Where We Ended

Nora Flite

Where We Ended Nora Flite

Laiken has finally heard the dark rumors about me.

Everyone who hears runs away. But she can't.

She's trapped here, in my house—with me.

Each minute we're together I'm driven to swallow her up. To see if the electricity that moves between us will grow or vanish. I thought we were falling in love. Now, I'm sure that she hates my very existence.

But when she glares at me... I see a flicker of desire in her blue eyes. The way she fixates on my mouth reminds me of how filthy we've been.

How filthy we *could* be.

My father has warned me to stay away from her. He knows she's become my weakness. All my life, I just wanted to be the perfect soldier for him. To do everything he asked so he'd be proud.

I thought I could.

Laiken is doing her best to prove me wrong.

From Reader Review Where We Ended for online ebook

Danii Beckett says

The second half of the duet, Where We Ended covers the questions we had in the first book, ran me through the gamut of emotions, causing me to think then rethink everything about the story. I loved this story, relished in the love the characters shared, even in the face of nasty, hurtful, manipulative people. The heroine is insanely strong, beautifully resilient. I'm so damn glad I read this story. ♥?

Brittany Alexander says

I really enjoyed this duet! There's romance, and some pretty hot sex, but it's mostly suspense and to be honest, that makes me more excited than anything else.

Like I said, there's plenty of suspense. It's great, I couldn't put my kindle down. The only thing I think that could have been drawn out a little bit was the ending with the reunion. I would have liked to see more of that dynamic.

I absolutely love Dominic. He sounds so sexy and he's protective and has saved Laiken many times. He's her guardian angel, for sure.

We learn many secrets in this book and it's as exciting as you'd expect. Nora Flite wrote a really great duet and I would love to have these adorn my shelf in paperback form.

♥?Fantasy Land Blog Book Reviewer♥? says

What a wonderful ending to this twisted love. Not only do we see the final to Lakin and Dominic's love story but there is so much more to everyone's story that it will blow your mind.

Lakin is holding on by a thread at this point. Her sister is finally with her. Dominic secret is out and Lakin is trying to wrap her mind around it. But as always, Dominic's family needs her to find her father and will do anything to make it happen.

This is one twisted family and the secrets are deep. I loved it.
I voluntarily read an advanced reader copy for my honest review.

Melanie says

*** solid 4 stars ***

The second book of the duet offers a lot more insight for Dominic since there are some chapters from his point of view.

If you thought book one was dark and steamy, you'd better prepare yourself. It gets better.

As the plot develops, most scenes become steamier. The Bradley family is seriously effed up. They do things that are horrendous! But in the end ... well - you'll have to see for yourself!

We get to meet amazing characters again and get a part of their story. And they fit so well into Laiken's and Dominic's story.

Could not put this book down because until I read the last page, I did not know how this was going to end. And let me tell you, that Nora Flite created something amazing here :)

Cheryl Graham-Petit says

If you're a fan of stories that are dark, emotional, and steamy with some twists, secrets, angst, drama, suspense, redemption, and hot sex scenes, then you definitely need to read this duet.

Note: You MUST read Where We Began before Where We Ended.

I volunteered to review an advance reader copy of this book.

Sunny Shelly Reads says

Where We Ended is the conclusion of the Where We Began duet and is not a standalone! The story picks up exactly where the other left off, and this book explores more of Dominic's history. Will Laiken be able to forgive Dominic for his actions?

This story explores more of Dominic's side of things, as he has more chapters in his POV than he had in the first book. But like I felt with the first one, I just felt that something was missing. Parts of the story were all over the place, and I didn't feel that the throughline remained for this series from start to finish.

However, Laiken and Dominic certainly have a lot of chemistry, which is kind of what saved this story for me. Overall, I found it just to be okay. I finished the book with too many unanswered questions to have felt like I loved this tale. I received an advanced copy and voluntarily left a review.

Siobhan says

The Where We Began duet instantly grabbed me through the synopsis and the promise of darkness. I love a good dark romance, and this seemed to promise an abundance of darkness – thus, I was more than happy to dive in. Unfortunately, the first book in this duet was not to the level of darkness I like when I read a dark romance – things were all rather tame, yet I was hopeful book two would slip us even deeper into the darkness.

Unfortunately, my feelings towards Where We Ended were much the same as my feelings towards Where We Began. Things were interesting, but they were rather tame compared to what I had been expecting.

If you have not read *Where We Began*, go back and do so now. *Where We Ended* picks up where the first book left off, instantly throwing you into the deep of things. The mystery and intrigue has already built up in the first book, and this second one continues while slowly feeding us the answers we desire. With plenty of details touched upon in the first book, there was a lot about this one that kept me turning the pages to see how everything came together in the end.

I did enjoy watching as everything came together with this one, although I wasn't blown away by it as I had hoped to be. Certain details were predictable, other details seemed to come out of nowhere, and I feel as though a lot tried to happen with this one and not everything was done as well as it could have been. There were plenty of points where my attention started to drift, and despite my interest in seeing how things came together I did question whether I could skim parts of this book and simply hunt down my answers.

Overall, it was an okay ending to a decent duet. I'm glad I read it, but it's not something I would go out of my way to read again.

Julie says

Entertaining for sure

Well the conclusion was just as good as book #1. A page turner for sure. I must say, I didn't consider this a dark read, at all. And after I read my books, THEN I read some other reviews, I saw many mention, hot, steamy, etc. I can't figure that one out. The hot factor is very low and doesn't cause any steam what so ever. I enjoyed this very much so that's kind of all that matters, I just needed a~ LOT more hotness.

