So Right with You

Book 1 of The Girlfriend Series – Chloe's Book

In the work place, we all know there are boundaries. One of those boundaries is Never Date Your Boss, especially if he is a playboy and you just had your heart broken. When Chloe Lambert finds herself down on her luck, none other than her hunky CEO boss, Garrett Nolan, steps in to rescue her, offering her temporary shelter at his ranch. Now, her boss is looking more appealing, and her friends can't agree on whether she should sleep with him or not. Don't even mention the fact she just learned he has a soft spot for kids and is using the ranch to help sick kids. What is a girl to do when it feels so right?

My Review

This book quickly pulled me in from the prologue. I couldn't put it down. I know Mrs. Kaye was probably ready for my review but I simply told her I needed to drag it out a bit longer, that was how good it was. Have you ever read one of those books that just didn't want to end so you try and try and try your best to read slowly and stretch it out? Well that is what I did with this one.

This book starts out with Chloe finding out some devastating news about her fiancé which ends with them calling off the wedding. Now what is she suppose to do? She has no place to go. Her boss quickly finds out about what happened and has offered up his home to her. You learn they have known each other for a while and are actually really good friends. What they don't expect to happen is all the Hot Pent-Up Sexual tension between them. She finds herself feeling much better having Garrett around. She quickly makes herself at home and Garrett rather enjoys having her around. He's known for not doing relationships at all. This is such a wonderful romance. You really feel what both characters are feeling. I felt like I was right there with them. And let me tell you there are some very Steamy scenes that kept me very happy. They really tried to fight the sexual tension they had for each other. But once they stopped fighting it, they realized just how right it really felt. I loved being able to watch both Garrett and Chloe really grow together. The emotions and the ups and downs had me reeling, but in a good way. I laughed and I actually cried a bit at some parts but they were tears of joy. The twists and turns in this book and actually love and feeling the characters themselves will leave you wanting so much more.

Maggie Kaye has really made the characters come to life. I loved both P.O.V's and being able to really relate to certain situations in this book made me love it even more. Maggie Kaye did an amazing job with this book and while it has the HEA ending that everyone wants in a romance, I still can't wait for the next book in the series. Good Job Mrs. Kaye on a very wonderfully written novel.

I give this book 5 Stars because it had everything I was looking for. Fantastic writing, steamy and passionate scenes and actually pulled me in.

I was given an ARC of this book in return for my honest review. The opinions expressed here are completely my own.

Beatriz Perez says

Amazing book!!

So Right With You is the first book of the Girlfriend series by Maggie Kaye and it was soooo good! I've had it on my TBR list and Kindle for a while now, all I can say is, why did I wait so long to read it???? What a fantastic read.

Once I opened the first page I was immediately drawn into the story and couldn't put my kindle down till I was done. The book is well written, great story line, the characters are fantastic; well developed, easy to relate to, and so funny!! The book starts with Chloe, who is not having a very good day after she finds her fiancé, Trevor, who she was suppose to be marrying in two weeks cheating with one of her "best friends" on

the dining room table in her own house. Garrett, Chloe's boss, accidentally listens to a conversation she is having with Trevor and finds out what happened to Chloe and immediately wants to help her and cheer her up. He offers to let her stay with him while she saves some money and gets settled in her new life. These two are great together, I love their talks, their chemistry and how easy they fall into a routine once she is settled at his place. One thing leads to another, lines are crossed, feelings intensified and we get a pretty awesome ride on the "Chloe and Garrett express" also known as their relationship, lol.

One of the things I loved the most about this book was the supporting characters. Garret's family is awesome and Suzzane, his mother, is hilarious. Chloe's best friends are something else, they are so different but they all are the ying to the others yang, and they are so funny!! Their brunches on Sundays are a comedy show and their antics are such a great addition to the story. I loved Kali!! What a strong, beautiful girl. I was sobbing with the things she had to go through do to her illness but at the same time I was amazed with how strong she was.

I loved that the book not only focused on the romantic relationship between Chloe and Garrett, but also in family relationships, friendship, loyalty and helping others. And yes there are some very steamy scenes, that Garrett, holy hell!! I want one of him!! LOL. I can't wait for the next book on this series!! And I can't recommend it enough. Go one click it!! <3

Danielle says

I was gifted a copy for an honest review.

