Master for Tonight

Elaine Barris

Master for Tonight Elaine Barris

While feeding in the slums of the city, he is interrupted by a woman. Mesmerized, he extracts his fangs from his meal and follows her home. Instantly obsessed, he watches her nightly. Nights turn to months. His desire for her becomes overwhelming. Though fearing the wrath of a vicious Maker who turned him against his will, Julian decides to give Kate the most erotic night of her life, and then walk away.

Kate Collins is an average woman in her late-30's, plagued by panic attacks. Sent home by her boss at the shelter, she prepares to have a night of relaxation...until her doorbell rings.

Julian Montfort is the most beautiful and masculine man she has ever seen. He exudes 'maleness' from his entire body—that certain quality some men have in their DNA that makes a woman recognize her femininity...her 'womanness.' That part of her that is soft, malleable, and made to accept him. Drawn to him despite his unconventional arrival, Kate must answer his question: "Can you allow yourself this indulgence? It's just one night."

Deeply sensual and erotic, Master for Tonight is a contemporary vampire romance which goes beyond the burning physical attraction between Julian and Kate, telling a tale of two people drawn together under incomprehensible circumstances, and their fight to be together against all odds.

Anna Salamatin says

The very first chapter had me just as fascinated as Julian was as we watched Kate (quite unknowingly) put on that little show in the parking lot of the Shelter she volunteered. It is the importance to details, here and all through the story that brings the characters true to life. It also made me wonder what Kate would have thought, had she known, something as simple as dropping her keys was about to change her life forever. I felt like this was the defining moment Julian knew he was going to have her, for just one night. (yeah, right?)

I have read hundreds of vampire stories, and what I really liked here was the fact that Julian, although he is in fact knock me down and do me gorgeous, he is by far not perfect. He makes a few bad calculations and he isn't the strongest vamp around, at least not until his friend Reese, who is an older vamp gives him some of his blood, that gives him a fighting chance when he decides to take on Evangeline, his maker. She wants Julian, who never wanted her, and when she learns of Julian being with Kate, well, that's when things get intense....But I have to say, this isn't your usual, beautiful woman meets dangerous, dark vamp and fawns all over him, & they spend eternity together. no no noFirst off, Kate is not teenage model material, she has her flaws just like the rest of us, and she's a little older, and a little heavier than she'd like to be. and her "forever" with Julian is not a given. One lusty, erotic, fantasy filled night in the arms of a stranger, does not forever make....at least it's suppose to only be one night, remember? Hell, she doesn't even know that he's a vampire. A lot is going to happen before that little cat is let out of the bag...which brings me to Kate's BFF Mazzie. She is one tough cookie, and she is fierce with her loyalty to Kate, and I am still waiting to find out what in the 7 hells went on in that bathroom between her & Julian. And way later with Mazzie, laying in a pool of blood when Reese finds her and Julian is going insane looking for Kate who is no where to be found....& Insert cliffhanger here..

I do recommend this to 18+ readers.

I'm so happy I found this author!

After reading I knew I had to read more by this author. I immediately jumped into this series and absolutely fell in love with Julian. Once again Elaine Barris provides more than just a quick and easy PNR read. What I thought was going to be a fast and sexy read turned into an elaborate story with more characters and back story than I was expecting.

This book does end with a cliff hanger so go ahead and have the second book on hand because you're going to want to know how this story ends!

Kathy Horsman says

Kate and Julian's love story in Master for Tonight threw me for a loop quite a few times during their tale. At first I wasn't sure if this was going to be a book I enjoyed, mostly because we found out very little about either character before they had a full on screw-fest and that bothered me a little. Not knowing anything about someone who you jump into bed with that hard, especially when she thought he was an INTRUDER baffled me. However, as the story sorted itself out I grew to really enjoy both of these characters individually

and even more together. I'll be honest I've never had a book that turned me around against my initial reaction to a story like this one did so bear with me.