Kimothy says

What a great ending to this duet, book 1 had me gripped, and book 2 as exactly the same. So much more information came to light in this book and the emotions and suspense got pulled even more tighter. I am still relatively new to Nora Flite and her writing but of the three books i have read, she deftly weaves in emotions, romance, and a whole lot of suspense into her stories. And let me finally say her male leads are hot, just pointing that out.

Philomena Callan Cheekypee says

This is book two of a duet. As I loved book one *Where We Began* my expectations were high. I wanted this to flow like one book. I wanted more twists and I wanted a perfect ending. Did I get what I want?? Well let me just say the author exceeded my expectations.

This starts where book one finishes. Laiken finally hears Dominic's secret but still loves him. Her heart and mind are not saying the same thing. They've both been told to stay away from each other but the attraction is strong. Dominic will do everything he can to keep Laiken and her sister safe.

I seriously could not see how this book was gonna go. So many scenarios entered my head. Some great twists that I didn't see coming had me totally gripped.

I'm so looking forward to reading more from this author. A huge five stars for this duet.

Anna D'incecco says

Nora Flite's Where We Ended was an action packed, twisty turn, sexy scenes, absolutely perfect ending to this duet of Dominic and Laiken's love story. Dominic thinks Laiken hates his guts but he couldn't be more wrong. You must read book one before reading Where We Ended to find out how Laiken proves her love. It's absolutely worth it.

Sammy- Just Let Me Read says

Where We Ended was a fantastic conclusion to a steamy, emotional, and suspenseful duet. With a unique storyline jam packed with angst and secrets, this series is one of Nora Flite's absolute best.

"I want it in your mind all the damn time. I want to be the only thing you can think about."

I finished Where We Began and dove headfirst into this one because, ANSWERS! I needed them badly. Everything was hanging so precariously in the air at the end of the first book and I was anxious to see how things would play out. Laiken was pulled in so many directions emotionally, and I felt my self being pulled apart right along with her. Flite is so talented at writing emotional components within the storyline, making the reader really feel along with the characters. Both Laiken and Dominic were so well-developed, and the supporting characters were multi-faceted and intriguing, each bringing something unique to the storyline. I love that even amid all of the chaos surrounding them, Dominic and Laiken's unbreakable connection was present throughout every moment of the story.

"No matter how frightening or dangerous something is, I'm bigger than it. I'm better than it. The sky could be falling and somehow, I promise...I'd find a way to keep you safe Laiken."

The storyline flowed so well, the suspenseful elements balancing effortlessly with the angst and romance. The way things came to light in Part 2 of this duet was really well done. With secrets layered upon secrets, unpredictable family dynamics, and a blossoming love between two people destined for each other, this story had everything a romance lover could hope for in a book. Nora Flite is a masterful storyteller, and I really look forward to seeing what she has in store for us in the future.

Linda Barrett says

Wow just wow.

This book is absolutely fantastic.

It's 5 stars of pure emotional rawness and takes you on a fantastic journey.

I couldn't wait to read the conclusion of the duet and I definitely wasn't disappointed.

Nora Flite knows what her readers want and she definitely delivered it with Where we ended.

The emotions were deep and I could feel Dominic and Laiken's raw passion, hurt and hope coming off of the words, it really pulls you in from the first chapter and had me gripped throughout.

If you want to read a well written book that will leave you satisfied and give you everything you could

possibly want from a book, I'd highly recommend you one click this duet now.
Just make sure you read *Where we Began* first.

April Symes says

This is book two of *Where We Began Duet* by Nora Flite. This starts where book one finished off. Laiken heard Dominic's secret and still loves him. Yet her heart and mind are not saying the same thing which causes Laiken concern. They've both been warned to stay far away from one another yet they can't – so they continue to be around each other because that connection, attraction, chemistry is INTENSE. What I noticed is that Laiken is pulled in many directions emotionally- I felt for her yet I was glued to the story and went along as she was going thru all this angst, drama. Laiken is still kept as hostage in the Bradley home so has no way of escaping from the situation. In Book 2 Dominic has this dark personality and he doesn't know how to be anything but dark and coldish. While he isn't trying to be so dark and dominant, he just is. He needs Laiken to accept him as he is. There are so many twists and turns in this story, I had to totally revise my thoughts about everything. This is one dark romance that has it all - angst, suspense, drama, jealousy, heartbreak, manipulation, passion, steamy scenes and ultimately true LOVE. If you want to read something that will capture your heart and your mind, this is one duet that definitely will. Get ready for an emotional rollercoaster ride. You will completely not be disappointed.

My Rating: 4.6 stars *****

"I received an advanced copy of this book from the author at no cost to me."

here is my amazon review link---<https://www.amazon.com/gp/review/R2L0...>

Romance Readers Retreat says

This is the second book in this duet and it is crucial that you read book one first as this book picks up the story directly from where we were left on a cliffhanger and crucial part in the story.

Laiken learnt Dominic's dark secret and we were left wondering what this would mean for them and if it changed Laiken's feelings for him. However, poor Laiken is still hostage in the Bradley home so has no way of escaping from the situation.

Book one left me with so many questions that I was looking for answers to from this final instalment. Things develop quite well but I still felt something was missing from the story and as characters came and went the whole crux of the story from the start just seemed to be lost for me and not adequately addressed. This book tends to deal more with the issues surrounding the warring families than the relationship between the two main characters for me too.

I loved Laiken and despite her situation found her to be a strong developed character. I enjoyed hearing more from Dominic in this instalment and loved his dark persona but loved seeing that he needed Laiken to accept him. The attraction and chemistry between the two was off the charts.

Overall an enjoyable duet that has a hot slightly twisted romance at its heart.
