Starry Knight T.A. Webb

What happens when two broken men collide?

Marcus Prater has spent the last two years of his life existing, ignoring his friends and family because remembering hurts too much. Benjamin Danvers, running from ghosts of his own, has separated himself emotionally from the world. Neither man needs anyone.

When these two men collide again, one life hangs in the balance. Will it break them, or provide more healing than either man thought possible? Friends come together, brotherhood is confirmed, but will it be enough?

Caution: Yeah, this is the third in the three story cycle so no more nasty cliffhangers. Hot men may have sex, old friends may bond again, and a few tears may be shed. I promise, it was worth the wait. Oh, and look for Marcus and Benjamin again in August.

This one was too sappy for me. Not from Ben and Marcus's part, they were very sweet and huggable.

But for the Marcus and "brothers'" part... too much sugar.

Because 4 episodes with kisses on the hands and brotherly hugs in less than 50 pages are a way TOO much.

That's why I'm a little disappointed in this one. Let's see the fourth part of the series!

My reviews of the City Knight series:

Working It
Knightmare
Starry Knight
Knights Out
Darkest Knight

City Knight Compilation

T.A. Webb says

Okay, looks like I managed to get it done a little early, so it released today instead on Amazon and ARe.

This is the third in the three book cycle. I decided the remaining books this year will also feature Marcus and Benjamin, and will be more standalone. But...one never knows.

August 15th Knights Out
October 15th Knight of a Lifetime
Tentative December 15th Christmas Knight

Tom

Thanks to all the wonderful fans who love Marcus and his Benjamin and who have put up with their antics for five stories.

I have some news, which I hope you will like!

All four authors-Lee Brazil, Havan Fellows, Laura Harner and myself-are co-writing the last book in the series, tentatively titled "Odd Man Out", and it will be out before the end of the year. It will tie all the loose ends up, and the mystery that's been building will be explained and resolved.

And...in 2014, we will reboot the series in Flagstaff, Arizona, with new characters.

Again, thank you to all the fans of the series, especially the "City Knight" fans! I love you all.

WOW...beautiful!

An amazing way to finish off this series. Everything connected perfectly in this book, to make it...perfect.

This was full of love between the couple and even from close friends. I really enjoyed reading about all the support given from all the characters in this book.

"His the one...he makes my heart beat again"

I didn't expect some of the surprises I got while reading this book and I loved them.

I hope to read more from this author in the future.

This series is HIGHLY recommended people...so go read it :)

I am at a loss - I don't know why, but I didn't like this much. I found it very sappy and I missed a real story here. It was a "I love you, man" all around and not much else. In retrospective I would have liked it better to have the three parts in one novel, would have also helped with keeping track of all the people in Marcus' hospital room. Also I found the "boy" over-used here.

This part was simply an over-drawn HEA and it was boring to me. The only reason I finished it was, because it was really short.

The writing overall was ok.

Right at the beginnings this fantastic series Tom Webb said " ***Caution: This is the first in a three part series, and you WILL want to come back for part 2.*** "

Well Like many others I read book one, got blown away, fell in love with two gorgeous damaged men, waited with bated breath and did exactly what he predicted. I came back for part 2, read that, went through all of the same emotions again.... until today when I came back again for part 3 which fulfilled and exceeded all my expectations. But I knew it would, because I've never been disappointed yet!

So I'll be waiting (not so patiently) for the next three books that I was thrilled to find out are planned for future release. Now that did make my day!

It was lovely to have Wick, Chance, Zack and Jeremiah all together in the story that finally wraps up Marcus and Bens emotionally charged love story because aside from the thriller side which has been edge of the seat stuff, this really has been a true love story. When these two men are together the feelings are palpable. The last love scene is mouth watering and so romantic As well as being hot as hell.

The fact that all these wonderful complex men have crossed back and forth between stories has been one of the main reasons why every great author and every book in the Pulp Friction series has been an auto buy and I'll be reading them for as long as they keep writing them.

Marcus and Benjamin though were the first who drew me in, the first who left me breathless and the two who stole my heart. Anything Mr Webb writes is 5 star plus for me and whatever he graces us with goes straight into my keepers.

