#?Noelle?

I love him enough to let go.

I hope Beau doesn't take this the wrong way. I just want him to think about the words I'm about to say. I'm pregnant with another man's child. A fact we seem to forget when we get caught up in our own little universe. I will start to show pretty soon and I don't want to worry about a reporter popping out of the bushes every time we are together...I think we should end things now before I get hurt in the crossfire of his lifestyle. I have to concentrate on having a healthy baby and being the best mother I can to my baby.

?#?Beau?

I will never let her go. Ever.

I hold Noelle tight and squeeze her like I never want to let her go. I don't give a damn if she's pregnant by another man. Her baby is a part of her, and I will love every part of her. I will be there for her baby in a way that that sorry excuse of a man, Victor, could never man up to be. I love Noelle and her unborn child. I have no qualms about being with her forever, and I didn't even believe in long-lasting relationships before Noelle. Now that she's my woman, I don't ever want to hear her talk about leaving me, ever again.

What would you do if the man you loved threw you out into the night, after you told him you were carrying his child? Would you fight for the love you once had, or walk away and begin to pick up the pieces of your life? Luckily for Noelle Winters, the meeting of a stranger puts her in the right place at the right time to take her out the cold and into the warmth of Rockstar Beau Barringer's heart. The question is, will this unlikely connection survive color lines, distrust and the skeletons from the past.

Not happy

I like the storyline. Some of the wording needs to be addressed. Some of the things they say don't sound like what normal person would say. At times it felt like they were acting or putting on a performance in the book. It started getting better toward the end. Pretty much want to kick Beau's butt.

Noelle Not Having A Happy Holiday!

I a person name Noelle sure having it rough, from her parents to her first love and now her new man. Noelle is insecure and she has trust issues. She has been hurt so much by the people she loves the most. So now that she has a new man Baue, she can't trust him, cause he started off with a lie . I enjoyed the story and can't wait to read what will happen next.

I read this book on Kindle Unlimited.

Wow this was like a Cinderella love story as Beau sweeps Noelle off her feet after she has been let down by her ex boyfriend and she is carrying her ex's child.

Then Beau does the unthinkable and lets us all down and causes Noelle to doubt their love. I have to admit I was so disappointed when the book ends there.

We now have to wait for book 2 to find out if he can save their relationship.

This is the first book that I've read by the author, and I am hooked. From page one Noelle is dealing with the torment of loving a total a-hole. I hated Victor even after he came clean at the end. In his case, closure wasn't what it was cracked up to be. Though Noelle handled that well, letting me him know that his help and co parenting is optional. The relationship Noelle began with Beau has me rooting for their love even though he kinda effed up at the end of the book...

Oh boy!

Should have waited until November to read this book. Now I have to wait impatiently for part 2! I truly like the characters and I'm glad they are not too over the top. Until November ...sigh

Rise says

Good story, however I see Noelle character a little too weak where it annoys me.

ILoveToRead says

Good Read, BUT-

I can't catch a break these days. Every book seems to tell the same story, without separating itself from the rest of the pack. This was sweet, with good chemistry between the H & h, but I'm pissed that there is a second book to read. As if the story couldn't have concluded with this book.

Familiar plot line. Noelle discovers that her live-in boyfriend is not on the same page and she runs away and gets stranded in a snow storm. She's able to find refuge at a nearby house, but the occupant isn't open to having unannounced, uninvited strangers in his home. He reluctantly lets her in to call a tow truck and she finds out she has to spend the night.

What Noelle doesn't know that he's a Rock Star taking a break from stardom. They, of course are attracted to one another and things get heated very quickly. Noelle has a secret that she reveals to Beau, which doesn't phase him at all. Is Beau the man of her dreams or nightmares?

I liked this book though it ended on an angst filled cliffhanger. The author did indicate at the end of the book that Part 2 would be released on November 12. The author released Part 2 at the end of October, so she gets kudos for exceeding her fans expectations on delivery.

Lastly, I loved the book cover, the male model has a great face and together they make a cute couple.

Noelle & Beau....weak characters!! Or I'm simply done with the weak pregnant sisterheroine, dealing with stalkerish baby daddy, with her new & confused alpha hero drama, which of course won't be complete if sisterheroine's strong sistergirl yt bff doesn't have her 6.!!

Awesome

Lynda Garcia says**Rock on Noelle!**

I am so team Noelle....I was so team Beau until the last page....it seemed too good to be true...a truly Cinderella storyline wrapped in the fluffy goodness of a white Christmas.....the lowlife ex Victor is lurking around...Noelle finally stands up to his b.s....Beau is the Prince charming who says and does everything right...so romantic...so handsome...so rich...sexy....then his ex enters the picture....what the actual f\$@k....Beau even excepted another man's baby because he says he's in love with Noelle....I cannot wait until November 12th for the sequel....my temperature just went through the roof...damn good story.

Will2pear95 says**I Hate Cliffhangers!**

A warning that a book has a cliffhanger ending is appreciated. I don't like them and feel cheated. I did not like either Noelle nor Beau. Both are weak, selfish, and morally lacking characters. Will not be reading the next book.

Trina says**Interesting**

I started this book then set it a side. I picked it back up again because I started to see my book club trend the title. I'm happy I did. Beau and Noelle so far they have or had it all. It seem a little to perfect. With out giving any thing away my question is what man would? Even the strongest still wonders if they made the right decision. So far the story to me is well written. It's time for some drama. It was starting to become predictable at times. To loving. If that makes since. I'm happy this has become a series. There is no way a story like this could've been told in one installment. Also Victor is a A** .

Tracey says

In her book Noelle's Rock, author Theresa Hodge pairs two unlike people together. Noelle has just informed her live-in boyfriend Victor that she is pregnant with their child and Victor tells her to get and abort. An argument ensue between the couple causing Noelle to leave. Has Noelle is driving trying to clear her head

and understand why the man she loves and who is suppose to love her doesn't want their child. Trying to avoid hitting a deer Noelle lands her car in a ditch as she spots a house in the distance she goes to see if they have a phone she can use. "Barry" [who is Beau Barringer - hot rock star], initial is hostile toward Noelle believing the she is a report who has encroached on his space. Even though Beau allows Noelle in to take shelter, he still checks to see if her story about her car is true, it is. Beau is attached to Noelle and one thing leads to another as these two find themselves burning up the sheets. Noelle cannot seem to get "Barry" off her mind, her friend Shelby invites her to a concert and Noelle finds out that "Barry" is Beau Barringer - hot rock star. After the concert, Shelby and Noelle are backstage and Noelle plans to give "Barry" a piece of her mind, she faints. Beau is drawn to the woman who faints backstage as she seems familiar to him. It's Noelle, he has not been able to get her off his mind. As Beau whisk Noelle away to the penthouse where they burn up the sheets again as Beau declares his love for her and claims her as his. As with every good story, there are roadblocks, in the form of Victor (who Noelle finds already has a one-year old son with an older woman and he never told Noelle) and Courtney Nicks, Beau's rock star old girlfriend. Even though his band member knows he loves Noelle they can see that Beau just might give in to the temptation that is Courtney Nicks! It just got REAL!!!

I am staying tuned for part 2 due out in November, I am a big believer in the power of love [yes, even for those in books] and hope that Beau and Noelle can survive the storm.
