What opens the door to disease in our body? What enables us to get well? Dr. William A. McGarey answers these questions and shows us the way to glowing good health. Guided by the teachings of Edgar Cayce, Dr. McGarey has treated thousands in his Arizona clinic. He treats the human body not as a biochemical factory but as a whole entity in time and space, affected by our consciousness and the experienced of life, now and through many incarnations. Utilizing holistic concepts that use our minds creatively to bring health to our bodies, Dr. McGarey shows us a process of healing that includes: special diets and herbs, the preparation and use of Cayce's famous castor oil packs. Effective healing massages, an exercise program, treatments for specific illnesses, including psoriasis, colitis, asthma, heart disease, arthritis, and many more, daily meditation and prayer, dreams in health and healing, a Cayce pharmacopoeia.

First read Healing Miracles by William MCGarey which is similar to this book. Liked this book and found the most interesting parts were the cases of patients illnesses and how they were healed. Many of the patients come to the A.R.E (Association for Research and Enlightenment in Phoenix AZ) when conventional medicine has failed. There are parts I disagree with and was not interested in such as dream interpretation and the belief in past life's.

I'm not sure how I feel about the actual remedies. There are a few remedies like coca cola that don't make sense to me. There are also no explanations as to why things are recommended or who is recommending them. For example, why is lamb okay but beef not? All that being said, this is the second best Cayce health book I could find. I recommend reading this along with the other good Cayce book Edgar Cayce's Quick & Easy Remedies: A Holistic Guide to Healing Packs, Poultices and Other Homemade Remedies

I'm totally embarrassed by how much I used to be obsessed with all things Edgar Cayce. That's all I have to say on all my reviews of his books.

I've become a firm believer in castor oil and slippery elm. I agree with most of the ideas and concepts presented in this book and that we have remarkable capacity for healing.
