Between morality and reality, what will a man choose when all he knows is brutality?

2256: Ologun Jowett is convicted of carrying out a massacre and sent to the planet Deceiver to labour in its deep-sea mining facilities. He arrives as the planet undergoes a catastrophic ice age due to the appearance of 'God's Blade' – a colossal fragment of unknown origin which has come to rest midway between Deceiver and its sun.

2338: Captain Frank Sharplin is the caretaker of Black Ball – the outpost established on God's Blade – a non-taxing appointment as steward of what had once been a bustling city but is now little more than a tourist resort. His peaceful life is shattered when a transport is discovered under the ice on Deceiver. To his amazement, one of the passengers – Ologun – revives and life on Black Ball takes some unexpected turns.

The peace of Black Ball is shattered when IMC ships arrive and commence battle – with each other. Soldiers invade and the inhabitants run for their lives, desperate to find an escape.

More mysteries ensue. How does Ologun survive his horrific injuries? And what is his mission?

Can Sharplin overcome his passive nature and save the lives of those in his care?

What is the Prospect Division planning? And who are the 'people' who resist them?

Who or what is the mysterious Spectra?

### **M Beal says**

I wanted to really like this book. The idea behind the story was good, it was just not executed. In the first chapters there was multiple time jumps that when I went into chapter two I was just confused. That feeling didn't leave until I finished the book.

I won this book through a Goodreads Giveaway.

I had a difficult time reading this book for 2 reasons. To be honest I couldn't get past the third chapter. The first reason I had a hard time was the first few chapters were going back and forth in time. I was not able to keep up with the time line in those few pages. The second reason was that the flow of the book when I was reading it did not feel natural to me. It was not written in the style that I normally read, speak, or write. It felt like any natural word that would fit in a sentence was replaced by a new word from the thesaurus.

When I read the description it sounded like an amazing book. I was sad I could not finish. There are readers out there that will love this book. I'm just not one of them.