4.5 Stars! What a cute, sweet story!

Chloe is going to surprise her fiancé by leaving work early. When she arrives home, the surprise is on her when she finds her fiancé having sex with one of her friends on the dining room table. Now Chloe finds herself without a place to stay and little money. She has 3 wonderful best friends but doesn't want to burden them by staying with them.

Chloe's handsome, playboy boss, Garrett, finds out about Chloe's predicament and offers her a place to stay. Chloe and Garrett work well together and have been friends for 3 years so Chloe takes him up on the offer.

While living together, Chloe discovers there is more to Garrett than she realized. He has a Foundation for children with disabilities and/or terminal illnesses and is such a thoughtful, giving person. And now, Garrett is allowing himself to see Chloe in a new light since she is no longer attached.

The more time Chloe and Garrett spend together, the more they realize they are falling in love with each other. However, both are too afraid to tell the other one. But they don't let that stop them from coming together for some hot, mind-blowing sex!

Will Chloe be able to open up to another man after the hurt she suffered with her failed engagement? Will Garrett be able to convince Chloe he is done with his playboy way?

I really enjoyed this book!! It made me laugh but was also a sweet, heartwarming story as well. The

secondary characters in this book were great as well, including the best friends, who I believe will have their own books. I can't wait to read more from this author! I would definitely recommend this book to others!

Red Cheeks Reads says

I'll start by saying that I loved this book, loved it, loved it. When you go into the book, you think it's going to be a typical love story between boss and employee. BUT NO....this is soooooo much more. The book follows Chloe, who is trying to move forward from having her heart broken, and Garrett her charming and caring boss.

The book starts with Garrett overhearing a private conversation between Chloe and her fiancé Trevor, who is a complete "Dimwit", this is the call where Chloe ends up homeless, broke and heartbroken. Not sure how to help Chloe but feeling that he needs to help her, he somehow ends up inviting her to stay with him at his ranch while she gets herself back on her feet.

Chloe and Garrett seem to settle quite quickly into a roommate/friendly routine, the tension between them doesn't take long to appear. And when things do finally happen between them, things get hot. Garrett and Chloe can't seem to keep their hands off each other, leading to some funny and awkward situations. Both of these seem to have doubts with each other and what they want from this whole situation.

I loved the story of Garrett and Chloe, but the secondary characters played quite a major part in this book. We get to meet Chloe's crazy and completely different best friends, Garrett's over whelming mother, flirty brother and typical teenager sister. But my favourites would have to be Kali and Josh. Kali has such an amazing back story and yet she seems to have such an appreciation for everything around her. I love her and Josh together, they are the typical young love couple. Kali and Chloe's bond and relationship within this book was so heart-warming to read about, and the effort that Chloe goes to help Kali is awe inspiring.

Garrett and Chloe's relationship moves quickly considering the reason for them being together, but they work. They just fit and it seems like the leap from friends to more was almost effortless, minus a few little insecurities and miss-communication. I am so pleased that things worked out like they did for these two. Well done Maggie Kaye on such a heart-warming and fantastic read. Look forward to the next books to come.

Shirley Granados says

I really loved this book! Such a quick and easy read, plus I loved Garrett!!!! Review coming soon!

Daisy Sloan says

Everyone knows I like some angst in my romances. There's something about having to fight to be with the ones you love. But every once in a while it's nice to get a story where there is no angst. There's a little misunderstanding, a little romance, and everything working out. But it's a sweet story. It's a story of finding the one you were meant to be with and having it all come together like the perfect outfit.

So Right With You by Maggie Kaye is that book. There's a little misunderstanding, a little romance and it all comes together like the perfect outfit. It's a wonderful story of romance, love and happily ever after.

Chloe works for a rich Playboy extraordinaire. He never dates the same woman for long and he enjoys his privacy. When Chloe finds herself in a difficult situation, her boss Garrett Nolan steps in to help her out. While staying with Garrett she learns a whole new side to him. One she never imagined and she falls ass over teakettle in love with him.

But does he love her? She's convinced he's not the permanent type. She's convinced she'll have to leave him. Garrett sets out to prove his love for her.

This was a sweet story. Romantic, sweet, loving. I loved it. Chloe and Garrett came together like the perfect outfit. It all fit and they look great together. Garrett is pretty much the perfect man. Chloe was his perfect foil. She stepped in and did what needed to be done. Watching them interact and fall in love was like being curled up on the couch with a cup of hot cocoa, a fire in the fireplace and the one you love snuggled in with you. In other words, perfect.

Gift copy received from author in exchange for an honest review.

