I have read it several times and even found the Chinese version. It's so great that this manhua can be scanslated into English. And it's also a pity that its manhua version only matches the first volume. Shi You writes totally 3 volumes of this series. Now you guys can real this manhua on an app called Webcomics for free both in iOS and Android.

Dear author,
Hats off for making the main girl a genius and not blinded by love.

So touching and complex love story I LOVE IT SO MUCH!! Ivy is my idol, even though she annoyed me sometimes. But she inspired me to be brave, clever, and beautiful. She is the girl that any men would kill or die for. History-knowing (since she is from the future). Don't to mention how much beautiful and pretty she is. *damn those sun-shining haired, lotus blue eyed, pure white skin, and dedicated body damn damn* She even go to the battle to help the persons she cares *so smart and brave damn damn damn* This girl inspire me to be the better person. No doubt why Pharaoh and other boys love her this much. T^T

BEST MANHUA I EVER READ. I hope this manhua will be translated to other languages (I mean English, French, or Thai) and print in colorful paperback. So other people can read this story. Learn Egyptian history through this beautiful romance. I REALLY want other people to read this! *What happen if I don't know English?* I will not have a chance to read this story. (It would be better if I know Chinese, anyway.) Hope this turn to anime, too. It's gonna be so much fun, and LIVELY, MORE ANGSTY, AND BEAUTIFUL !
