## Paparazzi (The Francesca Trilogy) Christina Dennison

When the daughter of an elite Italian family, fashion photographer Francesca Garancini, meets star soccer player Paolo Romaldo their chemistry is immediate and electric. If the two aren't tearing off their clothes (Tom Ford and Valentino, naturally), they're jet-setting from Capri to St Kitts to Istanbul. Amid their lifestyle of fast cars and high heels, can their relationship survive the distractions, dalliances, and differences that threaten to tear them apart?

The only thing to which Francesca has ever committed wholly is her career as a photographer. But in Paolo, she finally finds someone she can't give up. The two dodge paparazzi while taking in an opera at La Scala, share an intimate, champagne-fueled romp on Christmas Eve, and make a pizza delivery man more than a little uncomfortable. On the surface, they're the perfect couple: beautiful, glamorous, and successful. And then, on a trip to Turkey to shoot for a controversial magazine, Francesca meets Selim, married scion of a powerful Istanbul family. Selim is magnetic, and intent on seducing Francesca amidst the glittering lights of Topkapi Palace.

In the glamorous tradition of Judith Krantz's *Scruples*, *Paparazzi* explores an erotically-charged relationship between beautiful people in a sexy, international setting.

Breathtaking. This wild ride through part of Francesca's life is simply stunning. The window into the worlds of high fashion, world travel, and sexy athletes is foreign and fun and fabulous. Her demanding dual lives demand every ounce of her attention to prevent an internal implosion as the sex explodes off the page. I don't know whether to love Francesca or shake her...

I was given an advanced readers copy of this book and have decided to leave a voluntary review. I rate this book 2.5 stars because in the beginning I was enjoying it. But towards the middle and end I lost interest in the book. This all due to one of main characters francesca at first I thought she was ok. Now I just lost all respect for her. I mean how can she go from being infatuated with Paulo to wanting nothing to do with him. Mo eyes or not it shouldn't be that big of deal. He was loyal and he cared about her. She was just stuck up.

Christina is a new author I recently discovered. She reached out to me and asked if I would be interested in reading and reviewing Paparazzi. After reading the synopsis, I knew this would be something I would be interested in. I'm so glad I decided to give it a go. I LOVED this book. Christina is a very talented author and I'm looking forward to reading the rest of the Francesca Trilogy!

Francesca is an inspirational woman. Her family is well known and very wealthy, but she doesn't want to use that power to influence her career. She works with a professional name so she can succeed on her own. I think I would do the exact same thing if I were ever in that position. I would want to know I got to where I am without the help of my families name. I'm very independent like she is and I feel so accomplished when I do something without the help of others.

I enjoyed reading about Francesca's travels. Unfortunately, that isn't something I will be able to do a lot of in my own life, so it was fun pretending I was her while I was reading. What woman wouldn't want to have a lavish lifestyle of travel, a successful career, and clothes to die for?!? I loved her style...Prada, Gucci, Valentino...a girl can dream!

The relationship between Francesca and Paolo is hot and heavy, but is that enough for a relationship to last? I loved the chemistry between them and the steamy sex scenes, but I was conflicted with how I felt about Paolo. There were a few scenes where I wanted to reach in the book and slap him.

I am very interested to find out what happens next with Francesca and Selim! The ending of Paparazzi is a cliff hanger and I am counting down the days until I can read the next book in the trilogy!

Paparazzi is definitely a book I would recommend to my book friends!

Finally romance novel that is well written, has great character development and centers around a strong, independent, complex woman! At last!!! Paparazzi is an enjoyable read that keeps the reader hot and entertained, while assuming the reader can read beyond a 7th grade level. Can't wait to for the next book in the trilogy!
