Basic College Mathematics John Tobey , Jeffrey Slater , Jamie Blair , Jennifer Crawford

With You Every Step of the Way The Tobey/Slater/Blair/Crawford series retains the hallmark characteristics that have always made the text so easy to learn and teach from, including a building block organization. Each program builds essential skills and conceptual understanding by breaking the mathematics down into manageable pieces. The new editions address the latest trends and dynamics related to developmental mathematics course structures, including helping students gain a stronger conceptual understanding, while contextualizing the math. Instructors will find the inclusion of new conceptually oriented Guided Learning Videos with the accompanying "Video Workbook with the Math Coach" (in MyMathLab), "plus a new emphasis on Career Explorations throughout the text and MyMathLab course to help students explore potential career paths. The Tobey series is flexible, and well-suited for a variety of classroom formats, including lecture-based, computer-lab based (modular and/or self-paced), hybrid, and online. Also available with MyMathLab MyMathLab(r) is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them absorb course material and understand difficult concepts. For this edition, the MyMathLab course includes new Guided Learning Videos and an updated and expanded "Video Workbook with the Math Coach." Note: You are purchasing a standalone product; MyLab & Mastering does not come packaged with this content. Students, if interested in purchasing this title with MyLab & Mastering, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. If you would like to purchase both the physical text and MyLab & Mastering, search for: 0134266358 / 9780134266350 * Basic College Mathematics plus MyMathLab -- Access Card Package

Package consists of:

0134178998 / 9780134178998 * Basic College Mathematics

0321431308 / 9780321431301 * MyMathLab -- Glue-in Access Card

0321654064 / 9780321654069 * MyMathLab Inside Star Sticker "

Basic College Mathematics Details

Date : Published January 13th 2016 by Pearson (first published December 31st 1969)

ISBN : 9780134178998

Author : John Tobey , Jeffrey Slater , Jamie Blair , Jennifer Crawford

Format : Paperback 736 pages

From Reader Review Basic College Mathematics for online ebook

Rabbit {Paint me like one of your 19th century gothic heroines!} says

I used this textbook for all my math classes so far, and I'm hoping to keep using it by getting the same professor until I'm no longer in 101 math classes. I also have been using this to practice my math skillz, since I'm not taking another math course until the spring semester. It was pretty expensive (to me!). Each course I had to get a new matlab code (which was \$100+), but the prof was thinking of next semester not using the matlab, because it can get pricy. I'm hoping to get her for the third class in a row, and we don't need a new matlab code.

Sylvia Kuras says

Sometimes an adult needs a little help with the basics of math. This is a textbook that delivers.
