Diamonds and Doom

Marcus Sedgwick

Diamonds and Doom Marcus Sedgwick

All manner of disaster descends on Castle Otherhand; weirdness abounds, the family are on the verge of being thrown out of their own home, and there's still no sign of the fabled treasure of the Otherhand. Worse still, there's no sign of Edgar, either. So will it be diamonds or doom for the Otherhands?

M. Jones says

Back on form for the Otherhands in this, their last Raven Mysteries outing. The gothicly grotesque humour has not wavered throughout this series, and it's top-notch here too. The plot is also back on track, after the slight wobbles of 4 and 5. All's well that ends well, and even sometimes when it doesn't, and so we bid a fond farewell to Edgar and the Otherhand clan; to Flinch, Cook, and the endless supply of hapless servants; to one sticky monkey, and the monstrous Nanny Lumber. Hopefully we shall meet again. Until then, I'm off for a sulk on the pointy bit of the East Tower rotunda. Rark!

Mezino says

Sadly reported to be the last in the series.... I hope not!

Ann says

I read this to my girls (and husband) we all loved it.

Got it from the library, first time I have came across this series and I've accidentally started at the end! Still, everyone is adamant we have to read all the rest now!

Jenni says

Read this in swedish. The title is: Död och Diamanter.

One of the best in this series. Action filled, lots of crazy stuff happening at once, Edgar came back to a mess after his two weeks "vacation", the Otherhand family got a new family member in form of a raven etc.

Overall, it was the funniest book of the bunch and I really hope that this is not the last book about The Otherhand family and their faithful guardian, Edgar.

SM

Robert says

The final book in the Raven Mysteries reaches almost as high as the first book and higher than any of the middle ones, mainly due to the introduction of Rob the Rival Raven and a level of insanity that renders the events of previous books almost normal seeming...

Zayneea says

The final story from the Raven Mysteries, this one was a lot more random than the previous mysteries. Still a lot of fun, and enjoyable. Wish there were more stories after this as it is such a great series, but either way it ended up really nice and thoroughly enjoyed all the adventures of Edgar and all the illustrations which showed them.