Kate was a bit of a conundrum in my eyes. on one hand you have a girl with low self-esteem but a great heart. One that leads her to help out whoever she can on a daily basis and work harder than any character that I have read. She doesn't think highly of herself but to be real, who does? She is an approachable character that as a reader I could myself in her shoes. Then Julian enters the picture and does his little mind-meld thing and she is this confident, self-asserting chick that I would have loved her to become....if he didn't manipulate her mind to do make it happen. I wanted him to pull this person out of Kate not just snap his fingers and it be done.

I feel like with everything that happens along the way in this story, this side of Kate would have been revealed and she didn't need Julian to just force her to be a certain way. Do I think he would have drawn it out of her as the story progressed? Absolutely, but the instant and forced personality change wasn't necessary. The reason I say this is because through their struggle to be together I think they both found out a lot more about themselves than I thought they would starting out. They grew as a couple and as a unique person. Although they had to fight to end up together, that struggle really made being with the other worth it in the end. This story is hot and sexy but it'll also warm your heart with the love they find in each other.

Jane West says

A great story from a promising author. Filled with vampires, friendship, great sex, romance and a psychopathic maker. I loved it and am anxiously awaiting her next book.

Tee loves Kyle Jacobson says

Master for Tonight is a great vampire read. I love me some vampire stories anyways but this one took the icing on the cake. Sometimes I get a little nervous when I read vampire romance but this one flowed so smoothly and the characters were very believable so it was easy to start reading and when I got to the end I was like what the frig I need more.

Julian is the vampire in this story and good God almighty he is sex on a stick. Man this vampire makes you quake reading about him and how gorgeous he is and the sex scenes are of the chart so beware because these

scenes will make your mother blush! So Julian is down in the ghetto getting his fix of blood from low life criminals when he hears something and he stops feeding to see the most gorgeous woman he has ever seen in front of him. He wants her she is like a siren calling to him and he is intrigued by her and wants her but he has a jealous maker so he has to be careful so she doesn't get hurt.

As Julian follows the woman he finds out her name is Kate. Julian is determined to find out everything about this woman who has stolen his heart but he knows he can only offer her one night because his maker will kill Kate and possibly kill him to. As Julian starts to get to know Kate he knows he wants her and he can't be without her. As he offers her one night of passion he knows it will not be enough and so night after night they come together and have the greatest sex and the greatest time together Julian has to figure out how to keep Kate safe from his maker.

Can he keep Kate safe or will it all be in vain and his maker kill her.....

Jacquie Hogue says

What an amazing book, it will make you laugh cry and have to change your panties. The characters blend so well together you will find yourself yelling at the book to do this or that. To me that is the one of the best parts of a great read. I hope you all love it as much as I did. HAPPY READING

Erin says

DNF @ 25%

I just wasn't into it. I also skimmed through before I gave up, and there are detailed sex scenes he is forced to do with his maker. I really can't do it after that.

So sad.

Samantha says

What can I say about this book, well for a Debut Novel it's pretty good and I really enjoyed the storyline. It's actually very well written, and if you like a lot of sex in your books then look no further. The sex scenes are very well written very hot and will get your juices flowing. The only thing I did miss at the beginning is the character development between Kate and Julian but you do feel it in the second half of the book.

Julian has a hard decision to make but his love for Kate never wavered and what he has to go through to find his way back to her wasn't very nice he really does have a nasty maker. But we all love a bad guy/women right as they just make the story and Evangeline does just that.

Kate's character does suffer a lot because of Julian but you know he did what he had to do to protect her. You really do feel the love that Kate and Julian have for each other even if there are people out there who don't like it.

Mazzie was my favourite character she is so loyal to Kate and tries to get her to see reason when it comes to Julian and I still would like to know what happened in the bathroom between her and Julian..lol

The ending had me on a OMG you can't end it there and I'm desperate to know what happens next.

This book gets a 4 1/2 stars from me.

Lori says

5 stars for this debut. Elaine Barris has writing chops. Even though vampires aren't really my thing I found myself loving this story. A great sexy, action filled read.

A must for vampire/pnr/erotica fans.

Customer Review

5.0 out of 5 stars Compulsive Reading!!

