## From Reader Review World Enough & Time for online ebook

### Judy Lewis says

#### MOON AND STARS FOR CORA: THE METAMORPHOSIS IS COMPLETE AND A QUEEN IS BORN !!!

Be still my heart! Absolutey Brilliant! I loved it! Ms. Black has dazzled her readers yet again with World Enough and Time, the sixth book and exquisite conclusion to her amazing Cora's Bond Series. She has once again teased, tantalized, and entertained us with her incredible talent, exceptional skill and boundless imagination. Black is a woman on fire in this powerful, compelling and deliciously dark paranormal tale of love, murder, suspense, and intrigue! Oh my! I did not think it possible, but this series just became even more intense and exciting! This book delves even deeper into danger, death, suspense, dark plot twists, and the perilous world of vampires! Oh my goodness! I was completely enthralled from beginning to end! I simply cannot get enough of this series! The story is dark, powerful, imaginative, exciting, action packed, riveting, thrilling, compelling, gripping, suspenseful, mysterious, romantic, sensual, steamy and let's not forget scorching HOT! The dialog is intelligent, eloquent, beautiful and very well written. Simply exquisite! The characters are sexy, captivating, engaging, well developed and intriguing. They come to life and jump off the page right into your heart and imagination. Handsome, wealthy vampire agnate, Dorian, in love with Cora is trying to bring his people, the Adelphoi into the future. Beautiful, intelligent, college student Cora, now bonded with Dorian as his cognate is desperately seeking her place in Dorian's heart and his world. As her wedding day looms ever closer, Cora finds herself making decisions about much more important matters than her wedding cake and music as she realizes that the fate of the entire human race may very well rest on her small shoulders. She suddenly finds herself sinking even deeper into Dorian's dark world as the danger continues to increase for her and the people she loves. Secrets are revealed and traitors exposed. The Adelphoi are dealt a serious setback which leads to a strike led by Dorian against the Kyrioi. Anger, jealously and retribution burn fiercely between the two factions. And a simple night of fun at Cora's bachelorette party ends in a heartbreakin turn of events! Oh my! What will the Kyrioi attempt next and who is their next target? Will Lisette be rescued or is it too late?? And just what has Geoff gotten himself into now? Will Cora survive to celebrate her marriage to Dorian? Will the requiem of Cora Shaw become the birth of a new and improved Cora Thorne? No spoilers here but all these burning questions will finally be answered in this exciting conclusion but I will say this - For the first time since I began reading this story which has been told from Cora's perspective, I finally began to understand the real Cora Shaw, her doubts, her fears, her feelings, her hopes, her desires and her dreams for definition to her life and a future with the man she chooses to love. It was quite a fascinating and riveting revelation as Cora's metamorphosis becomes complete. Sexy vampires-check! A fascinating menagerie of human and supernatural characters-check! Danger, abduction, murder, suspense and intrigue-check! Exquisite romance, undying love, a fealty for all time and beautiful sex-you betcha! I was on the edge of my seat from beginning to end. This is hands down, one of the best serials I've ever read! Absolute perfection! Kudos Ms. Black! You've outdone yourself - again! I can hardly wait for the release of Dorian's story: Blood Lust, Vampire's Choice coming in May! Fabulous entertainment and an awesome read!

This is the finale to the roller coaster ride that is Cora and Dorian and it is PERFECTION! If you have not read the first four parts of Cora's bond..stop here now as this will be a spoiler if you have not.

This book begins with Cora dealing with her best friend and maid of honor Lisette being kidnapped. The who and why are unknown, and her faith in Dorian is shaken a bit in the process as she is still finding her place in the world of agnates and cognates. She is still struggling with the fact that most view her as nothing more than as eye candy and annoying eye candy at that.

