Daphne says

This wasn't a bad addition to the FG world. The character building was a bit off, but I did dig the MC and the hardcore Druidness of him.

David Bill says

The Jewel of Turmish is one of the books in "The Cities" series of Forgotten Realms novels. I read this directly after reading The Sea Devil's Eye (Forgotten Realms: The Threat from the Sea, #3). It was a complete fluke that I chose this book to read next. Though nothing in this book impacts the war with Iakhovas and the tale told in "The Threat From the Sea series, it does reference it several times, something that I really liked considering I'd just put it down and it was still fresh to me.

This is an easy and fairly quick read. Alaghôn is the City highlighted in this particular Cities novel. It's story revolves around the Druid hero, Haarn Brightcloak, his companion bear Broadfoot, and a sword for hire, Druz. It focuses on their being drawn to a battle with Borran Klosk, an undead conqueror that has been returned to the world of the living, even though he is no longer alive. He is determined to reek havoc and conquer vast territories, seek revenge and correct his previous conquest failure.

Stuart Schneider says

First, I cannot believe Mel Odom wrote this book. Getting past my racist hatred of tree huggers, it took half the book just to kill a wolf and raise the Mohrg! The back story involving the antagonist's support is never explained in any detail, the battle sequences at the end were mostly thrown together and there was no real romantic interplay with Druz really until the big finale. I have so many problems with the storyline here that I found myself rooting hard for the undead to take over Turkish and be dealt with in another later novel, so that I could put this one behind me. This one will most certainly wind up being one of the years' worst. How, or I should say, when did Haarn cut the jewel off from the mohrg anyway before affixing himself to be a part of the Stone wall. This came real close to one star due to my disappointed expectations and dissatisfaction.

Bradley says

A credit to the tales of the Forgotten Realms. Druids and mindless legions of undead haunt these pages to draw together a rich story that enchants and delights. I truly enjoyed this book. =)

Loreley says

I read this because I wanted to get more information about druids in Forgotten Realms and Emerald Enclave. (I play with druid characters in Dungeons & Dragons)

It served the purpose well, but I can't say the book has much literary value. Maybe if it was longer, the author could develop characters better. It felt like a rush to give us as much background about that as possible and sometimes appeared forced.
