Suspenseful & kickass excitement

This was a great read, think it might be my new favorite in the series, Sugar and Lexi-two of the Titan teams wives decide to do a stake out observation of a potential recruit for the Titan team. Sugar who is weeks away from giving birth, is antsy and feeling caged in, but they end up walking into a Russian mob takedown. Story has lots of suspense, action, family, badass characters, and brotherhood. So good.

How on earth Cristin Harber can write a novella and pack so much into it so you still feel like you got a full-length intense story, I don't have any idea! :) But she does it successfully. Titan is an amazing series overall and each book just keeps adding to the goodness.

Catch up with where Jared and Sugar are now, along with Lexi and Parker. A little bit of trouble, a little bit of sass, and a lot of love are all wrapped up in this story. I think I fell a little more in love with the characters and am so excited for what's coming next!

Once you're in, you're in. Titan for life.

I really enjoyed this funny and sexy novella from the Titan universe. It's the first book I read in this series and I can't wait to read all the previous instalments. I love Cristin Harber's writing :-)

Sugar is up for one last hurrah before she has the baby. She and Lexi take surveillance duty on the new Titan recruits, specifically Bishop. What should have been a simple tail turns into a Titan sized situation before either woman catches wind of trouble.

It was great to touch base again with Jared and Sugar, and Parker and Lexi. Sugar and Jared's baby story is precious. Sugar has always been such a strong character and I liked that she wasn't a stereotypical "pregnant lady" in so many ways. She is her own person, and that carries into her maternity wear, activities, and ideas about settling down.

This was a short story, but full of action and excitement from start to finish. The established characters show just how tight the Titan family is, and the way they are vetting new recruits only proves just how much the relationships within the company mean to them. I always enjoy returning to the Titan world to see where these men and women are in their lives.

I enjoyed getting to know Bishop just a little bit before his book comes out. The interaction he has with Sugar and Lexi was perfect and had me laughing at the situation. His personality promises to mesh well with the team and I can't wait to see how he adds to it.

I was gifted a copy in exchange for an honest review.

Oh how I've missed these Titan men! This series is one of my favs. There's nothing better.

In Live Wire, Sugar is feeling restless and super pregnant. Wanting to feel as if she's still part of the team (which she always will be) Her and Lexi go on a stake out for new recruits. Not that Jared is super ok with it, but it's not like he can tell that woman want to do.

There's never a dull moment with the Titans. This is an action packed novella. Amazing how much Harber can convey in so many pages.

The Titan family is growing and I can't wait to see what else is in store.

Overall, I loved this novella. Five Boundless Stars...Lissa

The only thing better than an Alpha hero is an Alpha heroine! Sugar Westin is back, extremely pregnant but not letting that get in the way for finding trouble. She wants one more adventure before she settles into motherhood and has brought her best friend, Lexi Blake, along for the ride. They are going to run surveillance on the potential newest recruit for Titan, Bishop O'Kane. What could possibly go wrong with that simple plan? Well, with Sugar you just never know.

Exactly what we have come to expense from Cristin Harber and her Titan series - fast paced, full of action, and twists and turns. It was fun to see the heroine's in the story take the lead and to watch the always in control Jared 'Boss Man' Westin and computer geek extraordinaire Parker Blake have to sit back and take a more supportive role. Turn about is definitely fair play! It was also fun to meet the next set of Titan hero's! I cannot wait to see where we go and what kind of trouble they dig up along the way!

I love everything CH!

This book is a quick short novella that follows the men on Cristin's Titan Team. They are special ops, an under the radar group that does it all. While this could be read as a standalone I wouldn't recommend it do that you get the full effect.

This book is packed with hot sex, alpha men who love hard and just the right amount of suspense to keep things interesting. Add in a horny, dangerous, badass woman and you the perfect short story. Another amazing read by Cristin!!

Great short story

Sugar and Jared are having a baby....what could be better than a novella devoted to that. If you have read the series and know the characters, you will love this book. Sugar pregnant is great. If you haven't read the books you may not get the same enjoyment but it's still a good read. Great afternoon short entertaining read!

So damn good I cannot do it justice! It started with a prologue that broke my heart. It was all TITAN goodness in the middle with Jared, Sugar, Lexi and Parker as main features. Lexi and Sugar were hilarious together. Jared reminded me as to why he is my favorite. #dadwins.

