## JKAF says

I absolutely love this series!!!

Seanan is sent from Quirlixen to Earth to find a mate because women are very rare on his planet. When Seanan goes through the portal a gun fight was going on and he tried to help the screaming woman. The first time Jules met Sean she thought the he was a lizard man but people convinced her it wasn't real...that she was well from the gun fight.

They have an unfortunate meeting two years later when she tries to steal his car.....and succeeds!

Jules saw and typed something she shouldn't have and now the Velazquez Crime Family. Only Sean and his new family can protect her but she still runs.....

## Cheri says

I love all of the "Pillow Worlds" and now the Dragon Shifters from other books and another planet have come back to earth in search of a mate. At least Sean(an) has. His drop in has lasted several years and he is adapting. But his reason for the trip remains, and the female, Jules, is not making his life easy.

This one has a great adopted family, some really bad people who want to do bad things, a strong female who thinks she needs to right all wrongs. What's he gonna do with her—well we all know what he'd like to do with her. And she thinks he's hot too, so why is she so stubborn? You'll need to read this good one to find out. I loved the story and am hoping there is a follow up with a certain family member, but you need to see if you can guess who I mean as well, wouldn't want to spoil it for you.

Thank you Michelle Pillow for another visit with a sexy dragon man and his woman. I was provided and ARC for an honest review. This is a strong recommend from me.

When dragon-shifter Sean hears a woman's scream, little does he know that he'd become stuck on Earth and lose the woman in question. Jules is convinced that she saw Sean become a dragon the night he saved her, but she didn't stick around after thanking him. Years later the two of them cross paths again, except this time

Sean isn't going to let her slip away and Jules finds it difficult to ignore the pull back towards him. But Jules has someone on her tail and she can't let them catch her...

This was definitely different from the other Captured by a Dragon Shifter books! Sean was more assimilated into human culture than the other lead male characters have been, which I thought made for a different story. He was more aware of what was and wasn't acceptable behaviour when it came to women and that meant that it often came into conflict with his shifter nature of protecting and keeping a woman safe. Overall I just thought of Sean as a bit of a gentleman.

I really liked Jules as a character. She didn't just do what she was told and made her own decisions, even if that involved putting herself in danger. She was the kind of character that would do anything to keep the people she cared about safe, and it made her likeable, if a little frustrating for some of the other characters!

There was a good relationship between the two of them. They both felt the mating bond, and did act on it, but it also didn't feel as simple as that. The two of them actually talked about their pasts and their hopes, as well as having moments where they disagreed. I really liked them as a couple!

As Sean was a bounty hunter, and Jules was on the run from the bad guys, there was plenty of action in this book and most of it was without having a bit of dragon worked in! It worked well to keep up a good pace and I could feel myself being riveted to the page!

## **Marta Cox says**

I've been a fan of this author since I first had her Dragon Lords books recommended to me. They are fun , sexy and imaginative and yet this spin off series ( although shorter) seems to be really taking off now. No it isn't futuristic but I think that's the beauty of it as the author has gone back in time to when the dragon shifters first returned to Earth seeking females. So this story takes place here and now in a contemporary setting rather than on the almost medieval planet Quirilixen and its enabled the author to really bring something different to her dragon shifters . A chance to travel through a portal and arrive who knows where but with females increasingly becoming rare for Seanan there is no choice.

What makes this story so different is the fact that the heroine Jules is frankly a bit of a vigilante . Alone and determined to try to stop those who prey on the weak she just seems to fly by the seat of her pants! Skating a bit too close to the seedy underworld at times and trust me that lands her in all sorts of hot water . A fluke sees her getting attacked but when off duty cops and a guy that looks like a dinosaur show up what's a girl to think? Oh yes stress and hallucinating must surely go hand in hand!

For Seanan or Sean as he's now called that chance meeting changed everything. Just the sound of her voice and his dragon knew it had found its Mate yet Jules disappeared leaving Sean desperately trying to understand this new strange world he finds himself on. So imagine his shock and surprise when a couple of years later he encounters Jules again and you've guessed it she is still in trouble but this time there's no way Sean will not protect her. Slight problem though as Jules doesn't quite see things that way and no matter how hot he makes her there's no way Jules will let Seanan get dragged into her mess .

