Cupid's Granddaughter Samantha Carol

Greek Mythology. First installment in the Cupid series!

Amore, Liebe, Amour, No matter what language you say it in it means love and it's my job. My grandfather is Cupid and he's hired me as his newest apprentice against my own will. The hours suck and there's one rule: I'm not allowed to fall in love myself. Seems like a piece of cake since I'm so good at this matchmaking stuff. Grandfather has told everyone that as soon as he thinks I'm ready, he's going to retire. I have one final challenge before Grandfather would feel comfortable setting me loose. I have to find a soul mate for a fallen angel, the only immortal thing allowed to live on Earth. Easier said than done.

This was one of the featured books and the first one i've read from Wattpad and I love everything about the story! Greek mythology romance in modern times. I instantly fell for the characters.