The writing is flawless and just when you think Ok is she really gonna end it with this one, it does end and your left thinking crap it is over and then she gets us..Dorian will have his story told. Yeah i know your thinking rehash. Well I read the first part she gave us a peak at and it is NOT a rehash, but feels totally different and as compelling as Dorian himself. If you read the series you would get the compelling and how for Dorian it is something that his little use of makes him so awesome!!! Get this series and all the series by this author! She has never written a book that feels or reads like anyone else. She doesn't do the main stream themes to sell, but to write an escape that keeps me coming back for more.

#### **Glad it's over**

Cora's Bond series was definitely better than Cora's Choice. I pretty much wanted to scream at most of Choice. I know I would NOT buy these little Novellas today or ever had I not been sick and medicated. I did read them because I already bought them several years ago. Most books were closer to 100 pages. (Some less than 100) Not sure how up to 200 pages could be advertised. None are close to 200. There is also too much repetition. As tiny as these Novellas are, there should be no need for recaps or explanation of ANY of the storyline in any book. Also, the sex took up how many pages? It padded the length of the short stories. Great concept if you can't produce an actual Novel. Stand alone or Series. I am just glad it's over. Unless you want to pay \$3 bucks every hour which is not only insulting to add up how much you pay for such small content, but the constant disruptions are also insulting to the reader.

Cora Shaw's last tie to her old life is shattered when events turn deadly and the different pieces of the puzzle come into lethal focus but it might be far too late for them all in this thrilling conclusion to Cora's Bond.

Cora's best friend has been captured and the reader can't help but get caught up in the emotional turbulence and excitement as Dorian's enemies make a costly mistake that will finally give them some answers but those answers don't come without a price. These strong captivating characters once again demand your attention while they try to change the world and reach for their happily ever after at the same time with some scorching hot sex scenes and enough emotional turmoil that the reader can't help but connect to the characters. The fast paced, smooth flowing plot keeps adrenaline pumping with edge of your seat action, suspense and romance.

With Lisette missing and more pieces of the puzzle falling into place, things quickly escalate placing Cora right smack in the middle of a deadly confrontation that will have Cora making some life changing decisions. The vivid details bring the story to life while the thrilling and emotional events ensure that the reader can't put the book down.

Warning: Mind blowing conclusion full of action, passion and life altering events will have you glued to the pages until the very end or at least it was that way for me.

4 1/2 STARS

I love Victoria Black's writing, she is AMAZING!!! From the very 1st book of hers I read, which was Cora's Bond, to her other series, my respect for her as a writer has grown!!!! Why one of the big publishing houses haven't come after her begging her to sign with them is beyond me! World Enough and Time does not disappoint!

When Cora finds out that her best friend didn't make it home after her bachelorette party, she is scared and she knows something is wrong and that the guy who had been leaving the threatening notes for her has something to do with it. She tells Dorian and begs him to get his guys onto it and find her. He doesn't know why he should because he doesn't think it has anything to do with them, him, or his enemies. But she means a lot to Cora and so Dorian will do what he can to find her friend.

He leaves to go do what he does, he tells her he needs a couple of djinns, that they can smell scents no one else can. She doesn't see Dorian till the next day and they haven't been able to find her scent. But they did find signs that whoever took her knew what they were doing to make it hard for them to trace where they took her.

I don't want to give too much away because there are plenty of surprises. Don't miss out on this one, it was a GREAT read!! And I can't wait to get started on Dorian's books!!!!

#### **Best book so far!!**

So sad to have to take a break from these characters as this is the last book of the series published, but I loved the story and character development! The ending was amazing as well!! I have to say this was the best book yet!! Can't wait until there are more!! One happy reader :)

An end but truly a beginning.

In this book, Cora is challenged with all that she is made of and has grown to be with Dorian. The kidnapping of Lisette, her best friend and maid of honor leaves her with doubting everything and herself. What is she to do with no one believing her that it surely does have something to do with her or Dorian. She comes to find out that in a roundabout way it does.

