**Ibtissam says**

A very interesting book written by one of the most influential people in the Arab world dr Ibrahim el Fikki, at first he talks about the excuses that people make or tell themselves and that stops them from achieving their dreams, then he tells stories of successful people from around the world and the difficulties they encountered before making their dreams come true. and after that he tells the steps that you should follow in order for you too to achieve your goals.

may his soul rest in peace, allah irhemo

This book is so amazing, specially for a person who has an idea or a dream! and wanted to make to actions but have fears, doubts or obstacles! It helps a person to use their mind and soul fully and achieve great accomplishments. Not to mention the stories about successful people like HYUNDAI's founder and so many successful companies! Such a great read!