Thank you once more Tom for the pleasure you never fail to provide when I read one of your wonderful books. Loved it.

Parker Williams says

After two books filled with angst and uncertainty and cliffhangers, this story brings it all to a very satisfying conclusion.

Mr. Webb has once again taken the broken and fixed it. He has given new life to people who thought their lives were over. He's gone above and beyond to make sure that those who have loved Benjamin and Marcus come away feeling glad they joined them on their journey.

That's not to say that the path will be easy. There are still things that need to be settled, and Mr. Webb ties them up so beautifully that you're sure to breathe a sigh of relief that the roller coaster has finally peaked and life is sure to settle back into place.

At least for now.

T A Webb has done it again. No matter how hard my life is being, I can sit down with one of his stories and be taken away from my life and become absorbed by his beautiful words.

Starry Knight, the third book in this series, was even better then the two leading up to this point, and I didn't think that was possible.

I discovered this was now available, went and downloaded it, and before I moved again I had read this. I wish I had the talent to tell you how wonderful this writer is, but my mere attempt of explaining how much I have loved this series will never be enough.

The characters are well rounded and believable, the story line gripping and the pace is perfect. I know that this set of three books will be re-read many times. The side characters from other works by other authors have also got me intrigued, so I will be buying and reading them soon.

Mr Webb, every time I read one of your books I am amazed by your wonderful talent, and I am again now after finishing this.

If you haven't read this series yet, go and do it now, and then try other books by this wonderful author.

Finally the final of the trilogy!! and I love Ben and Marcus more!!!!

This is sweeter than the previous two, the angst and suspense is minimal. Lovely that I got to see other characters in their personal life. There were more focus on friendship and relationship, I swear I got teary at the ending :p

Here are my favorite quotes:

He'd realized many years ago that you created family, that it was people your heart chose. Sometimes you were lucky and blood defined it, but most times, especially as a gay man, you travelled through life and fell in step with others who shared your true north.

Life is a one-chance deal, and the cards in your hand are there for a reason. Play them, lay them down or fold. But don't leave anything on the table.

Bev says

Well, this was me an hour or so ago.....absolutely gobsmacked that this had come out earlier than I'd hoped...I was thinking I'd be on holiday and would be unable to download it until I got back, but the great God in the sky must have heard my vile mutterings and for once, took pity on me....5 wonderful stars and the dancing girls are ready and waiting

I'm not giving out any spoilers, all I'm saying is that it was **TOTALLY** worth the wait, and to discover that

others are in the pipeline, well, I'm pretty excited about it!!

Tom, you're a wonderful man, and I love you to bits!! Thank you for the laughter, the tears and the Oh My Gods!!

Update. The fangirling dweebs seem to run out of puff sometimes...my apologies!!

This is the final book in the City Knight series written by T.A. Webb, and the conclusion to Marcus and Benjamin's story.

When I began the first book in this series, back in February 2013, I really did not know what to expect. I was new to the M/M genre and T.A Webb was a completely unknown author to me. Right from the very first book I was quickly immersed into the lives of Marcus and Benjamin. This is a story I have avidly followed through to this final instalment, and what a beautiful end to a truly amazing and unforgettable series.

I really don't want to tell you much more about the book itself as I would hate to ruin even a second of this captivating and tender love story. Instead I implore you to read this series, whether you are already a fan of M/M romance books or you are new to this genre, either way you can not fail to be captivated by this story.

For me this whole series, from start to finish, was a five star read. The writing flowed beautifully, the storyline was both believable and captivating, the erotic love scenes were both sizzling hot and beautifully tender and the characters were not only likeable but loveable, with undeniable chemistry.

This was a love story about Marcus and his Benjamin, a story about two broken men fighting their own personal demons, both suffering their own personal losses, but both inadvertently rescuing each other along the way, and what greater a love story than that.

Thanks Cherry (Aimie) and Rosalinda for the BR xoxo

5++++ STARS for what has been a Beautiful, Powerful, Intense, heartbreaking, heartwarming, hot as hell EXCELLENT series!!!

