Caribou Crossing

Susan Fox

Caribou Crossing Susan Fox

Author Susan Fox begins an exciting new series with this heartwarming introduction to the rugged Western town of Caribou Crossing—where a starry-eyed young couple sow the seeds of the life they've always wanted...

Wade Bly is certain of his destiny: He'll marry his high school sweetheart, Miriam, work at his father's ranch, and eventually inherit the place and make it his own. And of course, they'll have a few kids once they've had time to enjoy married life and save some money. But when an unexpected pregnancy speeds up their plans, Wade can only hope he's up for the challenge...

Miriam always knew she and Wade would be happy together. He's a good provider and a doting father to their spirited daughter, Jess. And when the lights go out, he's the passionate cowboy of her wildest dreams. But when a string of disappointments leaves them both feeling doubtful about their future, they'll have to rediscover themselves and their love—to see that the life they fear is over is really just beginning...

Arlene says

I really enjoyed the characters in this book. Can't read it fast enough. Can't wait to the next book. Love it!

Carol Pelzl says

Very entertaining

I like the characters and enjoyed the many different moods that is illustrated and how they worked out. It was a great read.

Gerry Humes says

A good read.

A true to life story. Young love and dreams, life happening, depression and problems, awakening to their problems, facing them and choosing to work towards solving the problems.

Joanie says

This is a modern romance of Miriam and Wade and how it blossomed. A tragedy happened and it did take a long time for the two of them to come to terms. Each one had a different way to cope but would they be able to go back to the "beginning"?

Cris says

O livro parece um daqueles romances de banca fofos, que eu tanto gosto.

É a história de amigos de infância, Wade e Mirian, que se casam após o colegial, e enfrentam a vida de casados juntos; o nascimento da filha e as dificuldades para pagar as contas. A vida deles não era perfeita, mas era muito boa, até o dia em que aconteceu uma desgraça e tudo mudou.

A história se divide entre o passado recente e o presente, com o acidente, e mostra que o amor não é perfeito o tempo todo.

Gostei bastante do clima de romance de banca, meio água com açúcar. A história é bem curtinha, do tamanho certo para não enjoar. E de bônus ainda tem a história da filha do casal e do amiguinho nerd. Duvido você não se apaixonar por eles!

Cris says

Tudo pra ser um ótimo livro, só que não !!! Claro, o casamento não é o felizes para sempre que todo mundo pensa, há momentos infelizes também, porém eu achei que Miriam se entregou muito fácil e esqueceu de tudo e de todos, pensando só em si . Achando que só ela estava sofrendo, e por 6 meses ela se fechou em seu mundo chorando a perda do bebê e do útero. Sério, o Wade foi um santo !!! Ele, por sua parte, quase perde o rancho por conta do orgulho, não querendo pedir ajuda ou um conselho a ninguém !! Bom, valeu à pena pelas crianças, Jessie (filha deles) e Evan, o amigo. Curiosa sobre o livro deles dois!!

Jackie Fire and Ice Book Reviews (blog) says

[The couple were happy to have another baby. When they had a miscarriage, instead of that bringing them closer, i

Linda says

Okay but didn't like some parts of it.

Ballerina60 says

disappointing. reminds me of what mom used to say, "if you can't say anything nice, try not to say anything at all". this was a sad story that had to be concocted to go along with other books already written. it wasn't badly written, but it was a lousy story in just about every way imaginable.

Kathy says

Meh...

Shell Williams says

great read

Such a loving romance they loved each other so much threw so much I wasn't sure what was going to happen but now I do and if you want to know you'll have to read it I couldn't put it down I read it in a few hrs

Dorine says

Rated 3.5 Stars.

What happens when a couple has the perfect life and then that life is jostled by something unexpected? Will they be strong enough to survive it together?

This contemporary western novella takes place in British Columbia's Cariboo Region during the years of 1994 through 1995, in a fictional town called Caribou Crossing. I was drawn to the book by its cover, assuming that it would be about ranching and it sounded like a series I'd enjoy. It was also a free read when I downloaded it.

Wade and Miriam Bly fall in love as teenagers and marry early in their adulthood. Life is "a dream come true" until the "moment" that changes everything. The book follows this couple back and forth through their history together, often through Miriam or Wade's memories of their past. So the reader is dropped into the "moment," not really sure what has happened, but you can guess a couple scenarios so you're not completely surprised when it does occur. That doesn't make it any less emotional, though.

Even though I didn't know exactly what happened until more toward the end of the book, it wasn't in the forefront of my mind. Sometimes when you're taken back and forth through a person's life, it can be distracting for the reader but this wasn't the case for me. I forgot about that and concentrated on their unfolding story.

Miriam and Wade had the perfect relationship, the perfect home, the perfect jobs, the perfect sex life...everything was a little too perfect and I began to wonder what would happen to them when reality hit. A little foreshadowing, perhaps?

I'm not normally fond of books that focus on a couple after they've found their happy-ever-after moment and go on to live their lives, because that's not always as uplifting or as engaging to me. I much prefer the journey up to that happy-ever-after moment, rather than follow life's disappointments and how they survive them. And because this couple "seemed" so perfect, it wasn't as realistic for me. I kept wondering if they ever argue or if either one of them ever forgot to put the cap on the toothpaste.

At first, I was ready to bail on this story just because I felt the sadness coming and couldn't relate to their perfect world, but I was curious about their daughter and her best friend...especially the best friend, who seemed to be a boy with a difficult upbringing, so I continued to read to the end. The best part of this novella is getting to know their daughter and her best friend as children. The second best part is getting a peek into the second book in the CARIBOU CROSSING series, HOME ON THE RANGE, and realizing it's about the children as adults. Just from reading that first chapter, I think book two will land in the TBR Mountain Range sometime in the future.

Overall, the novella did its job in creating interest for the next book, a full size novel, and because I received it for free as a special promotion, it was worth reading to introduce me to the next book.

And for those who are wondering, fun fact per the author, Cariboo region is the correct spelling and it's the reason for the difference of Caribou and Cariboo within my review. You thought I made a typo, didn't you?

LOL

Charlotte Skibicki says

Roller coaster of emotions

Fall in love with Mirium and Wade as they face life's ups and downs together. The back and forth between present day and past memories was a little difficult to follow at first when listening to audio. This book will make you run the gauntlet of emotions, it is Funny, sad, heartbreakin and romantic. It is a stand alone read.

Amber says

Horrible book. I only made it through the first couple of chapters but it was way too graphic. I was hoping it was just going to ellude to things briefly at most, so i skipped over a bit of it and it was still being talked about. Way to crude. There was potential for the overall storyline, but I could not put myself through reading any more of that.
