prag ? says

okay, new rule.

no adding untitled books from series *i haven't even read.*

like, what is wrong with me??

Tucker (TuckerTheReader) says

You know what this means.... We won't know what happens until 2020

Camile Souza (This Chamber of Books) says

At the end of *The Vanishing Stair* it says this book will apparently be called *The Hand on the Wall*??

Whatever the name is, I'm *bitter* that I have to wait till next year to read it after yet another cliffhanger. The life of a reader is not a fair one.

Sofie says

Sorry, there's not 2, but 3 books in this series? I like the first but how long can Johnson drag this out??