Kara Martin says

~Reviewed on Behalf of Give Me Books~

This book really surprised me because it had me laughing and swooning at the same time and you can never go wrong when you have those in a story. (4 stars)

There are many types of forbidden love and a boss/employee is one of them, unless of course you view it differently. Since Garrett was betrayed a while back he decided that he was not the relationship kind anymore, that is until Chloe. Overhearing a conversation between Chloe & her fiance Garrett has to make a choice, will he help her or let her figure it out herself? Oh poor Chloe she just found some devastating news so close to her wedding and my heart went out to her. She's embarrassed and just doesn't know what to do so when Garrett offers her a solution she is reluctant to accept his help because after all he is her boss. She eventually gives in and the fun starts from there. I loved Chloe's friends Ree, Harper & Leighton- they were funny and always had her back, we all need friends like that. We get to see a side of Garrett that many are not aware of and it's a beautiful sight. Garrett and Chloe get to know each other and one thing leads to another as well as what will they do about this new "friendship" and can they even make it work. Garrett was also able have closure from the betrayal and move on. There is a bit of drama and a misunderstanding that causes chaos between Garrett and Chloe, but let me tell you that once Garrett see's where he went wrong he redeems himself big time. This really is a beautiful story of taking a hold of second chances love offers you. This is a standalone and part of a series.

Anja ~ Once Upon a Page ?? Books and Tequila says

4.5 Stars

'So Right With You' is Maggie Kaye's first book in her 'The Girlfriend Series' and it definitely exceeded my every expectation. It was fun and sweet and managed to grab me by my emotions from page one. The characters were strong and had a depth to them that made reading about them even more enjoyable.

Chloe Lambert's fiancé cheated on her with a friend of hers three weeks before the wedding. After hearing about this, her boss, Garrett Nolan offers to help her by letting her live with him at his ranch house outside the city. All of this might seem as a total cliché, but it isn't. Chloe is a strong and independent woman and we never had to endure her over the top melodramatics because she was cheated on by what she thought was the love of her life. Of course she was hurt, but she picked herself up and continued with her life. She was funny, sweet and generous and had a depth to her as a character that made reading about her very entertaining.

Garrett, on the other hand, at first seems to be rather shallow and the all known rich man whore who flaunts his conquests rather publicly. Yet, as we get to know him, this image of him changes rather drastically. We learn that he, too, suffered from a betrayal that left him broken and with demons. He is also very sweet, considerate and a philanthropist, who does a lot for the community without public knowledge.

Overall, I enjoyed this story immensely. It was just the right combination of sweet, funny and frustrating to keep me captivated and entertained from page one. This story might seem like so many others on at first glance, but it is definitely not! Not only is the writing great and the flow excellent, but the secondary characters were just as entertaining and fascinating and complemented the story perfectly. I can't wait to read more of this series. I'm definitely hooked.

Abby P.Cook says

So Right With You
by Maggie Kaye

So, When I started this book I was kind of in the mind set that this was probably going to be like the many others I have read. I mean, sweet girl thinking she will marry the man of her dreams only to walk in on him having sex with her best friend. Then we have the sexy boss who is just soooo dreamy. Cliche' Right? Right???

WRONG!!!!!! WRONG!!!!!!

Oh My Damn! This book was such a breath of fresh air!! I have read over 1000's of books. (I am a blogger after all hehehe) and let me tell you it has been (unfortunately) a while since a book has truly grabbed me. I mean GRABBED me.

This book made me mad, happy, cry, laugh, sweat, Hot, cold, crazy and every other emotion I can think of. I

was really able to look deep in this book and connect. It felt real. I mean, how many times do you read a fiction romance and truly feel that the story was a real story? This story really pulled me in. Oh, and the wig scene? Really?? I totally cried!!!

This really was a fun sweet read. I enjoyed it so much and truly can't wait to read more by this author. The writing was on point, characters so easy to connect with and the flow was flawless. You just can't get better than that really.

Oh, and boy did this book have heat too. Mmmmmmm Garrett. That man just totally took my breath. He not only was sexy and hot but he was soooo sweet and caring. I fell in love with him right from the start. No joke!!

Chloe, Oh my, I so felt for her at the beginning and then as the story went on and we get to really meet her? Wow was she just the sweetest!! I can see myself having her as a best friend. I really loved her. I don't normally get a huge pull to the main female characters in books. It's always the hot man that grabs me. I mean don't get me wrong I do connect with them but I also have a tendency to feel like I am them and it's me in the story hehehe However, in this book I really really connected with her and felt like I knew her and wanted to be her friend. I loved watching her develop through the story and she did it with grace.

