## **Ripple Effect** Traci Hunter Abramson

Kylie Ramsey is supposed to be invisible. In fact, to keep her unnoticed, the FBI has changed the world-class swimmer's identity and moved her twice in the last year. However, there are still a few people who would quickly recognize her. One of them is Matt Whitman, the man Kylie could have easily spent eternity with. The other is Judge Rush — the man who wants Kylie dead.

Now the former rising-star athlete is forced to live a life in the shadows. Worst of all, Kylie believes she will never see Matt again — especially now that she lives two thousand miles from his home. But through a twist of fate, or perhaps a fatal FBI clerical error, they both arrive in the same town, and Kylie now struggles between feelings of elation and dread. What was supposed to be a safe haven could become the most dangerous place on earth.

### **Marie says**

There were a couple minor things that I didn't like in this one but I have to read the next one to see how the story ends.

---

### **Elizabeth says**

Cute and engaging sequel. I really liked how it jumped right in with the plot,...and gave the main character some friends this time!

---

### **Cherie says**

This is the sequel to "Undercurrents." I think I like Abramson's Mormon fiction better than any I have previously read. Maybe it is because she worked for the CIA for 6 years before retiring to be a Mormon mom and writer of fiction. I would recommend her novels to anyone wanting to read Mormon fiction that doesn't make the reader feel that they are in grade school and can't quite handle the real world yet.

#### **Feel good love story**

Such an exciting love story (maybe a little cheesy) mixed with mystery, espionage and suspense distressingly on the edge of your seat.

I have just recently been reading her books. I have enjoyed them a lot. They are a good LDS fun read. Kept

me turning the pages and kept me looking for more of her books to read. I am on the next series now.

You will want to read this series before you read the Saint Squad Series. As there are people mentioned from this series in the next.

### **Donna Weaver says**

Another enjoyable story in this trilogy. I love Matt so much. I feel for Kylie, but I did get irritated with how she kept being hot and cold with him and jerking him around emotionally. But it finally resolved itself, but the story is obviously not over yet.

### **Shannon says**

Kylie Ramsey is Christal Jones' new identity as a member of the Witness Protection Program. In the previous book, *Undercurrents*, she met and fell in love with Matt Whitmore but had to be relocated when her cover identity was blown. Now, it's been over a year since she's seen Matt, and she's living in Texas and wondering if she'll ever be able to see him again. Matt shows up in town, not knowing Kylie is there, as a new member of the local minor league baseball team.

The only reason to read this is because it's between the other two books in the series. It's short, and most of it is a rehash of stuff that went on before. It's really just a bridge book between the first and the third. Read it so that you know the few details in between.

### **Kim Dennis says**

This is my 2nd time through this book, although, I didn't remember any of it. Had you asked me before I reread these books, I would have said the first one was the best one, but this time through I found that I enjoyed this one more. Maybe it was more character development, I don't know. I was listening this time through, and in spite of the fact that the narrator isn't fabulous, I got lost in the book, and was completely surprised when it ended. I'm looking forward to finishing this series.

The main issue in this book addresses is that Matt Whitmore and Kylie Ramsey want to get married but the men coming after Kylie find her once again. Setting, Texas-Where Kylie was relocated to and where Matt was traded for baseball. Salt Lake City/Provo-Where Kylie and Matt are married. They didn't get married in the Salt Lake City temple because when they were driving to the temple one of the men protecting them was shot and had to go to hospital and so they drove all the way to Provo. Characters: Kylie Ramsey/CJ Whitmore, Matt Whitmore, Doug Valdez, Jill, Brooke, Jim and Katherine Whitmore (Protagonist), Chris Rush, Jimmy Malloy, Rush's men.

Kylie Ramsey has lived in Texas for about a month and is trying to forget about the man of her dreams that she had to leave because of the danger he had put her in when she went to his house and came face to face with Chris Rush, the guy who wanted her dead. When Matt gets traded to play baseball in Dallas they meet

again. They could feel the connection between them just when they had seen each other at a swimming party. (They had been separated for over a year). When her roommates asked about how she felt about the new guy she had to lie to them because of what had happened. When asked if he had a girlfriend Matt told everyone that his old girlfriend had died in an accident because they didn't want their secret to get out or any of their friend to tip off someone in the Rush organization. They were both very excited to be able to be with each other again but Kylie was nervous what Doug Valdez, the agent in charge of her case, would find out.

Whenever Kylie would have to testify Doug would come and pick her up and tell her friends that they had a loved one die, and that he was her cousin. When the next trial she would have to testify at Doug came to pick her up. The night he came Kylie and Matt were out on a date and Jill, Kylie's roommate was the only one home and she and Doug had felt a connection between themselves and Doug asked her out on a date. When Kylie returned with Matt Doug was at the apartment and when he saw Matt he was furious. They then tell Jill about what Doug was really doing and why he was mad because Matt was there. Matt and Kylie then tell Doug that they wanted to get married. They go to Salt Lake City Utah just to make sure that nobody was following them and they are on their way to the temple on of the agents with them is shot when one of Rush's men find them. They drive to Provo and then are married in the Provo temple.

I liked about this book how it was really intense and fun to read. I couldn't put it down.

Quotes: "I'm just a minor Leaguer." (29) Matt is showing that he isn't cocky and he's not all about himself. "You tried to get me mad so I would go swim?" (92) Matt and Kylie have gotten into a fight and he would send her gift baskets so she would get a mad, when she gets mad she goes swimming.

Theme: No matter what happens, everything will work out for a reason.

I would recommend this book to people who like lots of romantic drama and LDS books.

This book is different from other books because it's written different than other love stories.

### **Sara Cardon says**

Shaye has yet another new identity, this time as Kylie and in Texas. She's sad to be separated from her boyfriend Matt and hopes things resolve in the next few years so she can move on with her life instead of being in limbo, and danger. I love the roommates Kylie has - they're sweet and fun. I especially like seeing the FBI agent Doug who keeps tabs on Kylie. Their cover stories are funny, with the roommates not knowing what's going on. And Matt ends up in the same town! Talk about problems keeping Kylie under the radar.

### **Skyler Pérez says**

I loved that no matter what, love always prevails. This is a great novel that features the LDS gospel with a romantic twist.

---

### **Michelle Christensen says**

This was a fun sequel to the first book, and I really enjoyed it. Most of the book was about the romance that struggled because of the witness protection program. The mystery/suspense was hanging in the background and became more prominent in the last part of the book. I'm looking forward to the next one in the series.

**Kassie Miller says**

Loved it! Great series; I'm excited to read the next one!

---

**Rebecca says**

A bit over the top in my opinion. The longer this series goes on, the more unbelievable and fluffy the plot is.
