## **Shadows of the Midnight Sun** Graham Brown

...to enter the light, one must first confront their own darkness...

In the dark corners of the world, a battle rages for the souls of the damned. They're known as The Fallen, souls afflicted with a curse that leaves them empty, violent, but immortal. The church calls them demons, vampires or the Nosferatu. For centuries a holy order known as The Righteous Fire has sought to destroy them, all the while hiding a secret that connects them, the church, to the beginning of the Nosferatu scourge. But as the events of an ancient prophecy begin to unfold, time may be running out for both groups, as the path ahead may bring forgiveness or destruction to one and all.

While investigating a string of disappearances connected to her husband's murder, FBI agent Kate Pfeiffer is drawn into this world. She begins to uncover the truth and is faced with a reality she won't believe. Soon she's caught in a clash two thousand years in the making. On one side, the Righteous Fire, on the other, those who dominate the world of the Fallen. Her only hope to survive may rest with Christian Hanover, a jaded warrior and lost soul, who's been searching for the truth about himself and his destiny for more than a thousand years. From an ancient Roman battlefield to the streets of New York. From Cologne Germany, to New Orleans and the swamps of Louisiana, time is running out as the fight against evil rages in the Shadows.

Shadows of the Midnight Sun is a supernatural thriller and the first book of the Shadows trilogy.

# **From Reader Review Shadows of the Midnight Sun for online ebook**

**Angie Garcia says**

**Vampires**

Not really vampires in this book. Just as evil though. Didn't want the story to end and was very surprised Christian did not end up dead. It took a strange twist at the end with the FBI and that disappointed me as a reader. Well written and while there are a few typos, that don't affect the story. I'm looking forward to book two.

---

**Kathy Floyd says**

**AWESOME**

I thoroughly enjoyed this book and can't wait to read the next one. Mr Brown is now one of my favourite authors.

---

**Sean McCoy says**

**Wow!**

A refreshing an unique story in a tired genre. The writing is tight and engaging and the story is skillfully told!

---

**D.J. Weaver says**

The Fallen; souls cursed to a life of vampirism, have been around for millennia, hiding in the shadows, and killing at will. A Holy order, The Righteous Fire, has been around, too, seeking to destroy the Fallen ones, but what is their secret connection to the Nosferatu? And how are both groups connected to an ancient prophecy of doom? Christian, a one-thousand-year-old soul turned by Drakos himself, is looking for the truth about his own existence and that of others like him.

Then FBI agent, Kate Pfeiffer, searching for clues to her husband's murder and the disappearance of several others, runs across a truth she cannot believe. She is drawn into Christian's horrific world, but will she survive?

Graham Brown and Spencer Andrews have created a new kind of scary with "Shadows of the Midnight Sun," and it is more frightening with each turn of the page. This story takes the reader on a fearfully fascinating search for knowledge and redemption by one who is doomed to an eternity of soulless damnation. Through the streets of New York City, Cologne, Germany, and New Orleans, the authors have created a new kind of terror and set the story around him and his battle for forgiveness.

The writing is flawless and surges along, effectively putting the reader on the raw edge of chaos as the characters fight to save themselves from an ancient evil that threatens them all. The story is a fresh take on an old theme and is bound to be a crowd-pleaser, with all the dark, ominous horror that one would expect from this very awesome writing team. Brown and Andrews have penned the beginning salvo of a series that will take your breath away and have you stalking the local book store for the next installment.

Put this tale at the top of your reading list and get ready to be very afraid...

DJ Weaver

### **Angela says**

It took me awhile to read this book, there were a lot of characters to keep track of and the history of the story didn't always flow. but, that said, the second half of the book totally engaged me. I found it a classic story of good against evil, which I always enjoy. I will read the next installment because I really liked the characters of Christian, the good, misunderstood vampire who is trying to redeem his kind. And Kate, the tough, never give up FBI agent, who, well I don't want to spoil it, but I want to find out what the rest of her story holds.

---

### **Amelia Gonzalo says**

Shadows of the Midnight Sun, Book 1 of Shadows Trilogy.

Graham did it again! A brilliant/great novel on supernatural and mystery. A gripping and never ending suspense. This novel has more depth than "Twilight".

A fight between Good and Evil! Strong characters starting with Drake and Christian from 396 AD to the present day. Christian's life is hollow, meaningless and empty but follows the forces of good; looking for the cure to the curse, waiting for salvation/redemption and the prophecy while Drakes' is the opposite whose intention is destroy the church and power over everything.

The structure of the novel is straightforward. Graham Brown manipulated the plot expertly and deftly.

This book keep me up past my bedtime, 1:50 am. Cannot put it down.

Am excited for the next two books. Shadows of the Dark Star, Book 2  
Shadows in the Blinding Light, Book 3

The author promised a "pretty cool and harrowing transformation". Hey, Graham, am expecting a romance between Christian and Kate!

**gina royeca says**

**Couldn't put the book down. Exciting, well written. I love the storyline. Going for the next book**

I love the storyline, the characters felt so alive in my opinion. It was a book I could not put down. And yes, I will recommend this book.

---

**Dan Barbier says**

Shadows is a novel reminiscent of the Of Saints and Shadows series by Christopher Golden and The Strain Trilogy by Guillermo Del Toro and Chuck Hogan. It compares favorably to those two series, The end foretells a good follow-up. Interesting and well told, this a trilogy that will be worth following.

---

**Dean Kutzler says**

Although this edit was rife with errors that needed a firm edit, the story was engaging. A little hairy-carey with too many characters to follow, but still a solid story. My only disappointment is that it lacked an ah-ha ending. I do look forward to the next installment.

---

**Steve says**

This book breaths new life into modern vampire fiction. It puts a new spin on many of the classic vampire elements and creates a rich history that leads to modern day confrontation with worldwide consequences. Perhaps most exciting of all, it turns out that this is the first book in a three part series that, by the conclusion of Shadows Of The Midnight Sun, the series is virtually guaranteed to be a crowd-pleasing success. The characters introduced in this book are so rich and engaging that the reader can't help but want to spend more time in their world. Bring on the second book! I can't wait!

---

**Xander Weaver says**

This is a return to what fans of classic vampire fiction want. Take everything that was thrilling and pure about old school vampires and update them for the modern day by adding and revising elements with interesting and creative twists. Shadows Of The Midnight Sun is vampire thriller fiction done right!

---

**Carol Bosselman says**

Good story, more like 3.5 stars, but needs some editing for some serious spelling/typo problems.

---

**Nancy Newhall says**

**Vampire book, hmmm**

I have to say vampire books are not really my type of book but this was quite a good story, very riveting.....

---

**Duane Petit says**

**Excellent**

I loved this book to death. One of my all time favorites. When I purchased the book I was quite certain I was going to like it and I was correct. Couldn't put it down! The mixture of religion and the supernatural made it a very unique book. There was a lot of action and a very interesting concept of vampires being the fallen one's. Even though the original one Drocus tried to repent and was not allowed to do so by the church. The story is a fresh take on an old theme and is hard to place into one genre. Overall it was an amazing read and I would highly recommend it. Five stars all the way!

**irvin r russell says**

**A great read**

They keep on the edge as you read and wondering what was going to happen next, they have a way of not letting you done.