This is part romance and yet part suspense too which was very unexpected and yet works so well. Sean might have been out of his depth initially but the author played a blinder by letting him get taken under the wing of an Irish Catholic family of cops! I could picture it so easily, the teasing and the love of this close knit family. Then there's the chemistry the couple share which frankly resembled a blow torch! I did expect it from Seanan with his almost animalistic side but the first physical interaction between them had my jaw dropping and no doubt flies aiming at my mouth! Just not what I expected, no not at all. Without revealing

the story too much all I can say is this reads more like a modern crime drama at times but of course with Ms Pillow at the helm you know there's a happy ending  
I was gifted a copy in exchange for an honest review  
Four and a half from me

Hunted by the Dragon is the fourth book in the adult paranormal (sci fi?) series, Captured by a Dragon-Shifter by Michelle M. Pillow. I have only read one book by Michelle in the past- Love Potions, and it was a very different kind of story. So while I didn't love Hunted by the Dragon as much as I loved Love Potions (which had hot scottish warlocks...umm hello?!) I did really enjoy it. It is about a race of dragon shifters that are from another planet. They have to come to earth to find their mates in human women, because their race doesn't have very many women. I came into this series a little late, and while I had no problem following the storyline, I do think I would have benefited from reading the first three books in the series. I think it would have given me some more context into the history of the dragon shifters and their world. Hunted by the Dragon takes place primarily on earth, so I still don't know a ton about their culture, and ways, etc.

I really, really loved Sean or Seanan. I thought he was considerate and, patient, and very determined. In the end I liked him so much more than I liked Jules. She was so frustrating! Always trying to run away, even though Sean had done nothing but help her at every turn. It grew to be very tiresome for me, so I can only imagine how frustrated Sean must have been. But he is a bounty hunter, so it wasn't anything new to him.

Hunted by the Dragon is quick read that I am sure fans of the series will really enjoy. If you are new to the series, I would probably recommend starting with book one to get a feel for the world. I would imagine that the first book had a lot more development and background on the dragon shifters as a race. And then if you enjoy the book, you can jump around and pick up book 4 next. What I liked most about this book was the unique premise. I have never read a shifters series where the shifters were from another planet. It added an interesting twist to the story. Though Sean did not like to be called an Alien, it is sometimes hard not to draw that comparison. I also found it interesting that they do not shift into a full dragon, so they cannot fly. They are more like a human/dragon hybrid when they shift. Still fierce, for sure, but I found this to be delightfully different.

Bottom line: Hunted by the Dragon is a very solid read, and is just as well written as the prior book by Michelle M. Pillow that I have read. I liked the premise, setting and characters of Love Potions more so that is still my favorite series of hers, but if I get the chance to read more of the Captured by a Dragon Shifter series, and can learn more about the race as a whole, I think I will enjoy this one more. If you are new to this series, and the unique premise intrigues you, grab a copy of book one and check it out. It is pretty cool.

This review is from: *Hunted by the Dragon (Captured by a Dragon-Shifter Book 4)* (Kindle Edition)

This is the fourth book in Michelle Pillow's *Captured By A Dragon-Shifter Series*. I am a big fan of the entire dragon Lord series and am enjoying these prequels about the days before *Galaxy Brides* starting providing Brides for the Quirlixen shifters. These stories are fun and take place closer to our present time as the main series occurs well into the future.

This is Seanan's story. He (Sean) is one of the first shifters to go through the ancient portal to earth that was used for the shifters to escape from persecution on our planet. The plan was for Sean to quickly go through the portal and bring back a bride. His brother Galen was going to anxiously be waiting his return hoping that this would be the start of saving his people by bringing females to be mates for the Draig. Apparently the several Suns of his planet emitted radiation that made carrying a female child very rare.

When Seanan arrives thru the portal he is immediately drawn into a drama taking place. A woman is screaming and Seanan comes to her rescue at the same time three off duty policemen arrive. Jumping in front of one of the men to save him from being shot Sean is heralded as a hero and adopted into the Boston police family. Unable to get back to his planet or find the portal Sean's adopted family keep his "shifter" abilities a secret and help him assimilate to this new world. The woman Jules he has saved has made a huge impression on him and he can't get her out of his mind.

Two years pass by and Jules has placed herself in major danger, possessing hard evidence against a violent crime family (mainly the sister and remaining brother). On the run Jules runs into Sean again when she tries to steal his car in an attempt to avoid capture. Jules has not been able to forget Sean either and the Sparks rekindle when they are reunited. Sean vows to protect Jules and this suspenseful crime drama escalates as does the feelings of love the two have for each other.

There is lots of excitement, drama,thrills, some humor and a bit of smexy as well. This book does play out more as a crime drama than a paranormal shifter story but it is still a fun read. I do enjoy more the stories in this series that take place on Quirlixen. I hope that the series does eventually find these characters getting back to their lost planet and that the portal does become a successful means of finding their true mates.

I would actually rate this 3.5 stars if I could. The story was good and more developed than the other books in this novella series, but the heroine was pretty unlikeable IMO. I have a feeling we'll be seeing more of the Flahertys in future books.