With her wedding approaching, it's not the typical cold feet she gets but the regrets that the change in her life has affected her friends. She pulls away from Dorian but as usual the love he has for her, he cannot disappoint her in what she wants. Plus he'll never let her go.

There is a surprise from Geoff that I did not expect. The poor guy first loses Cora to Dorian and then this life changing event in order to save Lisette.

This final book of Cora's Bond pretty much wraps things up. Pieces of the puzzle come together nicely that don't leave the reader wondering with 'well what about this'. Where some books end at the wedding, we get to read a little more into Dorian and Cora on their way to their honeymoon. This is where Cora actually realizes the truth of how much she trusts Dorian.

Though Cora's Bond has ended, I do hope their story will continue at some point. I am so thrilled to see that we'll actually get to read Dorian's story now.

Great work Vicki. Thank you so much for such a spellbinding series.

I received an ARC by the author for an honest review.

#### **5 stars \*\*\*\*\***

Awesome ending to a really fun series. This one picks up with a friend who had gone missing and Cora's attempt to find them. She would stop at nothing to find the friend she loves. It leads her into her own trouble and finding out who all was behind everything that has lead up to this point. Full of excitement and plenty of surprises I was glued to this. Very emotional this read was. While the ending was very good I couldnt help but feel a sadness for Cora over some other circumstances. Over all though I really thoroughly enjoyed following Cora's journey of her growing into her role and the person she became.

World Enough and Time is a Great finish to an Awesome Series!! It takes a truly accomplished author to keep you turning the pages and Ms. Black has certainly done that with this series!! I was hooked from the beginning and now at the end, I'm a little sad. I want there to be more, but I'm happy with the ending even if there isn't another series after this one!

Cora should be happy, a week left of school before break and her wedding to Dorian. With Lisette still missing Cora is anything but happy. Cora has enlisted Dorian's help to find her but even he hasn't had much luck. They did get a photo of the guy that Cora saw Lisette talking with at the bar but that's all they have. Dorian is trying to be there for Cora but he is also trying to do what Cora asks and look for Lisette. Dorian wants Cora at the Manson so she is safe just in case she is taken next.

Cora realizes that she doesn't have the garter that Lisette got her for the wedding. Cora has the car brought around only to find that Clarissa, Dorian's daughter, is already in the car waiting for her. Clarissa is there for

protection and Cora knows that as they head to the apartment on campus. Once on campus, they get out but Cora sees the guy that was talking with Lisette at the bar, she starts running after him only to be captured and taken by a couple of guys in a white van. Just as she is realizing that she has her phone with her, it rings and it's Dorian. He tells her to keep it on her as long as possible but if she can't he will still be able to find her without it because of their bond.

Cora has had to make some difficult choices in her life and now she has to make another. Hopefully it won't cost her, her best friend Lisette. Will Lisette forgive Cora? Can Dorian get to Cora in time?

You have to read the book!! I know you will love it!! I know I did!!

### **Niki Driscoll says**

In this final installment of Cora and Dorian's tale, I truly felt I came to understand Cora a little better. In the past books, I thought her to be a little childish even when I understood and agreed with most of her inner dialogue. In this story however, I think Cora grew in leaps and bounds and better understood herself and what she felt for Dorian. This storyline was well thought out, well written and had several twist and turns I did not anticipate. There is a mystery to solve, abductions, lots of emotions flying and an unexpected alliance. Again you are kept on the edge of your seat and are working just as hard as the characters to figure out what is going on and wondering if this wedding of the century will really take place. This story is seen from Cora's point of view and does not always put Dorian in a good light making me really wonder what his thoughts would reveal. This was a remarkable story right from the beginning and I will be sorry to see it end. I heard there is going to be a spin off telling Dorian's perspective and I am eagerly looking forward to seeing what he has to say. What an awesome ending to a great series.

