## **Stealing Love** H. Schreter

When a business trip to Romania turns to a crazily funny travel romance.

A businessman is sent to Romania to find a plot for a new hotel. When he is pointed to a small Transylvanian village, a wild and funny plot unravels.

Why did our protagonist remain in the village, and why was he subsequently driven out in disgrace? Who is the man hiding under the table? What do you do when your neighbor raises a pig on his terrace? And, is it true that sweet garlic and a good man are two things that are hard to come by?

**Funny, original and woven with insights about life and human relationships**

**Stealing Love** places its charming protagonists in bizarre situations, anchored in the unfamiliar and fascinating context of Romanian villagers daily-life. With skill and charm, H. Schreter portrays funny, zany and memorable characters who never fail to surprise the reader.

**Many stories within a story**

This book is a trip. It's very different. It has a lot of charm. You may have to decide to stick with it because it's so different, but it will be worth it. It gave me many smiles.

**Hilarious Love Story**

I loved reading this novel, the writer has an awesome way of entertaining the story with folk tales, wise sayings and parables. Being a christian, I loved how he tied bible stories in to demonstrate the different cultures and life in general

**Not my cup of tea.**

Nice concept and has it's moments, but I think there are better choices. But not a waste of time for a variety or change of pace reading.

**Cristina A says**

Easy to read, enjoyable. As I am a native Romanian I mostly enjoyed the accurate description of the villagers and their simple yet full of wisdom life. I wish there was a second book. Would be nice to see how Cristina and the cavalier get along.

I received a paper version of this book and have to admit that it is what I enjoy holding in my hands the most.

The book is unlike others that I have read until now. For me, it was not the love story that made the book interesting but the short funny stories included in the plot. The main character does not seem like a perfect guy, more of a lost in his life and his choices. Thanks to the stories of his past, he is able to reflect on his life and choices he makes. What I like about this book, is that his past ventures have an influence on him and help him make life choices. However, as in real life, he is never sure whether the choices he has made are the

right ones.

I think that every one of us can find something he/she can relate to, in one of the characters of this book. Also, this book is very interesting for women, as it shows the way a man thinks.

Clever and funny. a very special humor.

---

### **Amir says**

This was one of the finest books I've read in years.

### **Honorata says**

I really enjoyed reading it, it was relaxing, pleasant but also exciting. I also had some great laughs at times.

I can highly recommend this book to everyone who is looking for something light and entertaining. And to those who consider going to Romania. You can find some interesting cultural information. This combined with a great, dynamic plot makes me want to visit Romania. Well, Israel too.

I enjoyed the Author's breezy, honest and quite funny writing style. The story moved along as a somewhat travelogue about the Authors journey to Romania to purchase land for his Company. Along the way he meets several colorful characters and also manages to change his life.

**Life is nuts, so is this book.**

If you like Jewish humor, this could be the instruction manual. Very funny from start to finish, a great read and cheerer upper .

This book was a fantastic read from from the first page to the last page. I couldn't put it down and read the whole book in a day. Schreter does a stand up job really adding wit, humor, and some drama into his novel.

What I really like was how personable the characters were. I love that the setting took place in Romania, something different from what I usually read. Schreter does a wonderful story line with a great plot. This book has wild situations and crazy riddles that must be solved, which draws you in to read more and more to find out. I laughed, cried, and realized the characters were more than what they seemed. I really really enjoyed this book and recommend this to all.

This is not normally my style of read, but I found it pleasantly humorous at points. Unfortunately, many of the depictions of Romanian culture were very cliché.

Cover/Title: I needed a cover with straw on it for a challenge so that is why I picked the book. I also expected it to be funny so I thought I would enjoy this more.

Characters: What really irritated me was that the MC seems to not have a name. People introduce themselves to him but he never gives his name. I found him to be rather dull and boring throughout the story. I was hoping he would be funny.

Plot: The book seems to be centered around an old Romanian practice of stealing a bride when the parents disapprove of the man she has chosen. The nameless MC keeps debating whether or not he should "steal" his "angel" or settle for the woman he has grown comfortable with.

Overall: I am very disappointed. I was expecting more humor in this book. Instead, I found some really dumb people. Their antics were not funny in my opinion. They just seemed dumb. Maybe the humor in this book just isn't my kind of humor.
