"These are real people with real problems. This is real life, and it's real f\*cked up."

?

Turner Campbell is an asshole.

I fucking hate him.

But I can't get enough either.

He sings like an angel and fucks like a devil.

If I could, I'd run away and never look back because to tell you the truth, I think this man might be the death of me.

?

\*\*\*\*\*

?

Naomi Knox is a bitch.

I can't fucking stand her.

But I can't stop thinking about her either.

She looks like an angel and plays like a devil.

If I could, I'd fuck her good and forget all about her, but to tell you the truth, I think this woman might be my last saving grace.

I bought this box set for the 3 short stories and boy was it worth it . If you ever wanted to know about the night that Turner and Naomi hooked up when she was 16 and he knocked her up, well you're in for a treat because you get that little gem of a short story DIRTY CANDY CHERRY POPS. You also get the details of BJ that Lola gave Ronnie in the utility closet in HARD HOT BLOW UP. Lastly, there's Hayden Lee's story with POP ROCK ROOT B\*TCH which gives us some insight on why she is the way she is. This box set is worth it for these three short stories alone.

**Luisa Rivas says****Crappy**

This book has all the negatives you don't wan't to read in a book. The only good thing it has is good spelling. Sex, drugs, rape, violence, murder, abortion, booze, plus slutty behavior. The sex, drugs, drinking is constant 24/7, which is just too much. Doesn't even sound real. And the mention of bodies smelling and sweaty gave me concerns on the characters' hygiene habits and made me imagine that their bus is a hovel, with the mention of frequent puking all over the place. I found it frankly gross and unappealing. There's a good story here, and if the author had made the setting a little less gross and pathetic it could have been riveting. As it is, I was grossed out and am doing a DNF.

This review originally appeared on BrizzleLass Books.

Wow...Sitting down to read this boxset I had no idea what I was letting myself in for. Five full length novels and three bonus short stories to cap off the reading experience. I agonised over the best way to write this review and decided that short reviews of each individual novel was the way to go...so here we go get

ready...

### **Real Ugly**

Indecency are headlining a big tour and Turner Campbell is their lead singer, Amatory Riot are their main support and Naomi Knox is their leader and lead guitarist. Turner and Naomi met once before but Turner doesn't remember, it's scorched in Naomi's memory though and she hates him with a passion of a thousand suns. As Turner gets to know Naomi though he starts to remember and wants to know more, trying to win her over and convince her he's not the guy she thinks he is. But something is sinister is happening, and something from Naomi's past threatens to destroy her future. I was gripped, tearful and completely absorbed in this book which I read in one sitting.

### **Get Bent**

Turner is desperate and I got completely swept up in his desperation in this book. Naomi is missing presumed dead, and all Turner wants is to find her but there are no leads and weird things keep happening. As the tour continues with people filling in the gaps in the bands for the missing and dead Turner investigates and tries to figure out what is happening and who is causing all of the mayhem. This is an incredibly tense read and not at all what I expected when I started this series, but I just couldn't put it down. This is the point where these characters really started digging into my skin and becoming a part of me.

### **Tough Luck**

Ronnie is the drummer in Turners band Indecency and Lola drums for one of the support bands Ice and Glass, we learn so much more about the evil plot in this book thanks to Lola who has been a part of it but jumps ship to join the good guys. These two are about as fucked up as any character I've read of C.M. Stunich yet and she writes them so well you can't help but to adore the hell out of them. They are so perfect for each other and really do need each other to get through this bloody awful situation.

### **Bad Day**

We're back with Turner and Naomi in this book and the range of emotions is a true rollercoaster as we battle with them dealing with potentially losing one of Turner's friends, Naomi battles with her feelings for Turner which is understandably hard for her given their history, and Turner has to try and handle his feelings of jealousy over Dax, her bandmate, being in love with Naomi. So much going on here and I was so engrossed I flew through the book in record time and this series is proving to be romantic suspense at it's best, I'm on the edge of my seat and the sex is off the charts hot.

### **Born Wrong**

Dax McCann has been one of my favourite side characters in this series, his being in love with Naomi has been a little annoying though and he needed shaking out of it and in this novel C.M. Stunich gives him a good shake up with Sydney Charrel, stripper sister to Trey, Turner's band mate. As soon as they meet sparks fly. She knows he's in love with Naomi but they feel a need to be near each other anyway. You know all the great romances start like that right? I feel like there will be so much more to this story...SO much more!

Turner F\*\*\*ing Campbell is the guy of my dreams! I think I love him! Lol With its twisted Love Story and ups and down it was steamy, gritty and up close and personal view on each one of the characters and how human we all are! Nothing can be said on how good it is! Truly mindblowing!
