Hang out with the bad girls of Gotham City! Catwoman, Poison Ivy and Harley Quinn are tired of playing by other people's rules--regardless of which side of the law they're on. These tough ladies have a new agenda all their own, and they'll use any means necessary to pursue it. But can they get along and work as a team? And who will get hurt along the way?

Who doesn't love these three kick-ass ladies?

### **Alejandro Teruel says**

It's been decades since I last read a comic book, but I enjoyed the trip down memory lane. There is so much that hasn't changed -the illustration style, the flip dialogues which owe so much to film noir, the twisted, exaggerated perspectives, the clear pitch to teenagers, the unabashed enjoyment in the drawings...

There are some traces of female lib, the ambiance has become darker and the grey areas between good and evil have become more convoluted and ambivalent.

A nice restful break -and a reminder of how addictive this kind of literature can be...

### **Arthur says**

#### **Great**

This is an excellent start to a series the only drawback is if you are not familiar with the characters you may be lost

I like the stories (everybody swirling into their own narratives in the aftermath of Hush) and I forever love these ladies, but the art kept throwing me. It's been a while since I've read any of the Big Two books and I'm so much more used to seeing clothing drawn like, well, clothing. But some of the artists are great and again, I do like playing in the world of Gotham without always dealing with The Bat. I'll probably pick up the next couple of collected because dangit, I have an endless soft spot for Ivy, Selina and Harley.

Ask any comic fan who their favourite villainesses are and chances are that Catwoman, Poison Ivy, or Harley Quinn are among them. The three DC divas are among some of the most beloved femme fatales that the comic industry has to offer, spawning appearances in cartoons, movies, and countless graphic novels. So bringing together all three in their own girl power series seems like a sure thing to attract any fan, and I can't say I was disappointed.

Written by Paul Dini, Gotham City Sirens follows the events of Jeph Loeb's Hush series. Catwoman is left vulnerable after her near death, but is saved by a now homeless Ivy. In exchange for her help, Catwoman allows Ivy to stay at her apartment. They are soon joined by a desperate Harley Quinn, who is looking to escape the abusive clutches of her psychotic boyfriend, the Joker. The three form an unlikely team who must learn to work and live together as they walk the very thin line between villain and hero, sometimes saving Gotham along the way.

The narrative is a perfect mixture of dramatic and comedic, providing an interesting read while the art by Guillem March is bright and bold. Following the modern North American style, the panels appear very clean, even a little too clean at times especially during the fight scenes where they can lack fluidity.

As a comic fan of the feminine gender, I appreciate this foray into an almost exclusively female cast and I'm sure others will as well. I would recommend Gotham City Sirens to anyone looking for a good, solid read, regardless of gender.

*"...she was made to feel abused and completely vulnerable. That leaves scars no magic can erase."*

I've been wanting to read Gotham City Sirens ever since I got wind of it and I'm really grateful that I finally did! What makes this graphic novel so appealing is well of course, the girls themselves. They have a strange yet endearing dynamics with each other and it's really nice to see how they can still be "sisterly" in their own unapologetic evil ways. This first issue started off easily although I find some of the plot devices used to be quite typical already. Also! We get to see Zatanna here and it's a bonus for me since I just read Zatanna last time hohohoh. I'm excited as to where this will be headed!

## **Meera AlSuwaidi says**

What could be better than Catwoman, Poison Ivy, and Harley Quinn teaming up together?!!

One word, BRILLIANT!! #SquadGoals

### **Jennifer Collins says**

As a former gymnast and MMA student I've always loved Cat Woman. "Sometimes I'm good, and sometimes I'm bad ;)" What girl can't relate to that?!

And as a worshiper of Mother Nature and Botany, naturally I loove Poison Ivy! "Mother Nature was screaming for a Savior" Mother Nature IS screaming for a Savior!!!

I think these girls are perfect for each other, and I enjoyed this short story very much and will be reading the others in the series.

My reluctant reader 12 year old, who is starting to get into graphic novels and just had me order the DC origins 5 book series from Scholastic, is who we have to thank for my re-interest in comics.

I know villains are not supposed to work together because they have their own agendas; however, I love these female villains becoming friends. Catwoman is venerable and needs some support with no one to turn to. Ivy saves her. Posien ivy needs a place to stay, so Catwoman provides that. Harley Quinn has left the joker but mentions her abusive relationship with him, seeming she will go back to him with only a call, so she needs a strong females like Catwoman and Posien Ivy to help her with that. I like that the characters need each other, and are not getting together just to do evil antics, though when those begin they probably will be amazing.

Plus Harley is incredibly cute and I just love her.

The art was not as amazing as Hush, but still pretty good. They did a good job at drawing the girls curves, but I thought the shading needed a little work. However, I will continue to read this series, and see how the plots plays out.

**Lexi says**

**Good.**

The artwork is wonderful. The story seems interesting so far and makes me want to read the next issue. Paul Dini never disappoints.
