Nina Amelia says

good manga

Christiane says

Four more Twilight-zonish episodes from the mysterious Count D's pet shop. I love the artwork and I love the unexpectedly creepy/sad endings.

Pet Shop of Horrors is a manga by Matsuri Akino and the sequel to Pet Shop of Horrors. Welcome to Tokyo's Neo-Chinatown, a large building complex with chinese shops of all kinds. One of those shops is Count D's pet shop. Here one can find the most common cat or dog, alongside exotic animals that barely scrape past the Washington treaty. These pets can grant a person's deepest wish, but all wishes come with a price. Are the results good or bad? None can tell. Believe what you wish, because the truth is the truth. And just what about Count D himself? Just what could he be thinking?

This series is very much like its predecessor, Pet Shop of Horrors. Still the episodic nature of the chapters keeps you reading, waiting to see what kind of customer will come through the door. Of course, even in a new country, Count D's pet shop still recives acusations like human trafficking or selling illegal drugs. Still, let's see what how 'animalistic' these animals -and humans- truly are.
