver for me. I don't mind the dark elements, but I like to feel some sort of connection to the characters and that didn't happen. Oh well, to each their own. This one just wasn't for me.

---

**Jennifer Hajdics says**

**Ugh.**

Wow. First of all, this book had no plot, weak characters and the author cares nothing about spelling and grammar. At all! Also, no abbreviations or commas when her characters were talking (I should clarify: babbling incessantly) so it felt like I was reading from a textbook. What a waste of time.