Some of my favourite dragon shifters are back on Earth!! We have come back to when the inhabitants of

Quirilixen used a portal to visit Earth and try to find mates. Seanan has his chance and when he arrives he realises things have advanced way beyond what his ancestors could have imagined!

When he manages to stumble into an assault on Jules, he saves the day and is later helped by a family of police officers. When they find him he is in his shifted state so they know he's not exactly a neighbourhood guy! When he can't find the portal home, his new family adopt him and help him adjust to 21st century Earth life.

Fast forward a few years and Sean (as he is now known) is a brilliant bounty hunter. When he again meets up with Jules, he finds she is neck deep in trouble. She has become a bit of a vigilante and she'll do whatever she needs to do to bring down the local crime boss.

Try as she might there is no shaking Sean this time, not when he realises that she is his mate. He's just trying to figure out when the best time to tell her that the dino-guy that saved her the first time they met is actually him!

Sean's character is fabulous as the fish out of water alien, with his use of idiom always just that wee bit out of sync! Jules is a spitfire and not your typical damsel in distress. The cops who adopt Sean are amazing and I really hope they get finagled into another book (maybe their own series please!!!)  
Awesome mix of crime, scifi and romance. Can't wait to see what happens next!

Seanan was a Draig knight from another planet who has come to find his mate and return home to his only living relative his brother but when he arrives on earth he finds that the woman that is his mate is being attacked and he and another human attempt to prevent her from being killed and Seanan takes two bullets and is seriously wounded the human he took the bullets for is a cop Brian Flaherty and his brother and Father chose to help him that night even though they could see he was not human because he had shifted into defensive dragon mode and since he had saved Brian his family took him to a doctor they new they could not take him to the hospital because he was an alien and he couldn't speak English so they took him home with them but they took the woman Jules to the hospital when she was better they brought her to see him and he has spent the next two years trying to find Jules after she came and thanked him for saving her life she left and was never seen again until...Sean was sitting in his car thinking about his brother Galen probably thought he was dead and he still didn't know where to start looking for Jules Dalton he saw someone come up to fast and get the drop on him holding a gun to his head tells him to get out of his car when he turns around quick catching the thief off guard he gets the drop on the woman and sees the weapon was lipstick case even though he is holding his weapon on her he cannot believe that she tried to rob him with female paint as he calls it he realizes the woman is Jules he questions her wanting to know where she had been all this time and what had happened to her when she realizes this is the Sean that saved her life she is so surprised because he sounds like a Bostonian even though she knows he didn't sound or look like he does now two years ago but she got the drop on him again and left him on the pavement she apologizes for stealing his car but she didn't have a choice she let the Flaherty's convince her that she was just having hero worship feels and that she didn't see a Dinosaur or something like that that night even though she was hurt badly they said she must have been hallucinating they didn't see anything like that seeing Sean again tonight all the old feels came back but she couldn't go back since she was running from the evil woman and her brother that she worked for they wanted her dead and they would be hot on her tail soon enough she had to get out of town and far away before she could stop for rest. Sean was on the phone and already had Brian tracking her so he could

protect her and get his car back. Great Story very suspenseful and romantic. I received a copy for an honest review. Check out Michelle's book with Galen's story Sean's brother.

This book was not your typical shape-shifting, other world book. Although the book was entertaining the sparks were missing between Sean and Jules. As always the action was great, but I got tired of Jules trying to run away. The story itself was good and I will get the next in the series. Can't wait to see what or who Lizard Man is.

This is the fourth book in the Captured by a Dragon-Shifter series and is about the first Dragon-Shifter to go through the portal back to Earth. I have loved Michelle M. Pillow's Dragon-Shifters since I read the first book in the Dragon Lords series. The Captured by a Dragon-Shifter series has been fun since it happens today instead of the future.

Seanan was only supposed to step through to Earth and then right back Quirlixen. He even promised his brother, Galen, that he it would be a quick trip there and back. Fortunately for an off-duty police officer (Brian Flaherty) and a woman (Jules), Seanan shifts and comes to their rescue instead of going back, saving their lives and taking a bullet to the stomach. The off-duty officer's family sees Seanan's shifted form and knows they cannot take him to a hospital to get help. They take him to a doctor and then into their home where he stays while he recovers. The Flaherty's help him adjust to life in Boston, protect his secret, and he ends up as a member of their family. Seanan (or Sean as the Flaherty's call him) only sees Jules one time during his recovery and then she disappears from his life.

Jules is in serious trouble. She has a mob group after her because she has incriminating evidence on them and they want it back. She sees a person with a fast car and is so desperate to get away that she car-jacks them, not realizing its Sean she is stealing until he turns around. Jules takes off in his car and tries to disappear...but Sean is determined to not let her get away this time.

