## Chrissy says

Okay, so the story is just getting weirder and weirder...

Turns out new girl Hadley had kidnapped bad witch Raine, leaving her tied up in a lone basement. Of course, Natalia finds Raine and offers to release her, provided that Raine leads Natalia to Cam.

So, Natalia and Raine head on a road trip, making random stops at Walgreens and McDonalds along the way, trying to find Hadley and Cam -- because, after all, the world is going to end if Nat and Cam end up together -- so let's grab evil Raine and try to find a way to expedite the process, no?

Undoubtedly, we learn that Hadley is a witch too -- big shocker ... okay .... maybe not. Hadley is from some weird witch compound, where they are ultimately debating whether or not to let Nat and Cam live. Together, the duo might be a fierce weapon in the mysterious upcoming witchy war. Or, they might just end the world, like Raine said.

This series is just going on for TOO LONG. We're too late in the game to keep being so mysterious and vague about everything. Hurry it up, Barnholdt!

## Christina says

Let me start off by saying this book is only 68 pages long and not even 68 full pages. It starts off right where it left off in book 10. Natalia debating on saving Raine from Hadley's basement. Natalia has no choice but to somewhat trust Raine into helping her find Cam. (whom took off with Hadley).

There's a lot of stopping at walgreens, stopping for gas, stopping for food and Blah blah blah. To me, this book really had no point to it and once it starts to somewhat get back to the story I would like to finish, it's over. I way over paid for this short story and don't recommend it, till it drops down to free or \$.99.

This story is getting better. I've found that it's better to wait for the whole season to be out before purchasing because you get it a better deal.

arrggghhhh!!!! These stories are dragging for me now... I keep hoping they will pick up at some point... I feel like I'm in a bit of a catch at the moment, I want to know what happens, therefore I have to plod on... If I don't plod on, I'll never know! They all started off quite good and now I feel like I'm on a sliply slope downwards...

Fingers crossed that the stories get better!

### **Emma (BelleBooks) says**

After taking a bit of a break from this series, I recently bought books 11 and 12.  
I'm really starting to wonder how long this series is going to be?!

Anyway we are back in our witchy world with the usual suspects, Cam, Nat, Raine and the new girl Hadley. And usual in this little world, all is not as it should be. Raine has finally been found, and in the least likely place you would think! Nat has been given a strange Ipad looking contraption which allows her to talk to some mysterious girl who seems to know all the answers.

The race is on to find out the truth before either Raine can get her claws into Cam again, or something worse happens!!

Thats all I'm saying without giving too much away!

As usual a super short read, ideal for a short car journey or a light read before bed!
