**The Man That Time Forgot** Paul Mitchell , Alan Mechem , Ray Dillon (Illustrator)

History is a great big lie.

Just open any book or talk to any history professor and they'll tell you that history is filled with nothing but glorious battles, great leaders, plagues, large fires, earthquakes, famous inventors, Egyptians and Louis Pasteur.

This couldn't be further from the truth. History, in fact, is filled with a whole lot of nothing.

Andrew Adams knows that only too well.

He's an ordinary man living his life in the all too abundant and mundane spaces between those great moments. Just like all ordinary men he spends much of his life wondering what the point of it all is, struggling to form meaningful relationships or find his place in society. Andrew's life follows a daily routine much like that of many others: he wakes up, does the minimum required to get himself through the day - careful not to learn too much or create a lasting impression on anyone - and then goes back to bed. There's only one, ever-so-minor inconvenience that continually stands in the way of Andrew's ignorantly blissful life

Time-travel.

Since before he can remember every time Andrew sleeps he's randomly flung through time and space, never knowing where or when he'll wake up. The only thing he can be certain of is that the location he arrives at won't be anywhere exciting.

He's a cursed man who had no idea why this happens to him, clueless to how it all started or how it can be stopped. Rarely does he find a place to fit in and, on those rare occasions that he does, he can only stay there until he loses his fight against sleep.

Andrew Adams has all but given up hope and given up on life. That is until he meets someone else like him who sets in motion a chain of events that will lead him on a journey of discovery and answers to questions that perhaps even he didn't want to know. With the help of a mysterious and tenacious woman, an old drunken priest and a seven-foot, psychopathic assassin Andrews life is about to be given a purpose. Finally he might start to view his abilities as a gift instead of a curse and perhaps learn that there's always something to be thankful for.

Whether he wants to or not

## **From Reader Review The Man That Time Forgot for online ebook**

### **Shorel Kleinert says**

Felt like the tv series "Lost". In a good way. I'm willing to continue on with the story if the author is. Let's see where this rabbit trail goes...

---

### **Alex Day says**

This is an interesting one - the writing has a Hitchhikers style to it (but with less waffling than Adams, mercifully) and the concept is killer. A great idea and world that kept me thoroughly engaged.

Punctuation can be off in places - definitely more thorough proofreading is needed - but if you like cool time travel ideas and quirky, funny narration, this will be for you I think :)

---

### **Cheryl Grant says**

#### **I love books where the hero discovers what is going on along with the reader.**

A great read but needs a bit more editing. There are quite a few syntax errors towards the end of the book.

---

### **Pamela Jay Paralikis Jay Paralikis says**

#### **Too long**

Too long for the point. It was interesting for the first half, and but then became repetitious. Not bad overall.

---

### **Brian Borgford says**

I really enjoyed this story. It is intelligent sci-fi with an interesting plot and characters.

It could really use some editing, especially towards the last few chapters where the lack of editing actually confuses the plot.

I would prefer not to see multiple points of view in the same scene as it becomes tough to follow at times.

Also some of the minor back stories are a distraction.

But it is a worthwhile story that most sci-fi fans can enjoy.

---

### **Ariel.renéé says**

Wasted my time reading this mediocre book, yet it still has me wanting to waste my time on the next one.  
Hmmm....

It's alright though I don't mean to be a downer. It was entertaining just not spectacular.  
The voice is great I do have to say, it had me chuckling throughout for various reasons.

---

### **Mike Day says**

Time travel stories are my favourite genre. I have read a great many of them. This one was up there with the best of them. I read it for three days every spare moment I had. A thoroughly entertaining adventure. I hope the author considers a follow up.

---

### **Michael says**

A very enjoyable time travel yarn! I love good time travel stories, and this is up there with the best. Every time I had to put the book down I couldn't wait for the next opportunity to get back into it again. I was so disappointed when I finally finished the story. The story-line was very quirky and occasionally I was a little lost as to what was happening (not unusual in a time travel story), but all became clear as the plot unfolded. The only slight let down was the few missing words and grammatical errors which seemed to increase in number towards the end. For me this didn't really detract from the story, but it was a small irritation that could have been avoided by a little better proof-reading.  
If you like time travel yarns, this one is a 'must-read'.

---

### **Tome Addiction says**

Picked it up as a free Kindle book, and couldn't put it down. Read it over the 350+ pages over 3 days.  
Left me wanting more from the story.

---

### **Jonathan Smith says**

#### **Enjoyable Read**

Great book, captivating, and engrossing. The ending is a little questionable but leaves an avenue for continuing into a second book. Would recommend to friends!

---

**Luigi says**

The story line was pretty good and got better, unfortunately there were some serious grammatical issues, patches where the editing let it down badly. The god thing about Kindle is that this isn't too hard to do.

Reads like it should have a sequel.

---

**subarctic77yahoo.com says****Don't waste your time**

would not recommend story very boring and confusing and vague hero is weak and a coward very difficult to root for

'm m

wouldn't recommend this book to anyone. the story  
was

©@ and very confusing  
boring

---

## **Andrew Smith says**

### **Great Adventure Read**

I really enjoyed the story and characters, and the wonderful mystery that doesn't reveal itself too soon. In fact, you often think you know what's up, but you really don't! However, the book does need to be edited for punctuation and grammar.
