Alternate cover edition for 9781496124470

Raised in a privileged home, Hannah felt ready for anything life could dish out. But in just twenty-five days after meeting the Kristensen twins, the collateral damage was almost too much to bear alone...

When the brothers learn about the secret ultimatum given to their father—relinquish control of the Kristensen family business or he would suffer the death of his sons, the twins along with Hannah rally behind the scenes...

In a world where SWAT teams use GodStone rings instead of guns, Hannah and the twins know their enemy is a Master-Class GodStone tactician—one who has somehow broken GodStone power limitations. What they don't know is that he's a blood mage; one of three who wields demonic power tapped from the seven pinnacle-class demons.

Once angel touched, there's no going back to their old lives...

Lauren says

This book is amazing! I loved the way the characters came alive and it seemed like they were real people. I 100% recommend this book to anybody!

Jada Ryker says

Rings of Power

Traven and Vonen Kristensen are twenty-five-year-old identical twins. Handsome and the sons of a powerful family, the young men seem to have it all. But the family business of making GodStone rings is controversial.

"Traven found another newsfeed with people protesting the use of GodStone rings made by his father's business. The onsite reporter said, 'After a third crushing death this month at the hands of SWAT peacekeepers, another GodStone protest turned ugly today when a bottle hit a police officer. Two peacekeepers came forward and pressed more than thirty protesters flat on the ground. Thankfully there were no injuries to report this time.'"

While visiting her aunt, Hannah meets the men. She flirts with them. Hannah thinks Traven is the more attractive of the two. She thinks Vonen is entertaining, crazy, and shallow.

When Hannah ends up with special powers, the action takes a turn. And when an enemy attacks, she'll need all the power she can get to help the twins and their family.

GodStone Powers: Three Against "The One" is an excellent fantasy by Kenneth Laws. The glossary at the end is a great resource for help with unfamiliar terms. The ending leaves the opening for subsequent book(s) as a series.

J Jackson says

Outrageous!

The unease words used by the author is skillfully parked beside each other to stun and spellbind readers, of which I am chief. He then afflicts this book with flawless expressions mingled with witty characters triggering goose bumps to wash my entire body. I'll be honest, I was hooked like a fish without any means of escape!

The twins rock, they were my favorite characters. Their roles commands the climax and excitement!

Heather Osborne says

Reviewed on behalf of Readers' Favorite

Demon Powers and Angel Touched by Kenneth Laws is a new adult fantasy novel centering on a trio of unlikely friends. Hannah Abbot encounters the Kristensen twins, Vonon and Traven, at a party. The three forge a tight friendship. Vonon and Traven are heirs to the GodStone ring fortune, a company established by their father, Sebastian. When the company is threatened, and a man demands Sebastian give up control to him in exchange for the lives of his sons, Hannah, Traven, and Vonon must band together to figure out who is really behind the terrible threats.

The concept of this novel was very interesting. I liked the idea of having rings with power, and the ability to do other, almost magical, actions. When I first began reading, I was a bit confused as to where the story was going. I would have liked more explanation about the world I was being taken into, but that would have been my only complaint. Unfortunately, it took the narrative down a bit for me. I would like to see the author go back and do more to help the reader visualize the GodStone rings, and what different types there are, or if it is just something for the elite classes. I did like the tie in with various religions, as well as parts of mythology. It was neat to see symbolism usage in the creation of the rings. I am curious to see how Mr. Laws develops the story over the course of the series. Demon Powers and Angel Touched by Kenneth Laws is a promising beginning to a very creative fantasy storyline.
