Randolph "Thorn" Wilson died a long time ago. But that doesn't stop him from riding his ghost Harley through the sky, trying to help other bikers. Now he's caught in a battle between an elven King and his skateboard-riding champion and a mad Prince of the Dark Elves and his demon drug-pusher. Also caught in the middle are two mortal bikers: Wolf, an ex-vet who's a mage-in-training. It's up to Thorn to save the two without getting the tattered remnant of his spirit blasted to the four winds . . .