By sewsummore on 19 February 2018

Format: Kindle Edition

I received a free ARC copy of this book and am voluntarily leaving an honest review. Julian was made a vampire against his will by his psychotic maker Angeline. Many times he had tried to get away but she was much stronger than he and always dragged him back. One night while feeding he saw a woman named Kate, who attracted him like no other and he followed her, always watching over her, knowing she could never be his. Eventually it became too much for him and he decided she would be his for just one night and then he would walk away. It was a night he would never forget and a night and one Kate would never remember as Evangeline found him and forced him to remove her memories or let her die. Time passed and Julian suffered under his makers torture, all to keep Kate safe, but it was not enough and she went after Kate again. This was compulsive reading, excellent dialogue full of deep, dark emotions and fearful story line twists to keep the reader on edge culminating in a cliff hanger at the end.

Tracey says

Julian (the vamp) enters Kate's life unconventionally shall we say, but for some reason he really connects with Kate and her with him, unfortunately his maker is not too pleased, which scuppers his ideas....and leads to danger for him and Kate.

There are five main characters in this book and they are all very entertaining, Reese the cheeky vampire friend and Mazzie the protective best mate. I haven't mentioned yet that our Kate is 38! Yes 38 an older female lead how refreshing.

I loved Julian, not at first as I mentioned their first meeting is unconventional so I was like hmffff.... but then I saw past his initial behaviour.

Evangeline is Julian's maker and she is evil gone mad!

I liked the storyline, there is lots of sex, and of course Julian is a demon in the bedroom, he is dominant in that department but he comes across as warm and caring too. I found the banter between all the characters very entertaining. The story is written so we hear both Kate's and Julian's point of view, which I admit is my favourite set up - I really enjoy hearing the male POV.

Good story, great characters and the book flows well until.....Word of warning cliffy....book 2 not due till summer 2014

Regardless of the wait, I would recommend this book to my PNR and erotic book friends.

Would I let Julian in? Hell yes :)

4.5 vampy stars

Amy says

Oh my!!!! This book was unbelievably HOT!!! I so love Julian. His love for the ones he loves is remarkable and so loving. Julian would do anything to keep his love Kate safe!!!!

Please please read this!!! I just bought part 2 since I can't wait to know what happens!!!! Great cliffhanger. I am just glad that Master for Tonight II is out already!

Sally says

Masters for Tonight by Elaine Barris is an introduction into the dangerous and often erotic lives of vampires and their unexpected human counterparts. The erotic scenes were brilliantly written making readers feel deliciously voyeuristic without having to leave the comfort of their homes. The opening framework sets the stage for the dark undertones that make us all fear being alone at night. Readers can discern Kate's qualities and imperfections as they resonate within many of us, and bring together commonalities we all possess, even from different walks of life. Evangeline's deranged behavior guides many readers to loathe her, but it also leads us to empathize with her and her desire to simply be loved. Reese and Julian exude sexuality from every pore of their bodies and bring to us an awareness not only of their previous lives, but the raw and lascivious dispositions that many of us tend to suppress not only to others, but to ourselves as well. For lovers of the paranormal and enthusiasts of erotica, I highly recommend Master for Tonight by Elaine Barris as she handles both genres exquisitely.

Rabid Readers Reviews says

“Master for Tonight” is a very well written novel technically speaking. If there were any errors, I didn’t see them. The narrative flowed well and the story moved at a fairly brisk pace. For a first novel, Barris gives us a work written with an expert hand that an author writing for years would hesitate to rival.

Barris does offer some twists out of the ordinary. Readers looking for action or heat will be satisfied. Julian

and Kate are not assured a happy ending. There is a seriously powerful and somewhat crazy maker between them and she's not even going to begin to buy Julian's flip explanation of a fly by night fling. Barris convincingly writes the character as off-balance and one that could simply do anything. The suspense at points is delicious. The erotica was not so much for me. Kate has fantasies of being dominated and controlled with which I cannot identify but given the popularity of certain former fan-fiction blockbusters seems like an idea that is quite popular. If that sort of domination floats your boat, you cannot go wrong with "Master for Tonight."