V.M. Black is THE Queen of Awesomeness!!! This book deserves a HUGE standing ovation! 5 INCREDIBLE stars!!! I have read every single one of Ms. Black's books and this Cora/Dorian series is my absolute favorite. "World Enough and Time" is by far her best work, and that is saying a lot because each and every one of her books is amazing! And they keep getting better and better! And i'm a very picky reader! ;)

"I love you, Cora Shaw," Dorian said. "Until the end of time. The moon could fall and the stars burn out, and it would change nothing. You are so loved."

How can you NOT melt after reading that? Such a WONDERFUL ending to such a beloved series! We have been following Cora and Dorian through all of their ups AND downs. We finally get to experience Cora's final transformation - her journey is complete. And with her beloved Dorian at her side, as he always has been. The author wraps everything up perfectly. Flawlessly. As she always does. As you read through all the FIVE STAR reviews, you will notice that this book, this series, and V.M. Black herself has touched so many of us! I am honored to count myself as one of her most loyal (and a bit obsessed) fans. Her writing style, her vivid details that suck you in, her characters that make you grow and develop WITH them, and her fantastic story to tie it all in and deliver her best book yet! Very unpredictable, exciting, hot, emotional, shocking, suspenseful, and absolutely perfect! I end this review with a heartfelt plea to GO GET THIS BOOK AND START READING!!!

### **JoRead says**

V.M. Black has a gift for story telling and she certainly knows how to weave a good romance and erotic tale in the mix. Not only that but she turned what could have been just another serial among many in the pile into an unforgettable sexy tale of abiding, never-ending friendship, and above all, love.

The last time we see Cora she was left in a sea of confusion as her big day was approaching and Lisette, her best friend and maid of honor was kidnapped. To her, Lisette is the link that keeps her attached to her old life and loosing her may mean loosing her own self to Dorian's dark world, even him and her own identity.

***“Do you want to feed your pride, or do you want to save your friend?” ~Dorian***

I admit that I've always disliked that side of Cora. It was as though she was never capable of enjoying Dorian's love for the sake of love. She always blamed her emotions and feelings for him on the bond. Even though he proved over and over again that he would never make her do anything against her own will – ok, there was this one time in which he would have but it was to save her life and only in the event of his death – she still was sort of resentful of her position and perhaps even him. It was like she was saying “I hate you because you made me love you but please don't leave me!” Which in truth, all cognates with a sense of reality were probably saying, however Dorian was different, and the fact that Cora couldn't see how different in spite of it all was driving me up the wall, making me upset even! And add to that the fact that she wasn't even trying. She kept saying she only felt as an extension of Dorian but whatever was she doing to define her own person as a cognate?

***“I love you, Cora Shaw,” Dorian said... “Until the end of time. The moon could fall and the stars burn out, and it would change nothing. Is that not enough for you to find peace within yourself, with what you are? You are so loved.”***

And then, Ms. Cora Shaw proved herself. Not only did she save herself but also proved that she could be more than just a pretty adornment on Dorian's arm; she found her place in her world, her very own place and world. She finally realized she wasn't a damsel in need of saving, or a prop for Dorian to lean on. And she

embraced that position with the stance of a freaking Queen. Royal and Proud. And quite frankly I am really sad this is over because the story took a turn for the best and it left quite a few good open sub-stories that I'd love to know more of, what with Geoff and Lisette, the Nexus theory, Mrs. Cora Shaw Thorn making huge life changes, not to mention swoon-worthy Dorian becoming the book boyfriend I could actually fall in love in real life... \*le sigh\* =D

*“I had trusted him—trusted him with all of me, trusted him to ignore my pleas, and he’d taken me to a place I’d never have chosen to go but, having visited, I didn’t for one instant regret. I’d trusted him, and he’d proven more than worthy of the trust.”~ Cora*

Cora's conundrum may seem to have been resolved too swiftly but the story in itself deserves the praise, if anything because it keeps you engaged from beginning to end and made want more of it.

\*\*\* I was gifted a copy of this story in exchange for an honest review and the opinions given here are solely my own \*\*\*
