A very useful book for those into Magic. Loads of charts...very much influenced by Crowley's 777. There's loads of practical things within it's pages imo.

Friday W. says

Great reference book with correspondence tables, alphabets, symbols, etc.

The BEST reference for symbolism. Again, if you're creating your own spells it's a MUST, along with Cunningham's Herbal.

A GREAT reference book for all things occult.

Joseph Santiago says

Good reference for glyphs, runes, and Halloween scrawlings. It was an interesting read.

Gori Suture says

This is a great reference book containing useful correspondence charts for comparative religious study. It is massive and detailed, but it does have an occasional error, so don't use it without cross-reference.

Spider says

Always loved this book. Lots of symbols and descriptions.