Then the ending totally knocked it out of the park and me on my ass!

Sorry ARC pile, but you got put on hold for my Titan boys.

Loved it. Sassy Sugar is about to pop with Boss Man Jared's baby, but she's going stir crazy and asks to go on a stake-out to vet a possible new Titan boy, Bishop. Sugar drags along Lexi, Parker's wife, and of course, they get in trouble. In comes the rest of the team to save the day.

Can't wait for Bishop's HEA.

This is the first title I have read in this series and I listened to the audio version.

It didn't matter that I hadn't read previous books as it was easy to figure out who everyone was.

So Titan Group is a security firm who are looking at recruiting some new members. Before they do this they like to do a bit of under cover observation of these potential recruits to see if they are suitable to be part of the Titan team. It takes a certain type of person and they have to be the right fit.

Sugar and Lexi are married to Jared and Parker, the guys behind the Titan Group. When the girls get wind of some possible new recruits they ask the guys if they can do the under cover observation of them. The thing is, Sugar is 39 weeks pregnant and shouldn't really be out there doing anything but in the big scheme of things this is a low risk job. Using her seductive wife skills on her husband, Sugar manages to convince him to let her in on this job, as a final hurrah before she is on maternity leave.

This low risk assignment soon turns into a high risk assignment, especially when some Russian baddies get involved and Jared & Parker find themselves on a bit of a rescue mission to make sure their women make it out safely.

Easy listening for me, strong alpha males who love their ladies & kids and kick arse chicks who aren't afraid to take risks.

THIS book is how you write a novella - so damn good it doesn't even feel like a novella. Fantastically written as only the Queen of romantic suspense aka Cristin Harber does. What a treat to catch up with our geeky hottie Parker and hot and bossy Jared.

Can't wait to get my mitts on Bishop :D

Where trouble goes, Sugar follows . . . and this time she's got a side-kick in tow.

There's not much better than two best girlfriends heading out for a good time, right? Well, actually there

is—Sugar and Lexi commandeering a simple op while Jared and Parker sit back and watch it all happen . . . of course, their watching includes high tech gear, locating apps and other fun surveillance tactics.

Sugar and Lexi are an unlikely duo. Sugar, with her gorgeous leather-clad, bad ass, eight-months pregnant self and Lexi, who's lurked in the shadows behind her computer screen, are determined to help observe Bishop O'Kane, one of the candidates narrowed down to join the Titan team. They're supposed to observe from a distance—but since when does Sugar really do something she's supposed to? When they find themselves in the middle of a situation with the Russian mob, Sugar has no choice but to dust off her old ATF tricks and team up with Bishop and enlist help from Parker and Jared to take the bad guys down.

As I've come to expect from Cristin Harber, *Live Wire* was a funny, smart and sinfully sexy novella in one of my favorite series. Between Sugar's smartass commentary, Jared's worry, Lexi's naïveté and Parker's geeky hotness, you know things are potentially going to get worse before they get better. I loved how Jared and Parker supported Sugar and Lexi in what they were doing and didn't stand in their way of "helping" choose a new recruit. The relationships that Jared and Parker have forged with their wives are pretty awe inspiring. The women know they are loved and protected and part of a larger family that will fight to the ends of the earth for them.

The unlikely friendships evident in this book are just one of the many, many reasons I loved *Live Wire*. Sugar and Lexi—they are the new "Thelma and Louise" in my eyes. And Bishop, damn he's going to make one hell of a fine addition to the Titan team. I'm (im)patiently waiting for the release of Bishop's Queen. ~ Missy, 5 stars

WENDY'S REVIEW

Arc copy for an honest review.

I love the Titan series and this is no exception, Jared, Parker, Sugar and Lexi are the focus of this story with a little help from new guy Bishop. Not going to spoil it and drop any hints but its a book you wont want to miss, if you have read the others then you need to add it to the collection. As for the ending of it wow! Definitely worth reading. Its only a short book but there is some action and a bit of mystery as well as a newbie, it has a couple of hot sexual encounters to make you squirm. There is also some suspense as you would expect from our favorite group, now I just want more.