When I read a book from Tom Webb, I always feel there is an underlying element of the man himself that comes through, a warmth and flow that connects it all together and brings his words to life and

***Starry Knight* is no different, it is another excellent book from the master of emotions that left me grabbing for the tissues at the end.**

I have been super excited to read this last book in the *City Knight Trilogy* and I have been beside myself with the excitement and anticipation, but at the same time sad, as this is the last one and I don't really want to let these two characters that have found a place in my heart go.

Way back on February 14th of this year, by chance during my search for new releases, I stumbled on *City Knight* by T.A. Webb. Not an author I was familiar with but the blurb piqued my interest, so, as you do, I one clicked and commenced reading. A few pages in and I just knew I was going to love the book... but not only that, I had also found an author that I loved, who could completely suck me into the story and take me on a journey with his words alone, an author with immense talent and one that evoked a kaleidoscope of emotions through his writing.

I fell in love with Tom Webb that day and I just wanted to shout from the highest mountain, just how wonderful his writing is and tell everyone how fabulous the start to the *City Knight* series is. I am still waxing lyrical about Toms talent to any and all that will listen, and over the last few months as I have grown to know him, hand on heart I can tell you he is also a genuinely nice guy with a big heart.

In the previous two books in the series they were pretty action packed and intense, and had you constantly on the edge of your seat wondering where Mr Webb would take us next, but *Starry Knight* is completely different and we see a tentative relationship that had been based on very shaky foundations, with both men hesitant and a little afraid of what the future held for them, collect the shattered pieces, and together with the love they have for each other, they begin to heal the fragmented parts of their lives and no longer feel so lost and alone.

After the event from the last book we find Ben in a vigil by the side of Marcus's hospital bed... willing him to stay alive and praying he will wake up. Having been shot and almost dying gave Marcus a whole new perspective on life... he did some soul searching, realising how his self imposed isolation since Jeremy's death had hurt the friends who had been like brothers to him, family... the men that had his back no matter the issue, shunning all those who loved him the most, as they were a constant reminder of what he no longer had. Now with Ben in his life he had a reason to live, a purpose and we see Marcus open his heart, not only to Ben but also his friends for the the pain he had caused them through his grief, and he wanted to grab hold of it all and never let go again. The importance of friendship is prevalent in this last book and we again see the crossover of characters from the *Pulp Friction* series... and what a cast of characters they are, the banter and snarky humour had me laughing out loud... with our young Benjamin also coming out of his shell and joining in.

The love between Marcus and Ben is totally selfless, they are secure enough in their feelings for each other not to be insecure or intimidated by their pasts... and it was quite beautiful to finally see these two at ease and despite the high octane start to the relationship they are finally completely comfortable with each other and what the future holds for them as a couple... and the ending... Oh. My. God... it was the perfect ending to what has been a truly wonderful series and I am hoping Tom will bring us more from these two adorable characters.... "*With you it will never be the end*" I am hoping that's true..... Pleeeaaassee!!!!

We have the lovely Tom Webb with us over on our blog tomorrow... with an Interview and a Giveaway, WooHoo!!! my fangirl is dancing round the room!!!

Ok...I'm ready.

"Starry Knight", book 3 of the City Knight series, is in one word: LOVE. God, Marcus and Benjamin...can they LOVE one another! The book felt like a reward...we went through the drama, the angst, the danger, the loss, the insecurities, the pain in the first two books...and T.A. Webb rewards us with this...this love letter.

Marcus...the pillar, the foundation, the heart. I love him so much!

Benjamin...the broken, the uncertain, the needy. He brings healing to Marcus...and for that, I love him so much!

Now, all the new characters introduced in book 2 make a reappearance and they play much more prominently in book 3. It was slightly confusing and I wish I had read their dedicated Pulp Friction books to fully understand their stories. I'm looking forward to meeting Chance, Wick, and Zachary more intimately and then returning to reread Starry Knight once more.

In a nutshell - you won't find the level of drama and darkness we had in the first 2 books. Book 3 is shrouded in light...and it made me...*sigh*...happy.