I am not going to go too much into this story by giving away what happens. I really think this is a book that should be read to find out for yourself. When I put the book down after the last page I had that feeling of awe. Just speechless awe. As I looked back at what I read and remembered scenes from the book, I couldn't help but feel like... well, it just really stuck with me. I have a feeling this will be a story that will stick with me for a long time to come.

I really don't know how else I can explain how much I loved this story. I don't know why, but this one has me speechless. There is something for everyone in this book. Oh and let's not forget the secondary characters!! Oh the friends!! And the Kids!! and well... you just really need to read this book!!!

As I'm sure you can guess I am giving this book 5 stars lol Yes 5!! Please read this book and Thank you Maggie for such an amazing story. I truly can't wait to read more from you!!

Helen Granados says

I just love Garrett too much, he's perfect. This book is amazingly well written.

Brittani Perez says

So Right With You (The Girlfriends Series)

Reviewed by Brittani for the Sinful thoughts book blog

I loved this little story I thought it was a cute, quick and excellent read. This story involves Chloe Lambert and her boss and friend Garrett Nolan, Chloe's going through a bit of a rough patch with her life she finds out her fiancé has been cheating on her with one of her best friends, from there her life is turned up side

down, she has no place to stay and barely any money after planning and paying for her wedding, Garrett picks up his phone and hears Chloe telling her Ex that they are over with and feels bad for her and offers up his private ranch and home to her till she gets on her feet.

I liked that I felt the chemistry between the characters, I loved that Chloe was an independent woman who wasn't willing to take any free rides from Garrett and I love that there was a deeper meaning in this book not only about love, but about friendship and acceptance. Accepting that everything isn't black and white and that it's ok to be yourself and to let people in, But also to try new things.

I thought the book was a cute book, worth reading at the beach, pool or just your days off, it was a quick read because you get so engrossed in it and the characters Maggie Kaye portrays are just great, I Love Chloe's friends and how they stuck with her and up for her, I Loved Garrett and his loving family and I loved Kali, who for her age just wanted to be a normal teenager. I loved the start to this series and I can't wait to read the rest of the books.

Carla says

I received a copy of this book in exchange for an honest review.

I loved this story! It is very sweet and heartwarming. Garrett and Chloe were perfect for one another.

When this story begins, Poor Chloe's life has gone to hell. She walked in on her fiancé having sex with one of her best friends. If that wasn't enough, her now ex kicks her out of her condo leaving her homeless. Her boss and friend, Garrett, offers her a place to stay, and she reluctantly agrees, and their relationship grows from there.

Although their relationship progresses pretty quickly, it still feels natural for them to be together. As their feelings grow, they each have doubts about how the other truly feels. They are each so afraid of getting hurt that they refuse to acknowledge their feelings at all. A huge misunderstanding occurs, and Garrett and Chloe each have to confess their feelings or move on.

What a great debut novel! This is the first book in this series, and I very much look forward to reading the next book in this series. Kudos to Maggie Kaye for creating such a great story!

Tina "IRead2Escape" says

4.5 Stars

Hotness Rating 3 out of 5

So Right With You is the first book of the Girlfriend series by Maggie Kaye and it was soooo good! I loved this book! It was fun, playful, uplifting, sexy. This book had it all!

Chloe Lambert is not having a good day. Two weeks out from her wedding she walks in on her fiancé' and

best-friend going at it on her kitchen table. How much more cliché can you get? Needless to say, the wedding is off and she does not want the table back. Sadly, that isn't even her biggest problem. Most of her money was invested in the wedding. She's broke and the only place she can afford right now is a rundown, questionable at best, hotel. Her boss has offered to let her stay at his place. It's big and he lives alone, she knows that could lead to nothing, but trouble, however she has no better options. After all, her and Garrett are friends. Not best friends, but she has a great working relationship with him and would definitely consider him a friend. She knows to never act on the attraction she feels for him since she treasures her job so much. She'll just go in with her eyes open and everything will be fine, right?

Garrett Nolan accidentally hears his assistant on the phone with her cheating, scumbag fiancé. Being the good man that he is he can't stand the thought of her staying somewhere potentially dangerous and he knows what it's like to go through such an ordeal. Having Chloe stay with him won't be so bad. He likes her, they get along well, and he knows to never mix business and pleasure. The more Chloe is in his life the more he likes her and the harder it is to resist the attraction he feels for her and that's when the real fun begins.