Neither of them has been able to forget about the other and sparks fly when Sean finds her. He will do anything to protect her since he knows she is the one for him. Sean does his best to keep her safe and helps her any way he can.

This was such a fun book to read. There was a lot of action, great characters, all combined into a great story line. I can't wait to see how these characters will appear in the future books in this series.

### Great series

Each book tells the tale of an alien shifter. How they adapted to the human world. Seanan hears a scream and know he must protect the female. That's where the adventure starts. Another great books.? from Michelle M Pillow.

## Amanda Richardson says

4.5 stars, I loved Michelle Pillow's latest novella in the Draig world. Seanan is one of the ancient dragon shifters to cross a portal into Earth to find an Earth female. The second he landed on Earth, he heard a woman scream and instantly attempted to save her. He did save Jules, but he was injured in the process. He knew from the second he looked at Jules that she was his mate. They are separated while he heals and he becomes part of a family who helps him learn about Earth, get a job and find a place to live. He now goes by Sean and has never forgotten Jules and longs to see her again.

Jules has been getting into trouble for the last couple of years and is on the run again. She ends up stealing Sean's car to continue to run. When he catches up to her, the chemistry between these two exploded. There are some very passionate, hot scenes between Jules and Sean. He wants nothing more than to be her mate and take care of her, Jules isn't ready for that, she needs to continue to run to take care of unfinished business.

This is a novella and I loved it because I love the Draig world and its inhabitants (even when they are on Earth), the short length seems to leave out some details. I don't think Sean and Jules actually know each other very well before they got together, I feel like a little is missing from that. But I highly recommend this novella, passionate love scenes and a ton of action between Jules and Sean and the bad guys.

I received a complimentary copy in exchange for an honest review.

## Cherri-Anne says

There and back. A simple task. 5 GOLD DRAGONS

Life as I lived it died that night. They'd come together in an incredible explosion of chaos and insanity. WHEW!! What a DRAGONLICIOUS story! Michelle has knocked another one out of the park! snort Scratch that, she knocked this one right off of the Planet! The UNIVERSE even! It's one helluva ride from start to finish! It's funny, intense, hot, nerve wracking and completely PILLOWTASTIC!!! Of course, it is made all that much more DRAGONTASTIC when you live the story through Seanan's eyes, taking our English language, words & quotes way too literally! Being able to see us through the eyes of an "alien" is not only freakin' hilarious, but done PAWFECTLY! I don't know how Michelle does this not only once, but time & time again, all while keeping it both fresh & original, in every. single. book. Although, it doesn't really matter HOW she does it as long as she KEEPS on doing it!! :) I ABSO-FANG-LUTELY LOVE this book! In true Michelle fashion, I was transported into the story to experience it, live it, through the characters eyes,

feeling it all like I had really lived it! \*sigh\* But of course the really good parts \*wink wink nudge nudge\* didn't happen. \*sigh\* However, the rest of the story more than made up for it! I will admit to being heart sore for Sean though with my heart breaking a couple of times! As you know, it isn't all about the sad though! Nope! There are a couple of parts that are so hilarious in here, that I had to stop reading because I couldn't even see through the tears! "You can track the personal GPS you gave me for your tree worship ceremony last year." "It's called Christmas." ROTFL The one that had me REALLY crying with laughter isn't one I can share here. You will have to read it and discover them all on your own! Trust me, it'll be worth it! Well, the WHOLE BOOK is worth it! Heck, Michelle's entire bibliography is worth it! I have read at least half of Michelle's published library and I have yet to find ANY story, of any length, in any series, of any genre that I DIDN'T love, Love, LOVE! If it has "by Michelle M. Pillow" on it, then I know I am going to be blown away, swept away into a magical place full of humor, love, magic & wonder where I can live, laugh, love, play & mate in! Michelle truly is one phenomenal author who is BEYOND exceptionally talented & genuinely gifted! Michelle & one other author - \*cough\* Mandy \*cough\* - were my first binge buys in ebooks when I FINALLY got an ereader many, many, many moons ago and I have never looked back! Michelle very quickly became one of only a handful of authors that are my "go-to authors" and I cannot see that EVER changing! With her phenomenal talent, her ability to write stories of all kinds that hold both my attention and my heart, Michelle is one diverse author that had me instantly captivated from that very first book of hers that I ever read! Hell, from the COVER even! From that moment on, Michelle has secured herself a forever place on my bookshelf and in my heart! After all – she is Michelle M. Pillow - NEW YORK TIMES & USA TODAY BESTSELLING ROMANCE AUTHOR!
