## From Reader Review The Cursed Heir for online ebook

### **Jessica says**

So while moving around books on my bookshelf today I was looking at my Morgan Rhodes books and I was like when does the third book in ABOSAT come out? Looked it up and found out that there is no plans for it to come out anymore. Morgan explained why on her tumblr and yeah I understand the whole business thing but I am hella upset about it. I love her books so much. And I actually really enjoy the characters in ABOSAT and I was really excited to read more of their adventures. I just can't even believe that this is a thing that has actually happened.....

Ok, so I've just discovered that this book will probably never come out, as the author mentioned why on her website, and I have to say I'm more than a little upset. I know most people liked the Fallen Kingdom series more than this one, but I actually preferred this one. To me FK was ok, Spirits and Thieves, however, I was much more interested in. Well now I guess I'll never read it (and resolve all those cliffhangers).

November ?

What happened to June ?

Dudes, seriously, have some compassion. When this novel and the last Falling Kingdoms book come out, I'll look like this little guy here :

In her blog post, Morgan Rhodes has canceled the *Spirits and Thieves Trilogy*. I feel like this final installment

would have been amazing.

\*sobs some more\*

Don't mind me, I just have to step back for a moment as this series goes in the lost book cemetery.

Despite the fact that I haven't even read book 2 yet, **WE HAVE A RELEASE DATE AND A TITLE YESSSSSSSSSSS**

**And THIS is exactly why authors shouldn't end books in fucking cliffhangers!!!! Because you never know if a series will do well or not, or even if the author will even decide to hold up their end of the bargain by finishing things off!!!!**

**Don't get me wrong, I get it, I GET why this author is cancelling publication on her 3rd book, but I ALSO get why so many readers who HAVE purchased and read the last two books - now eagerly awaiting the conclusion to this trilogy - are fucking PISSED; it's because the last book ended on a cliffhanger and now they'll never know what happens!!! The author does say the 3rd book MIGHT see the light of day, but I feel like that's a copout and that's just dangling a carrot in front of the proverbial horse, since it's neither here nor there!! Authors, STOP WRITING CLIFFHANGERS!!!!**

**End things on a slightly ambiguous note so readers know there's more to come, sure, that's fine, BUT give your readers closure in case your series goes by way of the Dodo, and things end abruptly mid-series!!!**

**I DO have the last 2 books but I haven't read them yet because I was waiting for the 3rd book to release (so I could marathon them all), but now I won't even bother, because WHY THE FUCK WOULD I WANT TO READ TO BOOKS TO A STORY THAT'S UNFINISHED, KNOWING IT ENDS ON A CLIFFHANGER??!! Spoiler alert: I don't!!! It's funny how ironic this situation is going to become though, because the reason this series is ending is because of sales ... but I am about to return these 2 brand new books for a refund, because no thank you!!! NOBODY in their right mind is going to go out and purchase books to an unfinished series, knowing the likelihood of it being continued is incredibly slim (read: non-existent), and anyone who HAS recently purchased the books is likely to return them!!! What happened here is a perfect case of Catch-22 and what has happened here has effectively killed the series!!!**

**The author mentioned not being able to write the 3rd book and make it free for the series's existing fans and I TOTALLY get that, I NEVER would expect anyone to give their hard work away for free!!! BUT, I'm sure her existing readers would have purchased exclusive copies ... or perhaps eBooks the author can independently publish, JUST as a show of good faith, so her readers DO get that closure on this series!!! ORRRRRRR she could invest profits from other books into this one!! I am NOT presuming to know how her world works and I am definitely not presuming to know how much all this**

**costs, I'm just speculating on potential solutions that might help to save this series and these books!!!**

**That being said, if this author comes out with a new series, the likelihood of me purchasing the books is VERY SLIM, just because I don't trust the predictability of this author's book publications!! I WOULD purchase the books if I see the whole series is out and there's no risk of what's happening here!!! I DO own the whole Falling Kingdom series - I read the first book and it was phenomenal - and I will definitely continue with that one!!**

**Anyway, all in all, this is a bummer!! But hey, it happens, and I don't fault the author in any way whatsoever!! I DO ask though, once again, that authors stop writing cliffhangers, PRECISELY for this reason!!!**

DNF series (DID NOT FINISH SERIES, SINCE THE LAST BOOK DOESN'T EXIST)

Well there is not category for books that SHOULD have been published and probably never gonna be published so you can probably delete it or make it a DNF series. I was really upset when I heard we are mostly likely NEVER going to get the last book of this series. And while it's not the first time authors or publishers have done this, this was a big blow. For example: The Ring and The Crown by Melissa de la Cruz...never made a sequel just re-released it a paperback in a not-so-cliff-hanger format. If there is ever a chance to get this book, I'd like at least an ebook to finish the series.

Seriously cannot wait for this book!!! I hate cliff hangers so I hated the fact that book 2 left off in like the middle of what was happening!
