Heather Bridson says

This is a very cute story mixing the wonder of childhood with magical worlds only they can enter from our world. I loved the imagery, and the simple way it is written. I could see this book being read as bedtime stories. Anyway, the loyal dogs, and the fear of house cats was a good touch.

Anyway, I liked this book, for a child's book. It would need a bit more to be a great adult book, but I liked it. It is simple and easy for a child to follow.

I won this book in a goodreads giveaway. I was not paid for my review in any way, and all opinions are my own.

Fun read! (5 stars) August 1, 2014

Love a good book that gets the imagination going! My boys will surely be asking to reread this book for ages.

And another, this time from a young girl (I love reviews by kids!):

Awesome! (5 stars) December 29, 2014

Hi, if you are reading this you are wanting to get Another World In My Backyard. I am only 11 and I love the book. It took me only 4 days to read, I couldn't put it down. There was happy and sad parts; there was adventure. You can go fight trolls and ogres without leaving home. You can fight danger and evil without leaving your couch. So this is Another World In My Backyard review by an 11 year old girl.

This is a fun read for middle school children but adults would enjoy it too. The story of a young boy who discovers that his backyard, and his dog, are not as he thought. The writer shows great imagination with this story.