This book is just fun, sweet, and lighthearted. Even with the storyline of the cheating ex and the backstabbing best-friend it's fun and enjoyable. Yes, it's sad and I feel for her, but you never get bogged down too much with drama. I really, really liked that Garrett headed up a ranch to help sick kids. How Ms. Kaye dealt with this topic in the book was perfect. There were the feel-good tears and the sighing of your heart for this poor teen and all she had to deal with, but I was never left drained of all emotion. I truly loved this book and am looking forward to the next one!

This book was provided to me in exchange for my honest review.

Virginia says

If you are looking for a fun, hot, steamy read with little angst, then *So Right With You* is a great choice.

Chloe walks in on her fiancé cheating with her best friend. In their condo. I know- real nice. Left with nowhere to go, her boss Garrett offers that she stay with him at his ranch. They have worked together for 3 years and although it is not the ideal solution, Chloe agrees planning to keep things professional.

Things start out that way but they develop feelings for each other and you can see where this goes. I have to say that I don't blame Chloe for falling for Garrett. The man is a doll. Not only is he sexy and hot as hell but he is a total gentleman and he is so protective and caring. He takes care of her in every way, in and out of the bedroom, which is freaking hot. And it is exactly what Chloe needs after what her asshole fiancé did to her.

And speaking of Garrett taking care of Chloe, let's talk about the sex in this book. There is plenty of it and it is hot. Maggie definitely did a great job writing the scenes.

There's more to the story than just their romance. It does get emotional but not too much; I promise you will enjoy it. In addition to the great main characters in this book, there is an amazing cast of supporting ones as well. There's a ton of family and friends that play a part in this story and they all are written well. In fact, the

next book in the series is written about one of them, Leighton, and I can't wait to read her story!

1-Click Addict Support Group says

You know, I really enjoy reading about finding something special right in front of you. Maybe it's forbidden - as in this case, with Chloe and Garrett - or maybe it's not, but either way, it's the stuff of fantasy. Finding the one for you, right there where they've always been. Finally seeing someone and taking them. Oh god yes, *taking* them...

Chloe Lambert is homeless. When her life comes crashing down around her, and she's left to pick up the pieces alone, she finds herself accepting help from her very hot, very off-limits boss, Garrett Nolan.

Garrett really wants to help his beautiful assistant find her feet again and even though he didn't plan to take advantage of the situation, it's kind of hard to keep his hands to himself when Chloe temporarily moves into his ranch.

They both know it's not right but the problem is, it is *right*. It's so right. So, now what are they going to do?

What a great story! I loved this book - from Chloe's crazy friends to Garrett's kid-friendly ranch - and I found myself desperately wanting the couple to get themselves together and get it right.

While there was nothing particularly new about the boss/assistant love story, Maggie Kaye made it unique by giving us a gentle but bossy, kind but hot CEO in the form of Garrett. I loved his protectiveness of Chloe and his schemes to get her to accept his help and his gifts. I chuckled about their adventurous love-making and its itchy side effects. I sighed when his mother swooped in and tried to match-make. And I most definitely welled up a little when Chloe (and Garrett) gave a special young lady a memorable night.

Like a good, fantasy love story, I found something special in this book that was right there in front of me - and all I had to do was open it.

So Right With You is the first book in the *Girlfriend* series and can be read standalone. No cliffhanger. ~ Beth, 4.5 stars.

~~~

I loved this book! Even though it was the whole CEO/assistant dynamic, it wasn't just like every other book that is based on that same thing. It was quite different than the others.

The book starts out with Chloe dumping her fiancé. Because of this she has no where to stay. Her boss, Garrett Nolan, hears her talking to her ex-fiancé and offers for her to stay with him on his ranch.

The thing that really makes this book different from the others is that before she got rid of her ex they both had no other feelings for each other besides friends. She had worked for him for three years, and during that time they became friends and nothing more. I can't say that it stays that way though.

One thing that frustrated me about this book was that both of them kept quiet about their feelings because

they were afraid. I just wanted them to open up to each other and get on with it! It took awhile for it to happen, but it was worth it in the end.

I loved all of Chloe's friends (except Ashley, of course) and can't wait to read their books! This book is a little emotional and it made me cry, but it also made me laugh. This is the first book I have read by Maggie Kaye and it won't be the last! ~ Leah, 5 Stars
